Latest FCP_GCS_AD-7.6 Study Notes & FCP_GCS_AD-7.6 Hot Spot Questions

Desktop FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) practice test software is the first format available at Actual4Dumps. This format can be easily used on Windows PCs and laptops. The Fortinet FCP_GCS_AD-7.6 practice exam software works without an internet connection, with the exception of license verification. One of the excellent features of this FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) desktop-based practice test software is that it includes multiple mock tests that have Fortinet FCP_GCS_AD-7.6 practice questions identical to the actual exam, providing users with a chance to get FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) real exam experience before even attempting it.

Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q20-Q25):

NEW QUESTION # 20

Refer to the exhibit.

Google Cloud Fabric Connector

```
FortiGate-VM64-GCP # gcp: add GCP Lab
gcpd sdn connector GCP Lab prepare to update
gcpd get token
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/instance/service-accounts/default/token
gcpd metadata result:200
Token expires in: 3599 seconds
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/project/project-id
gcpd metadata result:200
gcpd got project id from metadata: fcp-fcss-course-development
gcpd sdn connector GCP Lab start updating
gcpd sdn connector GCP Lab got empty project list, trying sdn update from metadata project: fcp-fcss-course-development
gcpd sdn connector GCP Lab get instance list successfully
gcpd didn't find any GKE cluster for project fcp-fcss-course-development
gcpd sdn connector GCP Lab list GKE cluster failed
GCP Lab got 3 addresses
gcpd sdn connector GCP Lab start updating IP addresses
gcpd sdn connector GCP Lab finish updating IP addresses
```

An administrator configured GoogleCloud as an external fabric connector on FortiGate.
Which conclusion can you draw from the output?

- A. The external fabric connector shows that an administrator created three dynamic firewall addresses.
- **B. The external fabric connector found multiple IP addresses assigned to Google Cloud instances.**
- C. The external fabric connector is misconfigured.
- D. The external fabric connector is unable to find a valid Google Cloud project.

Answer: B

Explanation:

The output shows the connector successfully retrieved project information and instance IP addresses (GCP Lab got 3 addresses), indicating it found multiple IPs assigned to Google Cloud instances.

NEW QUESTION # 21

Your organization is running an application in their shared services virtual public cloud (VPC) and must control network access natively in the cloud.

How can your organization meet this requirement?

- A. Create a firewall policy for the entire VPC that allows access from all networks.
- B. Create IAM access to allow access from specified resources only.
- C. Create another VPC in front of the shared services VPC and deploy FortiGate.
- **D. Create a firewall rule that allows access to the application instance only.**

Answer: D

Explanation:

Creating specific firewall rules that restrict access directly to the application instance allows precise native network access control within the shared services VPC.

NEW QUESTION # 22

Refer to the exhibit.

Which three things happen during a failover in which the passive FortiGate VM becomes the master cluster member in an active-passive high-availability (HA) environment? (Choose three.)

- A. The health check status will indicate that the old active cluster member is unhealthy.
- B. The health check for the passthrough load balancers forces internal traffic to route to port2 of the new active cluster member.
- C. The health check ensures that incoming traffic to the ephemeral external IP address of the load balancer is forwarded to the new active cluster member.
- D. The custom route is updated using API calls to forward all traffic to port2 of the new active cluster member device.
- E. The Management IP address moves from port3 of the current active member to port3 of the new active cluster member.

Answer: A,C,D

Explanation:

The load balancer health check detects the failure of the old active member and forwards traffic to the new active member.

The health check reflects the status change, marking the previous active as unhealthy.

API calls update custom routes to redirect traffic to the new active cluster member's internal interface (port2).

NEW QUESTION # 23

You are tasked with deploying a load balancer in Google Cloud that does not terminate sessions arriving from outside the VPC and that forwards traffic to the organization's internal web servers.

Which load balancer type should you deploy?

- A. Proxy network load balancer
- B. External application load balancer
- C. External passthrough load balancer
- D. Internal passthrough load balancer

Answer: C

Explanation:

An external passthrough load balancer forwards traffic without terminating sessions, preserving the original client connection, which is ideal for forwarding traffic directly to internal web servers.

NEW QUESTION # 24

Refer to the exhibit.

An administrator is troubleshooting network connectivity issues between two VMs deployed in Google Cloud. One VM is a FortiGate located in the subnet "wan" that is part of the VPC "e-commerce". The other VM is a Windows server located in subnet "servers", which is also in the "e-commerce" VPC.

What are two reasons you cannot ping the Windows server from FortiGate? (Choose two.)

- A. The default Google Cloud firewall policy does not allow this traffic.
- B. The Windows firewall is blocking the traffic.
- C. ICMP traffic is blocked between Google Cloud subnets by default.
- D. Add a Google Cloud firewall rule to allow ICMP traffic inbound to the Windows firewall VM.

Answer: B,D

Explanation:

Google Cloud firewall rules are stateful and, by default, do not allow ICMP traffic; you must explicitly allow ICMP inbound traffic to the Windows VM.

The Windows VM's own firewall might block ICMP traffic, preventing ping responses.

NEW QUESTION # 25

.....

It is quite clear that let the facts speak for themselves is more convincing than any word, therefore, we have prepared free demo in this website for our customers to have a taste of the FCP_GCS_AD-7.6 test torrent compiled by our company. You will understand the reason why we are so confident to say that the FCP_GCS_AD-7.6 exam torrent compiled by our company is the top-notch FCP_GCS_AD-7.6 Exam Torrent for you to prepare for the exam. Just like the old saying goes: "Facts are stronger than arguments." You can choose to download our free demo at any time as you like, you are always welcome to have a try, and we trust that our FCP_GCS_AD-7.6 exam materials will never let you down.

Latest FCP_GCS_AD-7.6 Study Notes: https://www.actual4dumps.com/FCP_GCS_AD-7.6-study-material.html

Fortinet New FCP_GCS_AD-7.6 Exam Camp Yes, RealVCE can help you, Fortinet New FCP_GCS_AD-7.6 Exam Camp Mostly you waste a lot of time to fail and hesitate without good study method, The FCP_GCS_AD-7.6 recognizes that scholars may also have distinctive learning patterns and options, Fortinet New FCP_GCS_AD-7.6 Exam Camp Free 3 months updates, The

FCP_GCS_AD-7.6 test answers are tested and approved by our certified experts and you can check the accuracy of our questions from our free demo.

Couple this with a tendency for people with more years of experience FCP_GCS_AD-7.6 to make more than those with less years, and you have an alternate explanation of why pinnacle certifications tend to pay so well.
