## FCSS\_EFW\_AD-7.4 Practice

What's more, part of that ExamDumpsVCE FCSS\_EFW\_AD-7.4 dumps now are free: [https://drive.google.com/open?id=1moz4rfMX6u7xigbDn1Ts\\_AqPLOuFxyDI](https://drive.google.com/open?id=1moz4rfMX6u7xigbDn1Ts_AqPLOuFxyDI)

ExamDumpsVCE release the best exam preparation materials to help you exam at the first attempt. A good Fortinet FCSS\_EFW\_AD-7.4 valid exam prep will make you half the work with doubt the results. To choose a Fortinet FCSS\_EFW\_AD-7.4 Valid Exam Prep will be a nice option. Our Fortinet FCSS\_EFW\_AD-7.4 test dumps pdf can help you clear exam and obtain exam at the first attempt.

Every person in the IT industry has his own dream: to pass FCSS\_EFW\_AD-7.4 certification exam, or a promotion, a raise and so on in the IT career. The dream of ExamDumpsVCE is to help you achieve FCSS\_EFW\_AD-7.4 exam certification. After you purchase our FCSS\_EFW\_AD-7.4 Exam Dumps training materials, we will provide one year free renewal service. If you fail FCSS\_EFW\_AD-7.4 certification exam, we can guarantee you that we will give you a full refund.

## Quiz Fortinet - Newest FCSS\_EFW\_AD-7.4 Practice Test Fee

As we all know, a lot of efforts need to be made to develop a FCSS\_EFW\_AD-7.4 learning prep. Firstly, a huge amount of first hand materials are essential, which influences the quality of the compilation about the FCSS\_EFW\_AD-7.4 actual test guide. We have tried our best to find all reference books. Then our experts have carefully summarized all relevant materials of the FCSS\_EFW\_AD-7.4 exam. Also, annual official test is also included. They have built a clear knowledge frame in their minds before they begin to compile the FCSS\_EFW\_AD-7.4 Actual Test guide. It is a long process to compilation. But they stick to work hard and never abandon. Finally, they finish all the compilation because of their passionate and persistent spirits. So you are lucky to come across our FCSS\_EFW\_AD-7.4 exam questions. Once you choose our products, you choose high-efficiency exam preparation materials which will help you pass exam for sure. We are absolutely responsible for you. Stop hesitation!

|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"> <li>VPN: This section of the exam measures the skills of Network Security Engineers and covers the implementation of secure communication tunnels for enterprise environments. Candidates will learn to configure IPsec VPN with IKE version 2 to establish encrypted connections. The section also includes the implementation of ADVPN to enable on-demand VPN tunnels between different sites, ensuring secure and dynamic connectivity.</li> </ul>                                                                                                                                                                           |
| Topic 2 | <ul style="list-style-type: none"> <li>Routing: This section of the exam measures the skills of Security Administrators and covers the implementation of advanced routing protocols to manage enterprise traffic effectively. Candidates will gain expertise in configuring Open Shortest Path First (OSPF) for dynamic routing and Border Gateway Protocol (BGP) to facilitate communication between different networks, ensuring efficient traffic flow across enterprise environments.</li> </ul>                                                                                                                                                                |
| Topic 3 | <ul style="list-style-type: none"> <li>System Configuration: This section of the exam measures the skills of Network Security Engineers and covers the implementation of the Fortinet Security Fabric, ensuring seamless integration across security solutions. It also includes configuring hardware acceleration on FortiGate devices to optimize performance. Candidates will learn to set up different operation modes for high-availability clusters and implement enterprise networks using VLANs and VDOMs. Additionally, it covers various use case scenarios that demonstrate how Fortinet solutions contribute to secure network environments.</li> </ul> |
| Topic 4 | <ul style="list-style-type: none"> <li>Central Management: This section of the exam measures the skills of Security Administrators and focuses on implementing central management for Fortinet security solutions. It includes configuring and managing devices centrally to streamline network security operations. Candidates will understand how to maintain consistency in security policies and automate deployments for efficient management of large-scale enterprise environments.</li> </ul>                                                                                                                                                               |
| Topic 5 | <ul style="list-style-type: none"> <li>Security Profiles: This section of the exam measures the skills of Network Security Engineers and focuses on managing security inspection profiles, including SSL and SSH inspections. Candidates will learn to apply a combination of web filtering, application control, and Internet Service Database (ISDB) to enhance network security. The section also covers integrating Intrusion Prevention Systems (IPS) to monitor and mitigate threats within enterprise networks.</li> </ul>                                                                                                                                   |

## Fortinet FCSS - Enterprise Firewall 7.4 Administrator Sample Questions (Q16-Q21):

### NEW QUESTION # 16

An administrator is deploying APs that are connecting over an IPsec network. All APs have been configured to connect to FortiGate manually. FortiGate can discover the APs and authorize them.

However, FortiGate is unable to establish CAPWAP tunnels to manage the APs.

Which configuration setting can the administrator perform to resolve the problem?

- A. Assign a custom AP profile for the remote APs with the set mpls-connection option enabled
- B. Enable CAPWAP administrative access on the IPsec interface
- C. Decrease the CAPWAP tunnel MTU size for APs to prevent fragmentation
- **D. Upgrade the FortiAP firmware image to ensure compatibility with the FortiOS version**

**Answer: D**

### NEW QUESTION # 17

Which two statements about the use of digital certificates are true?

- A. The end entity's certificate can only be created by an intermediate CA
- B. An intermediate CA can sign server certificates
- **C. An intermediate CA can validate the end entity certificate signed by another intermediate CA**
- **D. An intermediate CA can sign another intermediate CA certificate**

**Answer: C,D**

### NEW QUESTION # 18

A FortiGate is configured as an explicit web proxy. Clients using this web proxy are reporting DNS errors when accessing any website.

The administrator executes the following debug commands and observes that the n-dns-timeout counter is increasing:

```
#diagnose test application wad 2200
#diagnose test application wad 104
DNS Stats:
n_dns_reqs=878 n_dns_fails= 2 n_dns_timeout=875
n_dns_success=0

n_snd_retries=0 n_snd_fails=0 n_snd_success=0 n_dns_overflow=0
n_build_fails=0
```

What should the administrator check to fix the problem?

- A. That DNS traffic from client workstations is allowed by the explicit web proxy policies.
- B. That DNS service is enabled in the explicit web proxy interface.
- C. The connectivity between the client workstations and the DNS server.
- **D. The connectivity between the FortiGate unit and the DNS server.**

**Answer: D**

### NEW QUESTION # 19

Refer to the exhibit.

## Routing table on FortiGate\_A

```
FortiGate_A # get router info routing-table all
Codes: K - kernel, C - connected, S - static, R - RIP, B - BGP
       O - OSPF, IA - OSPF inter area
       N1 - OSPF NSSA external type 1, N2 - OSPF NSSA external type 2
       E1 - OSPF external type 1, E2 - OSPF external type 2
       i - IS-IS, L1 - IS-IS level-1, L2 - IS-IS level-2, ia - IS-IS inter area
       V - BGP VPNv4
       * - candidate default

Routing table for VRF=0
S*   0.0.0.0/0 [10/0] via 10.1.0.254, port1, [1/0]
C    10.1.0.0/24 is directly connected, port1
C    10.1.4.0/24 is directly connected, port3
B    100.64.1.0/24 [200/0] via 10.1.0.254 (recursive is directly connected, port1), 00:39:45, [1/0]
B    172.16.1.252/30 [200/0] via 10.1.0.1 (recursive is directly connected, port1), 00:42:48, [1/0]
C    172.16.100.0/24 is directly connected, port8
```

## Routing table on FortiGate\_B

```
FortiGate_B # get router info routing-table all
Codes: K - kernel, C - connected, S - static, R - RIP, B - BGP
       O - OSPF, IA - OSPF inter area
       N1 - OSPF NSSA external type 1, N2 - OSPF NSSA external type 2
       E1 - OSPF external type 1, E2 - OSPF external type 2
       i - IS-IS, L1 - IS-IS level-1, L2 - IS-IS level-2, ia - IS-IS inter area
       V - BGP VPNv4
       * - candidate default

Routing table for VRF=0
S*   0.0.0.0/0 [10/0] via 10.1.0.254, port1, [1/0]
S    4.2.2.2/32 [10/0] via 10.1.5.254, port4, [1/0]
C    10.1.0.0/24 is directly connected, port1
B    10.1.4.0/24 [200/0] via 10.1.0.100 (recursive is directly connected, port1), 00:41:02, [1/0]
C    10.1.5.0/24 is directly connected, port4
B    100.64.1.0/24 [200/0] via 10.1.0.254 (recursive is directly connected, port1), 00:38:14, [1/0]
C    172.16.1.248/30 is directly connected, C0
C    172.16.1.252/30 is directly connected, A0
C    172.16.100.0/24 is directly connected, port8
```

The routing tables of FortiGate\_A and FortiGate\_B are shown. FortiGate\_A and FortiGate\_B are in the same autonomous system. The administrator wants to dynamically add only route 172.16.1.248/30 on FortiGate\_A. What must the administrator configure?

- A. The prefix 172.16.1.248/30 in the BGP Networks section on FortiGate\_B
- B. Enable Redistribute Connected in the BGP section on FortiGate\_B.
- C. A BGP route map in for 172.16.1.248/30 on FortiGate\_A
- D. A BGP route map out for 172.16.1.248/30 on FortiGate\_B

**Answer: D**

Explanation:

FortiGate\_A and FortiGate\_B are in the same autonomous system (AS), and FortiGate\_A does not currently have route 172.16.1.248/30 in its routing table. However, FortiGate\_B has this route as a connected route.

To dynamically advertise only 172.16.1.248/30 from FortiGate\_B to FortiGate\_A, the administrator must configure a BGP route map out on FortiGate\_B that specifically permits only this prefix.

A BGP route map out on FortiGate\_B controls which routes FortiGate\_B advertises to FortiGate\_A. If no filtering is applied, FortiGate\_B might advertise all BGP-learned and connected routes, which is not what the administrator wants. The route map should include a prefix-list that explicitly allows only 172.16.1.248/30 and denies everything else.

### NEW QUESTION # 20

Which two tasks are automated using the Install Wizard on FortiManager? (Choose two.)

- A. Adding devices to FortiManager.
- B. Importing interface mappings from managed devices.
- C. Installing configuration changes to managed devices.
- D. Previewing pending configuration changes for managed devices.

Answer: C,D

### NEW QUESTION # 21

.....

Created on the exact pattern of the actual FCSS\_EFW\_AD-7.4 tests, ExamDumpsVCE's dumps comprise questions and answers and provide all important FCSS\_EFW\_AD-7.4 information in easy to grasp and simplified content. The easy language does not pose any barrier for any learner. The complex portions of the FCSS\_EFW\_AD-7.4 certification syllabus have been explained with the help of simulations and real-life based instances. The best part of FCSS\_EFW\_AD-7.4 Exam Dumps are their relevance, comprehensiveness and precision. You need not to try any other source for FCSS\_EFW\_AD-7.4 exam preparation. The innovatively crafted dumps will serve you the best; imparting you information in fewer number of questions and answers.
