

# FCSS\_SDW\_AR-7.4 Exam Vce Format, FCSS\_SDW\_AR-7.4 Reliable Exam Answers

If you are ready for the exam for a long time, but lack of a set of suitable FCSS\_SDW\_AR-7.4 learning materials, I will tell you that you are so lucky to enter this page. We are such FCSS\_SDW\_AR-7.4 exam questions that you can use our products to prepare the exam and obtain your dreamed FCSS\_SDW\_AR-7.4 certificates. We all know that if you desire a better job post, you have to be equipped with appropriate professional quality and an attitude of keeping forging ahead. Our FCSS\_SDW\_AR-7.4 exam questions will be your best ally to get what you wanted.

## Fortinet FCSS\_SDW\_AR-7.4 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                                                                                                      |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>Centralized Management: This domain evaluates network administrators' competence in deploying and managing SD-WAN configurations centrally using FortiManager. It includes tasks such as implementing branch configurations and utilizing overlay templates to streamline network management.</li></ul>                |
| Topic 2 | <ul style="list-style-type: none"><li>SD-WAN Configuration: This section of the exam measures the skills of network engineers and covers configuring a basic SD-WAN setup. Candidates are expected to demonstrate their ability to define SD-WAN members and zones effectively, ensuring foundational network segmentation and management.</li></ul>         |
| Topic 3 | <ul style="list-style-type: none"><li>SD-WAN Troubleshooting: This part assesses the troubleshooting skills of network support specialists. Candidates should be able to diagnose and resolve issues related to SD-WAN rules, session behaviors, routing inconsistencies, and ADVPN connectivity problems to maintain seamless network operations.</li></ul> |
| Topic 4 | <ul style="list-style-type: none"><li>Configure Performances SLAs: Designed for network administrators, this part focuses on setting up performance Service Level Agreements (SLAs) within SD-WAN environments. Candidates must show proficiency in defining criteria to monitor and maintain network performance and reliability.</li></ul>                 |

## FCSS\_SDW\_AR-7.4 Reliable Exam Answers | Latest FCSS\_SDW\_AR-7.4 Exam Price

By updating the study system of the FCSS\_SDW\_AR-7.4 study materials, we can guarantee that our company can provide the newest information about the exam for all people. We believe that getting the newest information about the exam will help all customers pass the FCSS\_SDW\_AR-7.4 Exam easily. If you purchase our study materials, you will have the opportunity to get the newest information about the FCSS\_SDW\_AR-7.4 exam. More importantly, the updating system of our company is free for all customers.

### Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q72-Q77):

#### NEW QUESTION # 72

Refer to the exhibit, which shows output of the command diagnose sys sdwan health-check status collected on a FortiGate device.

```
# diagnose sys sdwan health-check status
```

```
Health Check(Level3_DNS):
```

```
Seq(1 port1): state(alive), packet-loss(0.000%) latency(22.129), jitter(0.201), mos(4.393),
```

```
bandwidth-up(10235), bandwidth-dw(10235), bandwidth-bi(20470) sla_map=0x0
```

```
Seq(2 port2): state(alive), packet-loss(7.000%) latency(42.394), jitter(0.912), mos(4.378),
```

```
bandwidth-up(10236), bandwidth-dw(10237), bandwidth-bi(20473) sla_map=0x0
```

```
Health Check(VPN_PING):
```

```
Seq(5 T_MPLS): state(alive), packet-loss(0.000%) latency(131.336), jitter(0.199), mos(4.330),
```

```
bandwidth-up(9999999), bandwidth-dw(9999999), bandwidth-bi(19999998) sla_map=0x2
```

```
Seq(4 T_INET_1): state(alive), packet-loss(11.000%) latency(1.465), jitter(0.226), mos(4.398),
```

```
bandwidth-up(10239), bandwidth-dw(10239), bandwidth-bi(20478) sla_map=0x1
```

```
Seq(3 T_INET_0): state(alive), packet-loss(0.000%) latency(1.440), jitter(0.245), mos(4.403),
```

```
bandwidth-up(10239), bandwidth-dw(10239), bandwidth-bi(20478) sla_map=0x3
```

Which two statements are correct about the health check status on this FortiGate device?

(Choose two.)

- A. The interface T\_INET\_0 missed three SLA targets.
- B. The interface T\_INET\_1 missed one SLA target.
- C. The health-check VPN\_PING orders the members according to the measured jitter.
- D. There is no SLA criteria configured for the health-check Level3\_DNS.

Answer: B,D

#### NEW QUESTION # 73

Refer to the exhibit. The administrator analyzed the traffic between a branch FortiGate and the server located in the data center, and noticed the behavior shown in the diagram. When the LAN clients located behind FGT1 establish a session to a server behind DC-1, the administrator observes that, on DC-1, the reply traffic is routed over T2, even though T1 is the preferred member in the matching SD-WAN rule.

What can the administrator do to instruct DC-1 to route the reply traffic through the member with the best performance?

- A. Enable auxiliary-session under config system settings.
- B. FortiGate route lookup for reply traffic only considers routes over the original ingress interface.

- C. Enable reply-session under config system sdwan.
- D. Enable snat-route-change under config system global.

Answer: A

#### NEW QUESTION # 74

You are planning a new SD-WAN deployment with the following criteria:

- Two regions
- Most of the traffic is expected to remain within its region
- No requirement for inter-region ADVPN

To remain within the recommended best practices, which routing protocol should you select for the overlays?

- A. IBGP with BGP on loopback within each region and EBGP between the regions.
- B. IBGP with BGP per overlays within each region and IBGP with BGP on loopback between the regions.
- C. IBGP within each region and between the regions.
- D. OSPF for the routing within each region and EBGP between the regions.

Answer: A

#### NEW QUESTION # 75

Refer to the exhibit.

```
Diagnose output

fgt_A # diagnose sys sdwan service4

Service(1): Address Mode(IPV4) flags=0x4200 use-shortcut-sla use-shortcut
Tie break: cfg
Shortcut priority: 2
Gen(8), TOS(0x0/0x0), Protocol(0): src(1->65535):dst(1->65535), Mode(sla), sla-compare-order
Members(3):
  1: Seq_num(4 HUB1-VPN1 HUB1), alive, sla(0x1), gid(0), cfg_order(0), local cost(0), selected
  2: Seq_num(6 HUB1-VPN3 HUB1), alive, sla(0x1), gid(0), cfg_order(1), local cost(0), selected
  3: Seq_num(5 HUB1-VPN2 HUB1), alive, sla(0x0), gid(0), cfg_order(2), local cost(0), selected
Src address(1):
  10.0.0.0-10.255.255.255
Dst address(1):
  10.0.0.0-10.255.255.255

fgt_A # diagnose sys sdwan member | grep HUB1
Member(4): transport-group: 0, interface: HUB1-VPN1, flags=0xd may_child, gateway: 100.64.1.1,
peer: 192.168.1.29, source 192.168.1.1, priority: 15 1024, weight: 0
Member(5): transport-group: 0, interface: HUB1-VPN2, flags=0xd may_child, gateway: 100.64.1.9,
peer: 192.168.1.61, source 192.168.1.33, priority: 10 1024, weight: 0
Member(6): transport-group: 0, interface: HUB1-VPN3, flags=0xd may_child, gateway: 172.16.1.5,
peer: 192.168.1.93, source 192.168.1.65, priority: 1 1024, weight: 0

fgt_A # get router info routing-table all | grep HUB1
S      10.0.0.0/8 [10/0] via HUB1-VPN3 tunnel 172.16.1.5, [1/0]
B      10.0.3.0/24 [200/0] via 192.168.1.2 [3] (recursive is directly connected, HUB1-VPN1), 04:11:41, [1/0]
        [200/0] via 192.168.1.34 [3] (recursive is directly connected, HUB1-VPN2), 04:11:41, [1/0]
B      10.1.0.0/24 [200/0] via 192.168.1.29 (recursive via HUB1-VPN1 tunnel 100.64.1.1), 04:11:42, [1/0]
        [200/0] via 192.168.1.61 (recursive via HUB1-VPN2 tunnel 100.64.1.9), 04:11:42, [1/0]
        [200/0] via 192.168.1.93 (recursive via HUB1-VPN3 tunnel 172.16.1.5), 04:11:42, [1/0]
```

An administrator is troubleshooting SD-WAN on FortiGate. A device behind branch1\_fgt generates traffic to the 10.0.0.0/8 network.

The administrator expects the traffic to match SD-WAN rule ID 1 and be routed over HUB1-VPN1. However, the traffic is routed over HUB1-VPN3.

Based on the output shown in the exhibit, which two reasons, individually or together, could explain the observed behavior? (Choose two.)

- A. The traffic matches a regular policy route configured with HUB1-VPN3 as the outgoing device
- B. HUB1-VPN3 has a lower route priority value (higher priority) than HUB1-VPN1.

- C. HUB1-VPN3 has a higher member configuration priority than HUB1-VPN1.
- D. HUB1-VPN1 does not have a valid route to the destination

Answer: B,C

#### NEW QUESTION # 76

Refer to the exhibit. You want to configure SD-WAN on a network as shown in the exhibit. The network contains many FortiGate devices. Some are used as NGFW, and some are installed with extensions such as FortiSwitch, FortiAP or FortiExtender. What should you consider when planning your deployment?

- A. You can build an SD-WAN topology that includes all devices. The hubs must be devices without extensions.
- B. You must use FortiManager to manage your SD-WAN topology.
- C. You must build multiple SD-WAN topologies. Each topology must contain only one type of extension.
- D. You can build an SD-WAN topology that includes all devices. The hubs can be FortiGate devices with Forti Extender.

Answer: A

#### NEW QUESTION # 77

.....

A certificate means a lot for people who want to enter a better company and have a satisfactory salary. FCSS\_SDW\_AR-7.4 exam dumps of us will help you to get a certificate as well as improve your ability in the processing of learning. FCSS\_SDW\_AR-7.4 study materials of us are high-quality and accurate. We also pass guarantee and money back guarantee if you fail to pass the exam. We offer you free demo to have a try. If you have any questions about the FCSS\_SDW\_AR-7.4 Exam Dumps, just contact us.
