FCSS_SDW_AR-7.4 Top Exam Dumps, New FCSS_SDW_AR-7.4 Exam Testking

If you prepare for the FCSS_SDW_AR-7.4 exam using our VCEPrep testing engine, it is easy and convenient to buy. Just two steps to complete your purchase, we will send the FCSS_SDW_AR-7.4 product to your mailbox quickly. And you only need to download e-mail attachments to get your products.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q36-Q41):

NEW QUESTION # 36

Refer to the exhibits. The exhibits show two IPsec templates to define Branch IPsec 1 and Branch_IPsec_2. Each template defines a VPN tunnel. The error message that FortiManager displayed when the administrator tried to assign the second template to the FortiGate device is also shown. Which statement best describes the cause of the issue?

IPsec template for Branch_IPsec_1

☐	Name	Type	Outgoing Interface
☐	HUB1-VPN1	Static	\$(ISP1)

IPsec template for Branch_IPsec_2

☐	Name	Type	Outgoing Interface
☐	HUB1-VPN2	Static	\$(ISP2)

Error message in FortiManager

invalid template assignment - conflicting template assignment scope: device branch1_fgt, vdom root, _ipsec template [Branch_IPsec_1] and [Branch_IPsec_2]

- A. You should use the same outgoing interface of both templates.
- **B. You can assign only one IPsec template to each FortiGate device.**
- C. You can assign only one template with a tunnel type of static to each FortiGate device.
- D. You should review the branch1_fgt configuration for configured tunnels in the rootVDM.

Answer: B

Explanation:

FortiManager allows only one IPsec template to be assigned per FortiGate device. The error indicates a conflicting template assignment, meaning assigning both Branch_IPsec_1 and Branch_IPsec_2 to the same device (branch1_fgt) is not permitted.

NEW QUESTION # 37

When you use the command diagnose sys session list, how do you identify the sessions that correspond to traffic steered according to SD-WAN rules?

- A. You identify sessions steered according to SD-WAN rules with the flag vwl.
- B. You cannot identify SD-WAN sessions. You must use the sdwan. session filter.
- C. You identify sessions steered according to SD-WAN rules with the data sdwan_service_id.
- D. You identify sessions steered according to SD-WAN rules with the data vwl_mbr_seq.

Answer: C

Explanation:

The sdwan_service_id field in the output of diagnose sys session list indicates that the session was selected based on an SD-WAN rule, allowing administrators to trace which SD-WAN service (rule) steered the traffic.

NEW QUESTION # 38

Refer to the exhibit. The exhibit shows output of the command diagnose sys adwan aervice4 collected on a FortiGate device.

The administrator wants to know through which interface FortiGate will steer traffic from local users on subnet 10.0.1.0/255.255.255.192 and with a destination of the social media application Facebook. Based on the exhibits, which two statements are correct? (Choose two.)

Diagnose output

```
fgt_1 # diagnose sys sdwan service4

```

- A. When FortiGate cannot recognize the application of the flow, it steers the traffic through the preferred member of rule 3, HQ_T1.
- B. There is no service defined for the Facebook application, so FortiGate applies service rule 3 and directs the traffic to headquarters.
- C. When FortiGate cannot recognize the application of the flow, it load balances the traffic through the tunnels HQ_T1, HQ_T2, HQ_T3.
- D. FortiGate steers traffic for social media applications according to the service rule 2 and steers traffic through port2.

Answer: C,D

NEW QUESTION # 39

Refer to the exhibit.

Refer to the exhibit.

You want to configure SD-WAN on a network as shown in the exhibit.

The network contains many FortiGate devices. Some are used as NGFW, and some are installed with extensions such as FortiSwitch, FortiAP, or Forti Extender.

What should you consider when planning your deployment?

- A. You can build an SD-WAN topology that includes all devices. The hubs can be FortiGate devices with Forti Extender.
- **B. You can build an SD-WAN topology that includes all devices. The hubs must be devices without extensions.**
- C. You must use FortiManager to manage your SD-WAN topology.
- D. You must build multiple SD-WAN topologies. Each topology must contain only one type of extension.

Answer: B

NEW QUESTION # 40

You manage an SD-WAN topology. You will soon deploy 50 new branches.

Which three tasks can you do in advance to simplify this deployment? (Choose three.)

- A. Update the DHCP server configuration.
- **B. Create model devices.**
- **C. Create a ZTP template.**
- **D. Create policy blueprint.**
- E. Define metadata variables value for each device.

Answer: B,C,D

NEW QUESTION # 41

.....

Before the clients buy our FCSS_SDW_AR-7.4 guide prep they can have a free download and tryout. The client can visit the website pages of our product and understand our FCSS_SDW_AR-7.4 study materials in detail. You can see the demo, the form of the software and part of our titles. To better understand our FCSS_SDW_AR-7.4 Preparation questions, you can also look at the details and the guarantee. So it is convenient for you to have a good understanding of our FCSS_SDW_AR-7.4 exam questions before you decide to buy our FCSS_SDW_AR-7.4 training materials.
