

FCSS_SDW_AR-7.4 Preparation Store & FCSS_SDW_AR-7.4 Exam Dumps Provider

DOWNLOAD the newest Prep4sureGuide FCSS_SDW_AR-7.4 PDF dumps from Cloud Storage for free:
<https://drive.google.com/open?id=1OSS0MRTJKg1F4YogmE6WvrYK8LUsr2Fd>

Our Prep4sureGuide offers you the high-quality FCSS_SDW_AR-7.4 exam dumps and answers, and make you be closer to success. If you are still worried, you can download FCSS_SDW_AR-7.4 exam dumps' free demo and answers on probation on Prep4sureGuide.COM. We promise, when you purchase FCSS_SDW_AR-7.4 Exam Dumps and answers, we will also provide one year free renewal service for you.

Fortinet FCSS_SDW_AR-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	Rules and Routing: Targeted at network engineers, this section assesses the ability to configure SD-WAN rules and routing policies. Candidates will be tested on managing traffic flow and prioritization across the SD-WAN infrastructure.
Topic 2	Advanced IPsec: Intended for security engineers, this section covers the deployment of advanced IPsec topologies for SD-WAN, including hub-and-spoke models, ADVPN configurations, and complex multi-hub or multi-region deployments. Candidates need to demonstrate expertise in securing wide-area networks using IPsec technologies.
Topic 3	SD-WAN Configuration: This section of the exam measures the skills of network engineers and covers configuring a basic SD-WAN setup. Candidates are expected to demonstrate their ability to define SD-WAN members and zones effectively, ensuring foundational network segmentation and management.
Topic 4	Centralized Management: This domain evaluates network administrators' competence in deploying and managing SD-WAN configurations centrally using FortiManager. It includes tasks such as implementing branch configurations and utilizing overlay templates to streamline network management.

Exam Test

In the world of industry, Fortinet Certified Solution Specialist certification is the key to a successful career. If you have achieved credential such as Fortinet then it means a bright future is waiting for you. Avail the opportunity of FCSS_SDW_AR-7.4 dumps at Prep4sureGuide that helps you in achieving good scores in the exam. Due to these innovative methodologies students get help online. The FCSS_SDW_AR-7.4 Exam Questions Answers are very effective and greatly helpful in increasing the skills of students. They can easily cover the exam topics with more practice due to the unique set of FCSS_SDW_AR-7.4 exam dumps. The FCSS_SDW_AR-7.4 certification learning is getting popular with the passage of time.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q34-Q39):

NEW QUESTION # 34

Refer to the exhibits. You use FortiManager to manage the branch devices and configure the SD- WAN template. You have configured direct internet access (DIA) for the IT department users.

Now, you must configure secure internet access (SIA) for all local LAN users and have set the firewall policies as shown in the second exhibit.

Then, when you use the install wizard to install the configuration and the policy package on the branch devices, FortiManager reports an error as shown in the third exhibit. Which statement describes why FortiManager could not install the configuration on the branches?

SD-WAN template on FortiManager

Name	Assigned to Device/Group	Interface
branches	2 Devices in Total View Details > branch1_fgt [root] branch2_fgt [root]	port1 port2

Firewall policies

Policy ID	Policy Name	Outgoing Interface	Source	Destination	Action	Log	Inspection		
2	SIA	LAN	port1	LAN-net	all	always	FTP, HTTP, HTTPS	Accept	no-inspection default
3	DIA	LAN	underlay	LAN-IT	all	always	ALL	Accept	default certificate-L...

FortiManager error message

Install Wizard - Validate Devices (branches_pp) (3/4)

Task finished with errors

Installation Preparation Total: 3/3 Success: 1 Warning: 0 Error: 2 Show Details 100%

✓ Interface Validation
✓ Policy and Object Validation
✓ Ready to Install

Install Preview Policy Package Diff

Device Name	Status	Action
branch1_fgt	Copy Failed	Log
branch2_fgt	Copy Failed	Log

- A. You cannot install firewall policies that reference an SD-WAN zone.
- B. You cannot install SIA and DIA rules on the same device.
- **C. You cannot install firewall policies that reference an SD-WAN member.**
- D. You must direct SIA traffic to a VPN tunnel.

Answer: C

NEW QUESTION # 35

You used the HUB IPsec_Recommended and the BRANCH IPsec_Recommended templates to define the overlay topology. Then, you used the SD-WAN template to define the SD- WAN members, rules, and performance SLAs.

You applied the changes to the devices and want to use the FortiManager monitors menu to get a graphical view that shows the status of each SD-WAN member.

Which statement best explains how to obtain this graphical view?

- A. Use the SD-WAN monitor asset view to get a donut view and a table view that shows the status of each device and the SLA status of each SD-WAN member.
- B. Use the SD-WAN monitor template view to get a map view of the branches, hub, and tunnel status, including the SLA pass or missed status.
- C. Use the SD-WAN monitor table view to get a donut view and a table view that shows the status of each SD-WAN member, including the SLA pass or missed status.
- D. Use the VPN monitor map view to get a map view of the branches, hub, and tunnel status, including the SLA pass or missed status.

Answer: C

Explanation:

The SD-WAN monitor's table view in FortiManager provides a donut visualization plus a detailed table that shows each SD-WAN member's status and SLA pass/miss, giving the per-member health view you're after.

NEW QUESTION # 36

When you use the command `diagnose sys session list`, how do you identify the sessions that correspond to traffic steered according to SD-WAN rules?

- A. You identify sessions steered according to SD-WAN rules with the data `3dwan_service_id`.
- B. You cannot identify SD-WAN sessions. You must use the `sdwan.session` filter.
- C. You identify sessions steered according to SD-WAN rules with the flag `vw1`.
- D. You identify sessions steered according to SD-WAN rules with the data `vw1_mbr_seq`.

Answer: A

Explanation:

When using the `diagnose sys session list` command, SD-WAN-specific session steering is indicated by the presence of the `sdwan_service_id` field in the session data. This identifier ties the session directly to a specific SD-WAN rule or service. As noted in the Fortinet documentation: "Sessions that are handled according to SD-WAN rules will include a service ID tag (`sdwan_service_id`) in their session listing. This allows administrators to correlate live sessions with SD-WAN policy matches for troubleshooting and visibility." This is a crucial diagnostic tool, as it distinguishes between traffic managed by traditional routing and that explicitly controlled by SD-WAN steering logic, aiding in operational insight and troubleshooting.

FortiOS 7.4 CLI Reference, "diagnose sys session list: SD-WAN Service ID Tagging" SD-WAN 7.4 Concept Guide, Section: "Session Identification for SD-WAN Traffic"

NEW QUESTION # 37

Refer to the exhibit.

The administrator analyzed the traffic between a branch FortiGate and the server located in the data center, and noticed the behavior shown in the diagram.

When the LAN clients located behind FGT1 establish a session to a server behind DC-1, the administrator observes that, on DC-1, the reply traffic is routed over T2, even though T1 is the preferred member in the matching SD-WAN rule.

What can the administrator do to instruct DC-1 to route the reply traffic through the member with the best performance?

- A. Enable `auxiliary-session` under `config system settings`.
- B. Enable `snat-route-change` under `config system global`.
- C. FortiGate route lookup for reply traffic only considers routes over the original ingress interface.
- D. Enable `reply-session` under `config system sdwan`.

Answer: A

NEW QUESTION # 38

Which three characteristics apply to provisioning templates available on FortiManager? (Choose three.)

- A. A CLI template can be of type CLI script or Perl script.
- **B. A template group can include a system template and an SD-WAN template.**
- C. Each template group can contain up to three IPsec tunnel templates.
- **D. CLI templates are applied in order, from top to bottom.**
- **E. A CLI template group can contain CLI templates of both types.**

Answer: B,D,E

Explanation:

Template groups can include both system and SD-WAN templates to streamline configuration deployment.

A CLI template group can include both CLI Script and CLI Snippet types.

CLI templates are applied in top-to-bottom order, which affects configuration precedence.

NEW QUESTION # 39

.....

As we all know, the latest FCSS_SDW_AR-7.4 quiz prep has been widely spread since we entered into a new computer era. The cruelty of the competition reflects that those who are ambitious to keep a foothold in the job market desire to get the FCSS_SDW_AR-7.4 certification. Our FCSS_SDW_AR-7.4 exam guide engage our working staff in understanding customers' diverse and evolving expectations and incorporate that understanding into our strategies. Our laTest FCSS_SDW_AR-7.4 Quiz prep aim at assisting you to pass the FCSS_SDW_AR-7.4 exam and making you ahead of others.
