Salesforce Certified Experience Cloud Consultant Sample Questions (Q47-

Q52):

NEW QUESTION # 47

universal Containers UC maintains multiple customer-facing sites, but only one profile for all customer users.

How customer has access to more than one site.

Which two steps should the UC admin take to grant access to each customer?

Choose 2 answers

- A. Create a permission set.
- B. Edit the applicable user profile.
- C. Select a permission set for a given site.
- D. Select the profile for a given site.

Answer: A,C

Explanation:

To grant access to each customer to only one site, UC should create a permission set and select a permission set for a given site. A permission set is a collection of settings and permissions that give users access to various tools and functions. UC can create a permission set for each site that specifies the site access and the object permissions for the customer users. UC can then select a permission set for a given site in the Experience Builder, which will assign the permission set to all new and existing users of that site.

NEW QUESTION # 48

Northern Trail Outfitter is looking to implement a public Knowledge base. The company has 1,000 articles stored in an external system.

Some of the articles are more than 2 years old.

What should a consultant recommend to optimize the public knowledge base?

- A. Manually add the top performing articles to Salesforce and select the Public Knowledge Base channel.
- B. Bulk-import all articles to Salesforce and archive duplicate and outdated articles.
- C. Manually add the top performing articles to Salesforce and select Authenticated Sites as the Channel.
- D. Bulk-import the top performing articles to Salesforce and select the public knowledge base channel.

Answer: D

Explanation:

To optimize the public knowledge base, a consultant should recommend to bulk-import the top performing articles to Salesforce and select the public knowledge base channel. This will allow NTO to import only the most relevant and useful articles from the external system and make them available to public users on its site. The public knowledge base channel is a feature that allows NTO to share articles with unauthenticated users on its site.

NEW QUESTION # 50

DreamHouse Realty (DR) has active participation of home owners and prospective buyers in its Experience Cloud site that uses Chatter. Recently, DR observed a significant number of comments being marked as spam. DR's Salesforce and Security teams did further analysis and identified the posts made by the spammers.

DR's Management team has decided to remove all the spammers' posts and comments from the Experience Cloud site.

What should the Experience Cloud consultant recommend to remove them?

- A. Submit a high-priority case with Salesforce Support to remove all of the spammers' posts and comments. The site will be under maintenance state until resolution.
- **B. Utilize the Insights reports by creating and using a custom action to remove all the spammers' posts and comments.**
- C. Enable Experience Cloud Einstein features to remove all the spammers' posts and comments as a background action.
- D. Experience Cloud site managers, moderators, and admins work together to remove all the spammers' posts and comments manually.

Answer: B

Explanation:

To remove all the spammers' posts and comments from the Experience Cloud site, DR should utilize the Insights reports by creating and using a custom action to remove them. Insights reports are reports that show the activity and engagement metrics on DR's site, such as page views, likes, comments, flags, and moderation actions. DR can use Insights reports to identify the spammers' posts and comments based on the flagging reasons or other criteria. DR can also create a custom action that allows DR to remove multiple posts or comments at once from the Insights reports.

NEW QUESTION # 51

Ursa Major Solar created a public knowledge base where both authenticated customers and unauthenticated guest users can view Known articles as a self-service option to troubleshoot issues.

When creating a Knowledge article, which checkbox should be selected so that all users can view the articles?

- A. Visible to Partner
- **B. Visible to Public Knowledge Base**
- C. Visible to Anyone
- D. Visible to Customer

Answer: B

Explanation:

To make a Knowledge article visible to both authenticated customers and unauthenticated guest users on the public knowledge base, you need to select the Visible to Public Knowledge Base checkbox when creating the article. This will allow you to share the article with public users on your site. You can also select other visibility options, such as Visible to Customer or Visible to Partner, if you want to share the article with other channels.
