## **SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q48-Q53):**

### **NEW QUESTION # 48**

Which key area of Financial Management uses both financial and non-financial data to model effective business scenarios that facilitate steering?

- A. Accounting & Financial Close
- B. Governance, Risk, & Compliance
- **C. Financial Planning & Analysis**
- D. Quote-to-Cash

**Answer: C**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

Financial Planning & Analysis (FP&A) is the strategic engine of the finance department, responsible for translating corporate strategy into actionable financial targets. A defining characteristic of modern FP&A within the SAP ecosystem—specifically powered by SAP Analytics Cloud—is the ability to integrate both financial data (e.g., revenue, expenses, margins) and non-financial data (e.g., headcount, carbon emissions, units produced, customer satisfaction scores).

By combining these data sets, finance leaders can perform "Extended Planning and Analysis" (xP&A). This allows the CFO to model complex business scenarios that facilitate more accurate "steering" of the enterprise.

For instance, an FP&A professional can model how an increase in raw material costs (financial) combined with a shift in carbon tax regulations (non-financial/regulatory) will impact the overall profitability of a specific product line over the next five years. This holistic view ensures that planning is not done in a vacuum but is grounded in the operational realities of the business. By facilitating real-time "what-if" analysis, FP&A provides the agility needed to adjust course quickly in response to internal performance trends or external market shifts, ensuring the organization remains on track to meet its long-term objectives.

**NEW QUESTION # 49**

Which feature of SAP Business Suite brings transparency to financial issues and unifies data from various sources?

- A. SAP Datasphere
- B. SAP Analytics Cloud Compass
- C. SAP Business Data Cloud
- D. Joule
