Marvelous MB-500 - Microsoft Dynamics 365: Finance and Operations Apps Developer Practice Test Online

We all know, the IT industry is a new industry, and it is one of the chains promoting economic development, so its important role can not be ignored. Our VCEDumps's MB-500 exam training materials is the achievement of VCEDumps's experienced IT experts with constant exploration, practice and research for many years. Its authority is undeniable. If you buy our MB-500 VCE Dumps, we will provide one year free renewal service.

Skills measured

- Develop and test code (10-15%)
- Design and develop AOT elements (20-25%)
- Implement security and optimize performance (10-15%)
- Integrate and manage data solutions (10-15%)
- Implement reporting (10-15%)

Microsoft Dynamics 365: Finance and Operations Apps Developer Sample Questions (Q283-Q288):

NEW QUESTION # 283

A company uses Dynamics 365 Finance.

You implement the SysOperation framework to create the following batch processes.

Batch process	Description and requirements
1	This process is lengthy. Users must be able to continue working while the process runs. The process must complete successfully.
2	This is a short process. The process is permitted to block the work of a user while the process runs.
3	This is a process that must run every night of each workday.

You need to configure the execution mode for each batch process.

Which execution modes should you use? To answer, drag the appropriate execution modes to the correct requirements. Each execution mode may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Execution modes

- reliable asynchronous
- synchronous
- asynchronous

Answer Area

Requirement

Lengthy operation
Short operation
Runs on a recurring schedule

Execution mode

- reliable asynchronous
- synchronous
- asynchronous

Answer:

Execution mode

- reliable asynchronous
- synchronous
- asynchronous

NEW QUESTION # 284

You have a table in which multiple properties must be changed. Multiple table properties are locked down at the base table and must not be overwritten.

You need to modify the table properties by extending the table.

Which table property can you populate in a table extension by using the property sheet?

- A. Table group
- B. Clustered index
- C. Configuration key
- D. **Created by**

Answer: D

Explanation:

Explanation

You can now modify the following properties through the property sheet:

- * Created By
- * Created Date Time
- * Modified By
- * Modified Date Time
- * Country Region Codes

<https://docs.microsoft.com/sv-se/dynamics365/fin-ops-core/dev-itpro/extensibility/modify-properties>

NEW QUESTION # 285

A company is migrating from a legacy system to Dynamics 365 Unified Operations.

You need to import the customer data by using the Data Management workspace.

In which order should you perform the actions? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer Area

Actions

Specify the target entity.

 Specify the source data format.

Import the source file to the project.

Create a new import project.

Specify the project category for the import.

Answer:

Explanation:

Answer Area

Actions

Specify the target entity.

Create a new import project.

Specify the source data format.

Specify the project category for the import.

Import the source file to the project.

Specify the source data format.

Create a new import project.

Specify the target entity.

Specify the project category for the import.

Import the source file to the project.

NEW QUESTION # 286

A company implements Dynamics 365 finance and operations apps.

You are developing code to consume OData service endpoints. You complete the application registration process and gather the details required to create a C# console application.

You need to ensure that the console application interacts with Dynamics 365 Finance OData services.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Add the custom OData service endpoints in the ODataClient list.	◀ ▶
Add the OData v4 client code generator.	↑ ↓
Point the MetadataDocumentUri variable to the Dynamics 365 Finance instance.	▶
Generate proxy classes.	◀

 Microsoft

Add the OData v4 client code generator.

Add the custom OData service endpoints in the ODataClient list

Generate proxy classes.

Point the MetadataDocumentUri variable to the Dynamics 365 Finance instance.

Answer:

Explanation:

Answer Area	Microsoft
Add the OData v4 client code generator	◀
Add the custom OData service endpoints to the ODataClient list	◀
Generate proxy classes	◀
Point the MetaDataDocumentURI variable top the Dynamics 365 Finance instance.	◀

- 1 - Add the OData v4 client code generator
- 2 - Add the custom OData service endpoints to the ODataClient list
- 3 - Generate proxy classes
- 4 - Point the MetaDataDocumentURI variable top the Dynamics 365 Finance instance.
