

Perfect SAFe-SPC Sample Questions Pdf Covers the Entire Syllabus of SAFe-SPC

Exam

Agile Safe 5.1 SPC Test-with 100% verified answers-2022

According to SAFe Principle #10, what should the Enterprise do when markets and customers demand change?

- 1) Reorganize the network around the new value flow
- 2) Create a reliable decision-making framework to empower employees and ensure a fast flow of value
- 3) Apply development cadence and synchronization to operate effectively and manage uncertainty
- 4) Create an Agile Release Train to focus on value

Why do Business Owners assign business value to team PI Objectives?

- 1) To ensure the teams do not work on architectural Enablers
- 2) To override the decisions made in WSJF prioritization
- 3) To determine the highest value using WSJF
- 4) To provide guidance on the business value of the team objectives

When should new approaches be anchored in an organization's culture?

- 1) Culture change comes last as a result of changing work habits

Which SAFe Principle includes working with purpose, mission, and minimum constraints?

- 1) Build projects around motivated individuals
- 2) Unlock the intrinsic motivation of knowledge workers
- 3) Organize around value
- 4) Base Milestones on an objective evaluation of working systems

What is one way Lean-Agile leaders lead by example?

- 1) By using the SAFe Implementation Roadmap to script the way for change
- 2) By modeling SAFe's Lean-Agile Mindset, values, principles, and practices
- 3) By mastering the Seven Core Competencies of the Lean Enterprise
- 4) By applying empathic design and focusing on Customer Centricity

You can free download the demos of our SAFe-SPC learning prep on the website to check the content and displays easily by just clicking on them.

Scaled Agile SAFe Practice Consultant SPC (6.0) Sample Questions (Q70-Q75):

NEW QUESTION # 70

When is the Solution Demo conducted?

- A. At the end of each Sprint.
- B. At the end of each PI.
- C. On demand.
- D. Mid-PI.

Answer: B

NEW QUESTION # 71

What is the primary role of a Scrum Master?

- A. To write all the user stories so that the team can focus on coding and testing.
- B. To use servant leadership to help the team perform at its best.
- C. To task team members in the efficient manner possible based on their skills.
- D. To provide management with status reports on the team's progress.

Answer: B

Explanation:

The primary role of the Scrum Master in SAFe is to act as a servant leader and coach for the team, helping remove impediments, facilitate events, and foster an environment for high-performing teams. SAFe explicitly highlights servant leadership as central to the Scrum Master's role.

"The Scrum Master is a servant leader and coach for the Agile Team. They help educate the team in Scrum, Extreme Programming (XP), Kanban, and SAFe, ensuring that the agreed Agile process is followed." (Source: SAFe 6.0 Framework: Scrum Master; SPC 6.0 Guide "Becoming a Lean-Agile Leader")

NEW QUESTION # 72

Which SAFe role helps to coordinate between multiple ARTs within a Value Stream?

- A. Solution Management
- B. Enterprise Architect
- C. Solution Train Engineer
- D. Lean-Agile Center of Excellence

Answer: C

Explanation:

The Solution Train Engineer (STE) is the servant leader and coach who facilitates and guides the work of all ARTs within a Solution Train (which aligns with the Value Stream). The STE is responsible for coordination between multiple ARTs, similar to how the Release Train Engineer (RTE) operates at the ART level.

References:

SAFe 6.0, "Solution Train Engineer" role article

SPC 6.0 Guide, "Designing the Implementation"

NEW QUESTION # 73

A Program Epic requires budgetary approval and a lightweight business case only if it spans multiple PIs.

- A. False
- B. True

Answer: A

Explanation:

A Program Epic (as opposed to a Portfolio Epic) generally does not require a lightweight business case or portfolio-level approval, regardless of how many PIs it spans. Lightweight business cases and portfolio Kanban processes apply to Portfolio Epics. "Portfolio Epics require a Lean Business Case and approval; Program Epics typically do not." (Source: SAFe 6.0 Framework: Epics, Portfolio Kanban, Program Backlog)

NEW QUESTION # 74

What would imply a change to the ART Budget?

- A. Switching to a different PI cadence.
- B. Extending the duration of a PI.
- C. Prioritizing Features based on Cost of Delay.
- D. Reducing the scope of a Program Epic.
- E. Changing total ART resources

Answer: E

Explanation:

The ART Budget is determined primarily by the people and resources assigned to the Agile Release Train (ART). Changing the total ART resources (e.g., adding or removing teams, increasing or decreasing staffing) directly affects the cost structure and, therefore, the budget. Adjusting PI cadence or scope of work affects delivery, not the base budget. Prioritizing Features affects sequencing, not budgeting.

References:

SAFe 6.0 Website: Lean Budgets

SPC 6.0 Guide: "The ART budget is primarily a function of the resources dedicated to the train."

NEW QUESTION # 75

.....

We deeply know that the pass rate is the most important. As is well known to us, our passing rate has been high; Ninety-nine percent of people who used our SAFe-SPC real braindumps have passed their exams and get the certificates. I dare to make a bet that you will not be exceptional. Your test pass rate is going to reach more than 99% if you are willing to use our SAFe-SPC Study Materials with a high quality. So it is worthy for you to buy our SAFe-SPC practice prep.
