最新Cisco 300-720考題 - 最新300-720考古題

在談到300-720考試認證，很難忽視的是可靠性，VCESoft的300-720考試培訓資料是特別設計，以最大限度的提高你的工作效率，本站在全球範圍內執行這項考試通過率最大化。

最新的 CCNP Security 300-720 免費考試真題 (Q99-Q104):

問題 #99

An engineer deploys a Cisco Secure Email Gateway appliance with default settings in an organization that permits only standard H feature does not work. Which additional action resolves the issue?

- A. Enable the Use SSL option under Advanced Settings for File Reputation.
- **B. TP/HTTPS ports outbound and notices that the AMP file reputation**
- C. Enable the Use HTTP option under Advanced Settings for File Reputation.
- D. Configure the outbound firewall rule to permit traffic on port 3237
- E. Configure the outbound firewall rule to permit traffic on port 8081

答案: B

解題說明:

Configuring the outbound firewall rule to permit traffic on port 3237 is the additional action that resolves the issue. AMP file reputation is a feature that allows Cisco ESA to check files attached to messages against a cloud-based database of known malicious files and apply appropriate actions, such as block, deliver, or quarantine.

By default, AMP file reputation uses TCP port 3237 to communicate with the cloud-based database. If this port is blocked by a firewall, AMP file reputation will not work properly. To resolve this issue, the administrator can configure the outbound firewall rule to permit traffic on port 3237 from Cisco ESA.

問題 #100

What is a benefit of graymail services?

- A. removes spam based on the sender email address
- **B. offers cloud and on-site unsubscribe service**
- C. provides a safe method to subscribe to social network emails
- D. provides the option to unsubscribe from unwanted marketing emails

答案: B

問題 #101

An organization wants to designate help desk personnel to assist with tickets that request the release of messages from the spam quarantine because company policy does not permit direct end-user access to the quarantine. Which two roles must be used to allow help desk personnel to release messages while restricting their access to make configuration changes in the Cisco Secure Email

Gateway? (Choose two.)

- A. Administrator
- **B. Quarantine Administrator**
- **C. Help Desk User**
- D. Technician
- E. Read-Only Operator

答案: B,C

解題說明:

All users with administrator privileges can change spam quarantine settings and view and manage messages in the spam quarantine. You do not need to configure spam quarantine access for administrator users.

If you configure access to the spam quarantine for users with the following roles, they can view, release, and delete messages in the spam quarantine:

- Operator
- Read-only operator
- Help desk user
- Guest
- Custom user roles that have spam quarantine privileges

These users cannot access spam quarantine settings.

問題 #102

When URL logging is configured on a Cisco ESA, which feature must be enabled first?

- A. antivirus
- **B. virus outbreak filter**
- C. antispam
- D. senderbase reputation filter

答案: B

解題說明:

Enabling Logging of URLs and Message Tracking Details for URLs

Logging of URL-related logs, and display of this information in Message Tracking details, is disabled by default. This includes the logs for the following events:

Category of any URL in the message matches the URL category filters

Reputation score of any URL in the message matches URL reputation filters Outbreak Filter rewrites any URL in the message To enable logging of these events, use the outbreakconfig command in the command-line interface (CLI).

問題 #103

Which two features are applied to either incoming or outgoing mail policies? (Choose two.)

- **A. outbreak filters**
- B. application filtering
- **C. antivirus**
- D. Indication of Compromise
- E. sender reputation filtering

答案: A,C

解題說明:

Outbreak filters and antivirus are two features that can be applied to either incoming or outgoing mail policies on Cisco ESA.

Outbreak filters allow Cisco ESA to detect and block messages that contain new or emerging email threats, such as viruses, worms, phishing, or spam, by using real-time updates from Talos intelligence.
