We have the both live chat service staff and offline chat service, if any question that may bother you, you can ask for a help for our service staff. They have the professional knowledge about the M2 Exam Materials, and they will give you the most professional suggestions.

International Code Council Commercial Mechanical Inspector Sample Questions (Q29-Q34):

NEW QUESTION # 29

Why are two or more sets of construction documents, engineering calculations, diagrams, and other data required to be submitted with each application for a permit?

- A. All sets are to be retained by the code official in order to have a spare set of construction documents for use by any subcontractors.
- B. All sets of documents are to be kept by the code official, and at least one set will serve as a backup set of documents in case the other is lost or misplaced.
- C. To ensure that the project is completed in a timely manner.
- **D. One set will be retained by the code official, and the other will be returned to the applicant and kept on the job site for reference while construction is in progress.**

Answer: D

Explanation:

The ICC administrative provisions require construction documents to be submitted in two or more sets with the permit application. After approval, one set is retained by the code official and one set is returned to the applicant to be kept on the job site during construction. That is exactly the condition described in Option D.

The code does not state that all sets are retained by the code official or that the purpose is to provide subcontractor copies or backup copies.

NEW QUESTION # 30

Solid-fuel cooking equipment:

- A. is permitted to be installed under Type II canopy-type hoods.
- B. is permitted to be installed under Type II noncanopy-type hoods.
- **C. shall be vented through a separate hood and exhaust system**
- D. is permitted to be installed under common canopy-type hoods with other cooking equipment.

Answer: C

Explanation:

Solid-fuel cooking equipment requires a separate hood and exhaust system. It is not permitted to share the same hood/exhaust arrangement in the manner suggested by the other choices. This is a standard commercial kitchen exhaust requirement because of the added fire and residue hazards associated with solid-fuel appliances.

NEW QUESTION # 31

Floor furnaces shall not be closer than _____ inches to the ground.

- **A. [option text not fully visible in the material you sent]**
- B. [option text not fully visible in the material you sent]
- C. [option text not fully visible in the material you sent]
- D. 0

Answer: A

Explanation:

The ICC mechanical code requires the lowest portion of a floor furnace to have not less than 6 inches (152 mm) clearance from grade level. Therefore, the correct choice is the option corresponding to 6 inches, which is C based on your answer set.

NEW QUESTION # 32

The minimum rise required for a 10-foot run of vent connector is _____ inches.

- A. 1-1/4
- B. 0
- **C. 2-1/2**
- D. 1-1/2

Answer: C

Explanation:

Vent connectors must be installed with a minimum rise of 1/4 inch per foot . For a 10-foot run, the required rise is:
 $10 \times 1/4 \text{ inch} = 2.5 \text{ inches}$.
That equals 2-1/2 inches , so Option D is correct.

NEW QUESTION # 33

Exhaust outlets that terminate at a temperature exceeding 600°F shall be designed as a:

- **A. single-wall metal chimney.**
- B. Class III duct.
- C. Class II duct.
- D. Class I duct.

Answer: A

Explanation:

The IMC special exhaust provisions require exhaust outlets terminating at temperatures exceeding 600°F to be designed as a chimney , and the table language identifies this as a single-wall metal chimney . Therefore, Option D is correct.

NEW QUESTION # 34

.....

One of the most effective strategies to prepare for the Commercial Mechanical Inspector (M2) exam successfully is to prepare with actual International Code Council M2 exam questions. It would be difficult for the candidates to pass the M2 exam on the first try if the M2 study materials they use are not updated. Studying with invalid M2 practice material results in a waste of time and money. Therefore, updated International Code Council M2 practice questions are essential for the preparation of the M2 exam.
