最熱門的考試資料APMG-International ISO-IEC-27001-Foundation證照信息是由APMG-International認證培訓師精心地研究出來

P.S. VCESoft在Google Drive上分享了免費的、最新的ISO-IEC-27001-Foundation考試題庫：https://drive.google.com/open?id=1opiwLngaz4Je4lABGS1fKNaIkRqBPqo6

在生活中我們不要不要總是要求別人給我什麼，要想我能為別人做什麼。工作中你能為老闆創造很大的價值，老闆當然在乎你的職位，包括薪水。一樣的道理，如果我們一直屈服於一個簡單的IT職員，遲早會被淘汰，我們應該努力通過IT認證，一步一步走到最高層，VCESoft APMG-International的ISO-IEC-27001-Foundation考試認證的練習題及答可以幫助我們快捷方便的通往成功的道路，而且享受保障政策，已經有很多IT人士在行動了，就在VCESoft APMG-International的ISO-IEC-27001-Foundation考試培訓資料，當然不會錯過。

APMG-International ISO-IEC-27001-Foundation 考試大綱：

主題	簡介
主題 1	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
主題 2	• Compliance: Regulatory compliance refers to an organization’s commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.
主題 3	• Security Breaches: Security breaches occur when unauthorized access or violations of security protocols are detected or imminent, potentially compromising data or system integrity.
主題 4	• Framework Design: Framework design is the process of developing a reusable structural foundation that supports and guides the creation and organization of software systems.
主題 5	• Risk Management: Risk management is the systematic process of identifying, evaluating, and implementing strategies to reduce or control the impact of potential uncertainties on organizational goals.

APMG-International ISO-IEC-27001-Foundation測試題庫 - ISO-IEC-27001-Foundation考題資訊

你對VCESoft瞭解多少呢？你有沒有用過VCESoft的APMG-International考試考古題，或者你有沒有聽到周圍的人提到過VCESoft的考試資料呢？作為APMG-International認證考試的相關資料的專業提供者，VCESoft肯定是你見過的最好的網站。為什麼可以這麼肯定呢？因為再沒有像VCESoft這樣的網站，既可以提供給你最好的資料保證你通過ISO-IEC-27001-Foundation考試，又可以提供給你最優質的服務，讓你100%地滿意。

最新的 ISO/IEC 27001 ISO-IEC-27001-Foundation 免費考試真題 (Q57-Q62):

問題 #57
Which of the following best describes a security control?

- A. A measure that modifies risk
- B. A type of cyberattack
- C. A weakness in an asset
- D. A legal requirement

答案：A

解題說明：
A security control is any measure that modifies risk by preventing, detecting, correcting, or reducing the impact of security incidents. Controls may be administrative, physical, or technical, depending on the organization's needs.

問題 #58
Which action is a required response to an identified residual risk?

- A. Top management shall delegate its treatment to risk owners
- B. The organization shall change practices to avoid the risk occurring
- C. By default, it shall be controlled by information security awareness and training
- D. It shall be reviewed by the risk owner to consider acceptance

答案：D

解題說明：
Clause 6.1.3 (e) specifies:
"The organization shall obtain risk owners' approval of the information security risk treatment plan and acceptance of the residual information security risks." This confirms that residual risks - those remaining after risk treatment - must be reviewed and formally accepted by the designated risk owner. Option A is incorrect; awareness training is not a default control for all residual risks. Option B misrepresents leadership responsibility; top management ensures processes exist, but risk ownersformally approve residual risk. Option D (avoiding risk) is a treatment option, not the mandated requirement for residual risks.
Thus, the required response isC: Review and acceptance by the risk owner.

問題 #59
Which information is required to be included in the Statement of Applicability?

- A. The criteria against which risk will be evaluated
- B. The justification for including each information security control
- C. The scope and boundaries of the ISMS
- D. The risk assessment approach of the organization

答案：B

解題說明：

Clause 6.1.3 (d) requires that the organization"produce a Statement of Applicability that contains the necessary controls (see Annex A), and justification for inclusions, whether they are implemented or not, and the justification for exclusions." This is the defining requirement of the SoA: it documents which Annex A controls are relevant, which are implemented, and the justification for inclusion/exclusion. While the ISMS scope (A) is documented in Clause 4.3, and risk evaluation criteria (C) are defined in Clause 6.1.2, these do not belong in the SoA. The SoA does not describe the full risk assessment approach (B); that is part of the risk assessment methodology.
Therefore, the mandatory requirement for the SoA isjustification for including (or excluding) each information security control.

問題 #60
Which attribute is NOT a required focus of continual ISMS improvement?

- A. Importance
- B. Adequacy
- C. Suitability
- D. Effectiveness

答案：A

解題說明：
Clause 10.2 (Continual Improvement) specifies that the organization must"continually improve the suitability, adequacy and effectiveness of the information security management system." This makes it clear that three attributes are explicitly required to be addressed:
* Suitability: ensuring the ISMS continues to meet organizational needs in changing contexts.
* Adequacy: ensuring the ISMS covers the necessary scope and provides sufficient control coverage.
* Effectiveness: ensuring the ISMS achieves intended outcomes in protecting information security.
The word"importance"is not part of the continual improvement requirement. Importance is implicit in prioritization of risks and actions, but it is not a required continual improvement attribute in ISO/IEC 27001.
Therefore, optionD: Importanceis the correct choice as it is not specified.
This distinction reinforces that continual improvement is not about subjective importance, but about systematic enhancement of the ISMS'ssuitability, adequacy, and effectiveness.

問題 #61
Which statement describes a requirement for information security objectives?

- A. They shall all be measurable
- B. They shall be contractually transferred to third parties
- C. They shall be consistent with the information security policy
- D. They shall be reviewed at least annually

答案：C

解題說明：
Clause 6.2 (Information security objectives) requires that objectives:
"be consistent with the information security policy"
"be measurable (if practicable)"
"take into account applicable information security requirements"
"be monitored, communicated, and updated as appropriate."
