Microsoft PL-600 PDF questions are accessible without any installation. You will need a few days to prepare successfully for the PL-600 Exam if you have VCEPrep's Microsoft Exam PDF Questions. This PDF file of Microsoft PL-600 questions is supported by any device like laptops, tablets, and smartphones.

### Microsoft Power Platform Solution Architect Sample Questions (Q176-Q181):

#### NEW QUESTION # 176

You are designing a Power Platform solution for a company. The company issues each employee a tablet device. The company wants to simplify the opportunity management processes and automate where possible. The company identifies the following requirements:

Users must have a visual guide to know which data to enter in each step of the opportunity management process.

The system must automatically assign the opportunity to a manager for approval once all data is entered.

The system must notify an assignee each time an opportunity is assigned to them by using push notifications.

When a user selects a push notification, the associated opportunity must display.

You need to recommend the Power Platform components that will meet their requirements.

Which three Power Platform components should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Power Virtual Agents chatbots
- B. Business process flows
- C. Power Apps mobile apps
- D. Power Automate desktop flows
- E. Power Automate cloud flows

**Answer: B,C,E**

Explanation:

A: Use business process flows to define a set of steps for people to follow to take them to a desired outcome. These steps provide a visual indicator that tells people where they are in the business process.

B: Push notifications are used in Power Apps mobile to engage app users and help them prioritize key tasks. In Power Apps, you can create notifications for Power Apps mobile by using the Power Apps Notification connector. You can send notifications to any app that you create in Power Apps.

E: Create a cloud flow when you want your automation to be triggered either automatically, instantly, or via a schedule.

#### NEW QUESTION # 177

You are designing a Microsoft Dataverse data model for a mortgage brokerage.

The brokerage provides the following table and field information:

The brokerage has the following data relationship requirements:

- \* A client can have multiple loan applications, but each loan application must be associated with only one client
- \* Each loan application must be associated with one property, but a property can be linked to multiple loan applications.
- \* The employer the client works for must be added for employment verification. Employers are maintained in the Account table.

You need to model the tables for Dataverse and set up relationships.

Which data model solution should you use for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

**Answer:**

Explanation:

□ Explanation:

□

## NEW QUESTION # 178

You are a Microsoft Power Platform architect.

You need to design a process to transport configuration and test data from one environment to a separate environment. Which four actions should you recommend be performed in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

□

### Answer:

Explanation:

- 1 - Download the Configuration Migration tool from NuGet.
- 2 - Define the schema of the source data to be exported.
- 3 - Use the schema to export data.
- 4 - Import the ZIP file data.

## NEW QUESTION # 179

Case Study 2 - Relecloud

Background

Relecloud provides regional air service in North America. The company uses a variety of systems, apps, and services to manage the business. You are hired to design a new solution to manage passenger information, reservations, and maintenance.

Current environment

The company uses Microsoft Office 365.

The company has a custom app for managing and tracking passenger luggage. The app uses Microsoft Dataverse.

For flights longer than four hours, passengers receive a meal. Customers can select a meal when they make a reservation and can save the meal choices as a customer preference.

The company offers two types of meals: standard and vegetarian. Meal types can be temporarily unavailable. The airline is considering offering other meal types, such as gluten-free and low-sodium options.

The company uses paper-based reservation checklists to help ensure that all the steps for a reservation are complete.

The company uses vendors to service aircraft.

Environment

Ensure that employees can sign in to all Microsoft apps by using one set of credentials per employee.

Minimize the use of third-party products and custom development.

Reduce customer support call volumes by having the system automatically resolve common issues.

The security rule for agents must contain the privileges in the default Customer Service Representative security role.

Log issues as cases. The case form must show variable sections based on the case type.

Include a custom entity named Seats and grant agents access to the entity.

Application use layout should be role specific.

Agents

You must standardize the format used by agents to enter customer phone numbers.

Agents need a solution to replace paper reservation checklists.

Agents need dashboards to show a current count of all reservations on the entity.

Agents need a way to track reservation issues.

Agents need a visual indicator in the interface to determine the reservation step to provide a seamless customer experience.

Agents need different versions of cancellation policies to send customers. One version must be controllable within the system.

Agents need to view which pieces of luggage match to each passenger, and then need to add the total on the passenger record.

IT

IT staff needs a mobile solution to see IT cases at the top of the menu since this is their primary focus.

IT staff needs a system that is easy to navigate to active cases.

IT specialists want to design Power BI reports. They need to understand the underlying table relationships of the system.

IT specialists need a solution that is visual rather than text-based so they can quickly complete their tasks.

Management

Management requires paginated reports for stakeholders.

Management wants to provide frequent flyers with better service when the flyers call.

Managers need to see all customer dashboards at the top of their menu on their mobile device.

Maintenance

Maintenance supervisors must not have access to Dynamics 365 Customer Service. The supervisors must be able to communicate with the contracts team about contracts.

Aircraft maintenance vendors must have only view and upload privileges to their invoices and receipts. Contracts with maintenance companies must be stored in Dynamics 365 Customer Service.

Hotspot Question

You need to recommend tools for agents and management.

Which tools should you recommend? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Box 1: Microsoft Power Apps

They need an app that will have different features.

Box 2: Power BI

Management requires paginated reports for stakeholders.

## NEW QUESTION # 180

You are performing a requirements analysis for a customer.

The customer provides the following requirements:

- \* Power Platform storage capacity must remain under 100 percent.
- \* Customer service representatives must be sent an email when they are assigned a case.
- \* Help desk technicians must be shown an error message when they try to delete a task row.
- \* The plug-in pass rate must remain over 99 percent for the production environment.

You need determine if the requirements are functional or non-functional.

Which requirement type should you use? To answer, drag the appropriate requirement types to the correct requirements. Each requirement type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Box 1: Non-functional

Non-functional requirements commonly describe non-behavior aspects of the solution such as performance requirements.

Box 2: Functional

Functional requirements describe what the solution needs to do or its behaviors.

Box 3: Functional

Box 4: Non-functional

Examples of common non-functional requirement types include:

- \* Availability
- \* Compliance/regulatory
- \* Data retention/residency
- \* Performance (response time, and so on)
- \* Privacy
- \* Recovery time
- \* Security
- \* Scalability
