practicing. All content is clear and easily understood in our CCDAK practice materials. They are accessible with reasonable prices and various versions for your option. All content are in compliance with regulations of the CCDAK Exam. As long as you are determined to succeed, our CCDAK study guide will be your best reliance.

Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q68-Q73):

NEW QUESTION # 68

What does producing data to a topic with a message key allow?

- A. Producers to add extra metadata with the message
- B. Consumers to subscribe to a message with a specific key
- C. Messages to be secured with encryption
- D. Messages to have a strategy for partition assignment

Answer: D

NEW QUESTION # 69

We have a store selling shoes. What dataset is a great candidate to be modeled as a KTable in Kafka Streams?

- A. Items returned
- B. Money made until now
- C. The transaction stream
- D. Inventory contents right now

Answer: A,B

Explanation:

Aggregations of stream are stored in table, whereas Streams must be modeled as a KStream to avoid data explosion

NEW QUESTION # 70

What is not a valid authentication mechanism in Kafka?

- A. SASL/GSSAPI
- B. SSL
- C. SASL/SCRAM
- D. SAML

Answer: D

Explanation:

Learn more about security here <https://kafka.apache.org/documentation/#security>

NEW QUESTION # 71

You have a Kafka consumer in production actively reading from a critical topic.

You need to update the offset of your consumer to start reading from the beginning of the topic.

Which action should you take?

- A. Temporarily configure the topic's retention.ms parameter to 0 to empty the topic.
- B. Update the consumer group's offset to the earliest position using the kafka-consumer-groups CLI tool.
- C. Update the consumer configuration by setting auto.offset.reset=earliest.
- D. Start a new consumer application with the same consumer group id.

Answer: B

Explanation:

To reset offsets for an existing consumer group, you must use the kafka-consumer-groups.sh tool with the --reset-offsets and --to-earliest flags.

From Kafka Consumer Group Tool Documentation:

"You can use the kafka-consumer-groups tool to reset offsets for a consumer group. This is required if the consumer has already committed offsets." Setting auto.offset.reset=earliest only works if no committed offset exists.

Starting a new consumer with the same group won't reset offsets.

Retention settings don't affect committed offsets.

Reference: Kafka Consumer Group CLI Tool

NEW QUESTION # 72

You have an existing topic t1 with four partitions.

Which statement is correct about changing the number of partitions for this topic?

- A. You may decrease the partition count if you increase the replication count.
- **B. You may increase the partition count and Kafka will leave the existing data on the original partitions.**
- C. You may decrease the partition count if you change the partitioning algorithm.
- D. You may increase the partition count and Kafka will ensure the message ordering remains the same.

Answer: B

NEW QUESTION # 73

.....

The content of CCDAK exam torrent is compiled by hundreds of industry experts based on the syllabus and the changing trend of industry theory. With CCDAK exam torrent, you no longer have to look at textbooks that make you want to sleep. You just need to do exercises to master all the important knowledge. At the same time, CCDAK prep torrent help you memorize knowledge points by correcting the wrong questions, which help you memorize more solidly than the way you read the book directly.
