The Pass4Test guarantees their customers that if they have prepared with Oracle Database SQL practice test, they can pass the Oracle Database SQL (1z0-071) certification easily. If the applicants fail to do it, they can claim their payment back according to the terms and conditions. Many candidates have prepared from the actual Oracle 1z0-071 Practice Questions and rated them as the best to study for the examination and pass it in a single try with the best score.

Oracle 1z0-071 exam consists of 73 multiple-choice questions that must be completed within 105 minutes. 1z0-071 exam is available in several languages, including English, Japanese, Korean, and Simplified Chinese. 1z0-071 exam fee varies by country, and candidates must register for the exam through the Oracle website. Candidates who pass the exam will receive an Oracle Database SQL certification, which is recognized by employers worldwide and can help professionals advance their careers in database management and SQL development.

Oracle 1z0-071 exam, also known as the Oracle Database SQL exam, is a certification that validates an individual's skills in working with Oracle databases. 1z0-071 exam is designed for individuals who work with databases and need to demonstrate their knowledge of SQL programming, database design, and data modeling concepts. Oracle Database SQL certification is recognized globally and is highly regarded in the IT industry.

Oracle 1z1-071 exam is a valuable certification for database professionals who want to demonstrate their expertise in SQL and Oracle Database administration. 1z0-071 Exam covers a range of topics, including SQL functions, data manipulation, data retrieval, and data control. Oracle certified professionals are in high demand and can command high salaries in the industry, making this certification an excellent investment for your career.

Pass4Test 1z0-071 Questions – Greatest Solution to Pass Oracle Exam

Do you want to find a job that really fulfills your ambitions? That's because you haven't found an opportunity to improve your ability to lay a solid foundation for a good career. Our 1z0-071 learning materials are carefully compiled by industry experts based on the examination questions and industry trends in the past few years. The knowledge points are comprehensive and focused. You don't have to worry about our learning from 1z0-071 Exam Question. We assure you that our 1z0-071 learning materials are easy to understand and use the fewest questions to convey the most important information.

Oracle Database SQL Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which three statements are true about views in an Oracle Database?

- A. A SELECT statement cannot contain a WHERE clause when querying a view containing a WHERE clause in its defining query.

- B. Views have no object number.
- C. Views have no segment.
- D. Rows inserted into a table using a view are retained in the table if the view is dropped.
- E. Views can join tables only if they belong to the same schema.
- F. A view can be created that refers to a non-existent table in its defining query.

Answer: B,E,F

Explanation:

Explanation

NEW QUESTION # 14

Examine these requirements:

1. Display book titles for books purchased before January 17, 2007 costing less than 500 or more than 1000.
2. Sort the titles by date of purchase, starting with the most recently purchased book.

Which two queries can be used?

- A. SELECT book_title FROM books WHERE (price IN (500, 1000)) AND (purchase_date < '17-JAN-2007') ORDER BY purchase_date ASC;
- B. SELECT book_title FROM books WHERE (price NOT BETWEEN 500 AND 1000) AND (purchase_date < '17-JAN-2007') ORDER BY purchase_date DESC;
- C. SELECT book_title FROM books WHERE (price < 500 OR > 1000) AND (purchase_date < '17-JAN-2007') ORDER BY purchase_date DESC;
- D. SELECT book_title FROM books WHERE (price BETWEEN 500 AND 1000) AND (purchase_date < '17-JAN-2007') ORDER BY purchase_date;

Answer: B

Explanation:

The requirements specify that we need to select book titles based on a price condition and a date condition, and then sort the results by the date of purchase.

A). This query will not execute successfully because there is a syntax error in the price condition. It should be price < 500 OR price > 1000.

B). This query is incorrect. The requirement specifies that the price must be less than 500 or more than 1000, not in a list of values.

C). This query is correct. It selects books where the price is not between 500 and 1000 (thus, less than 500 or more than 1000) and the purchase date is before January 17, 2007, ordered by purchase date in descending order.

D). This query is incorrect because it selects books with prices between 500 and 1000, which is not what the requirement specifies.

NEW QUESTION # 15

Which two statements are true about sequences created in a single instance Oracle database? (Choose two.)

- A. When the MAXVALUE limit for a sequence is reached, it can be increased by using the ALTER SEQUENCE statement.
- B. The numbers generated by an explicitly defined sequence can only be used to insert data in one table.
- C. DELETE <sequencename> would remove a sequence from the database.
- D. When a database instance shuts down abnormally, sequence numbers that have been cached but not used are available again when the instance is restarted.
- E. CURRVAL is used to refer to the most recent sequence number that has been generated for a particular sequence.

Answer: A,E

Explanation:

http://docs.oracle.com/cd/E11882_01/server.112/e41084/statements_2012.htm#SQLRF00817

https://docs.oracle.com/cd/A84870_01/doc/server.816/a76989/ch26.htm

NEW QUESTION # 16

Examine the description of the PRODUCT_DETAILS table:

Name	Null?	Type
PRODUCT_ID	NOT NULL	NUMBER(2)
PRODUCT_NAME	NOT NULL	VARCHAR2(25)
PRODUCT_PRICE		NUMBER(8,2)
EXPIRY_DATE		DATE

Which two statements are true?

- A. EXPIRY_DATE cannot be used in arithmetic expressions.
- B. PRODUCT_NAME cannot contain duplicate values.
- C. PRODUCT_ID can be assigned the PRIMARY KEY constraint.
- D. PRODUCT_PRICE contains the value zero by default if no value is assigned to it.
- E. EXPIRY_DATE contains the SYSDATE by default if no date is assigned to it.
- F. PRODUCT_PRICE can be used in an arithmetic expression even if it has no value stored in it.

Answer: A,C

Explanation:

In reference to the attributes of the PRODUCT_DETAILS table:

A . This statement is false. If PRODUCT_PRICE has no value (i.e., it is NULL), it cannot be used directly in arithmetic expressions because any operation with NULL results in NULL.

B . This statement is true. PRODUCT_ID has the NOT NULL constraint and is of type NUMBER, making it eligible to be a PRIMARY KEY. Primary keys require all values to be unique and not null.

C . This statement is true. EXPIRY_DATE is of type DATE, and it cannot be used in arithmetic expressions directly without a date function that operates on dates.

D . This statement is false. By default, columns of type DATE do not have a default value unless explicitly assigned using the DEFAULT keyword in the column definition.

E . This statement is false. By default, numeric columns do not have a default value unless specified with the DEFAULT keyword.

F . This statement is false. The statement about PRODUCT_NAME not containing duplicate values would be true if it were a UNIQUE or PRIMARY KEY, but there is no such constraint indicated in the provided table description.

NEW QUESTION # 17

Evaluate the following ALTER TABLE statement:

ALTER TABLE orders

SET UNUSED (order_date);

Which statement is true?

- A. The DESCRIBE command would still display the ORDER_DATE column.
- B. ROLLBACK can be used to get back the ORDER_DATE column in the ORDER table.
- C. After executing the ALTER TABLE command, you can add a new column called ORDER_DATE to the ORDER table.
- D. The ORDER_DATE column should be empty for the ALTER TABLE command to execute successfully.

Answer: C

NEW QUESTION # 18

.....

Only 20-30 hours on our 1z0-071 learning guide are needed for the client to prepare for the test and it saves our client's time and energy. Most people may wish to use the shortest time to prepare for the test and then pass the test with our 1z0-071 study materials successfully because they have to spend their most time and energy on their jobs, learning, family lives and other important things. Our 1z0-071 Study Materials can satisfy their wishes and client only needs to spare little time to prepare for the 1z0-071 test and focus their main attentions on their major things.
