ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q57-Q62):

NEW QUESTION # 57

If a sub-project and parent project have different project currencies, this property should be set to true for cost roll-ups.

- A. com.snc.project.rollup_project_start_date
- B. com.snc.project.calculate_roi
- C. com.snc.project.multicurrency.rollup_if_different
- D. com.snc.project.copy.additional_attributes

Answer: C

Explanation:

According to the ServiceNow documentation¹, this property controls whether the cost roll-ups are performed when a sub-project and parent project have different project currencies. If this property is set to true, then the system converts the sub-project currency to the parent project currency using the exchange rate table and performs the cost roll-ups. If this property is set to false, then the system does not perform the cost roll-ups for sub-projects with different currencies.

NEW QUESTION # 58

What role must be assigned to users to be considered for resource planning?

- A. timecard_user
- B. rate_model_user
- C. pps.resource_resource_user
- D. resource_manager

Answer: C

NEW QUESTION # 59

Where do you define 'Roles' requested via resource plans?

- A. Roles under system security.
- B. No need to define it differently, they are same as system roles.
- C. Resource roles under resource management.
- D. Under skill management modules.

Answer: C

Explanation:

Explanation

According to the Assigning Resource Roles document, you define 'Roles' requested via resource plans under resource roles in the

Resource Management application. Resource roles are the roles that users can request or allocate for resource plans. The other options are not correct, as they are not the places where you define 'Roles' requested via resource plans. The system roles are the roles that grant access to various applications and modules in the system. The roles under system security are the roles that control the security settings and permissions for the system. The skill management modules are the modules that manage the skills and skill levels of users and groups.

NEW QUESTION # 60

How can cost plans be generated from resource assignments?

Choose 2 answers

- **A. Run a scheduled job to automatically generate labor costs from resource assignments**
- B. Select the 'Generate cost' button in Resource Management Workspace
- C. Update the appropriate Resource Management property
- **D. Select the 'Generate labor costs' button on Project Workspace**

Answer: A,D

NEW QUESTION # 61

When copying a source project to a target project, what fields are copied by default?

Choose 3 answers

- **A. Duration fields.**
- **B. Planned dates.**
- **C. Short description.**
- D. State
- E. Number.

Answer: A,B,C

NEW QUESTION # 62
