Topic	Details
Topic 1	<ul style="list-style-type: none">• User Management: This domain covers determining appropriate roles for console access, creating and assigning roles with specific permissions, and managing API keys for platform access.

Topic 2	<ul style="list-style-type: none"> • Policy Application: This domain encompasses configuring prevention policies for security posture, sensor update policies, RTR audit policies, containment policies with IP exclusions, and managing quarantined files.
Topic 3	<ul style="list-style-type: none"> • Sensor Deployment: This domain focuses on verifying installation prerequisites, applying default policies and best practices, uninstalling sensors, and troubleshooting sensor issues across supported operating systems.
Topic 4	<ul style="list-style-type: none"> • Host Management and Setup: This domain addresses filtering and organizing hosts, disabling detections and understanding their effects, managing Reduced Functionality Mode situations, locating inactive sensors and their retention, and utilizing relevant management reports.
Topic 5	<ul style="list-style-type: none"> • Group Creation: This domain covers assigning endpoints to appropriate groups for policy application and following best practices for managing host group structures.
Topic 6	<ul style="list-style-type: none"> • Dashboards and Reports: This domain covers understanding different sensor report types and their use cases, and interpreting various audit logs for tracking platform activities.

CrowdStrike Falcon Administrator Sample Questions (Q228-Q233):

NEW QUESTION # 228

How would you reset an API secret?

- A. Via the three-dot menu on the API client
- B. Create a support ticket requesting a reset
- C. Via General Settings
- D. A new API client is required as you are unable to reset a secret

Answer: A

NEW QUESTION # 229

Which role will allow someone to manage quarantine files?

- A. Endpoint Manager
- B. Falcon Security Lead
- C. Detections Exceptions Manager
- D. Falcon Analyst ?Read Only

Answer: B

Explanation:

The role that will allow someone to manage quarantine files is Falcon Security Lead. This role allows users to view and manage quarantined files, as well as release them from quarantine or download them for further analysis. The other roles do not have this capability.

NEW QUESTION # 230

Which report can assist in determining the appropriate Machine Learning levels to set in a Prevention Policy?

- A. Machine Learning Debug
- B. Machine Learning Prevention Monitoring
- C. Sensor Report
- D. Falcon UI Audit Trail

Answer: B

Explanation:

The Machine Learning Prevention Monitoring report in the Prevention Policy Management option allows you to monitor the impact

of machine learning (ML) prevention settings on your environment. You can view the number of ML detections and preventions by severity, policy, and host group. You can also drill down into specific events and hosts to see more details. This report can help you determine the appropriate ML levels to set in a prevention policy based on your risk tolerance and security posture.

NEW QUESTION # 231

Which of the following is an effective Custom IOA rule pattern to kill any process attempting to access www.badguydomain.com?

- A. Custom IOA rules cannot be created for domains
- B. \Device\HarddiskVolume2*.exe -SingleArgument www.badguydomain.com/kill
- C. badguydomain\com *
- D. .*badguydomain.com *

Answer: D

Explanation:

You are using RegEx here and need leading "." to capture www and then need a "." at the end to identify any sites falling under badguydomain.com.

NEW QUESTION # 232

Which report lists counts of sensors in Reduced Functionality Mode (RFM) for all operating system types, and tracks how long a sensor version will be supported?

- A. Inactive Sensor Report
- B. Sensor Coverage Lookup
- C. Sensor Health Report
- D. Reduce Functionality Audit Report

Answer: B

Explanation:

The report that lists counts of sensors in Reduced Functionality Mode (RFM) for all operating system types, and tracks how long a sensor version will be supported is Sensor Coverage Lookup. The Sensor Coverage Lookup report allows you to view and compare the sensor versions and coverage status for each operating system type in your environment. You can use this report to identify any sensors that are in RFM or are approaching end-of-life (EOL) support.

You can also view the release date and EOL date for each sensor version.

NEW QUESTION # 233

.....

As you know, your company will introduce new talent each year. In the face of their excellent resume, you must improve your strength to keep your position! Our CCFA-200b study questions may be able to give you some help. What you need may be an internationally-recognized CCFA-200b certificate, perhaps using the time available to complete more tasks. With our CCFA-200b study materials, you will pass the exam in the shortest possible time.
