

Salesforce Mule-101資格取得講座、Mule-101資格参考書

さらに、ShikenPASS Mule-101ダンプの一部が現在無料で提供されています：https://drive.google.com/open?id=1BXDSJ34PYLGwquVohM9y4hrhSc__aK1I

お客様はMule-101学習資料の無料アップデートを1年間楽しむことができるため、情報の急速な発展はMule-101試験問題の学習価値を侵害しません。メールでMule-101スタディファイルの更新を受け取ります。また、Mule-101スタディファイルには、PDF、ソフト、およびAPPバージョンの3つの異なるバージョンがあります。一方、Mule-101試験の質問でご連絡いただければ、最高の提案を提供します。

Salesforce Mule-101 認定試験の出題範囲:

トピック	出題範囲
トピック 1	<ul style="list-style-type: none">統合プロジェクトの役割、責任、ライフサイクルを特定します。このドメインでは、統合プロジェクトのライフサイクル、一般的な障害ポイント、MuleSoftのAPI主導の配信モデル、DevOpsプラクティス、統合プロジェクト内のチームの役割について説明します。
トピック 2	<ul style="list-style-type: none">重要な統合の概念と用語を認識し、解釈する:このドメインでは、クラウドサービスモデル、インフラストラクチャの種類、ネットワークプロトコル、データ形式、セキュリティの原則、API分類などの基本的な概念に焦点を当てます。
トピック 3	<ul style="list-style-type: none">システム統合のためのAnypoint Platformのコンポーネントと利点について説明します。このドメインでは、Anypoint Platformの統合コンポーネント、コネクタ、ランタイムコントロールプレーン、展開オプション、再利用可能なExchangeアセットについて説明します。

Mule-101資格参考書 & Mule-101最速合格

ShikenPASSのSalesforceのMule-101の試験問題と解答はあなたが受験する前にすべての必要とした準備資料を提供しています。SalesforceのMule-101の認証試験について、あなたは異なるサイトや書籍で色々な問題を見つけることができます。しかし、ロジックが接続されているかどうかはキーです。ShikenPASSの問題と解答は初めに試験を受けるあなたが気楽に成功することを助けるだけでなく、あなたの貴重な時間を節約することもできます。

Salesforce Certified MuleSoft Integration Foundations 認定 Mule-101 試験問題 (Q16-Q21):

質問 # 16

Which component of Anypoint Platform belongs to the platform control plane?

- A. Runtime Fabric
- B. Runtime Replica
- C. Anypoint Connectors
- **D. API Manager**

正解: **D**

解説:

Control Plane vs. Runtime Plane:

Control Plane: The set of components that manage, monitor, and design APIs and applications. This includes API Manager, Runtime Manager (the console), Anypoint Exchange, and Design Center3.

Runtime Plane: The infrastructure where the applications actually run (execute). This includes the Mule Runtime engine, Runtime Fabric, and CloudHub workers.

API Manager: It sits in the Control Plane and pushes policies (governance) down to the runtime engines (gateways).

質問 # 17

According to MuleSoft, which major benefit does a Center for Enablement (C4E) provide for an enterprise and its lines of business?

- A. Enabling Edge security between the lines of business and public devices
- **B. Accelerating self-service by the lines of business**
- C. Centrally managing return on investment (ROI) reporting from lines of business to leadership
- D. Centralizing project management across the lines of business

正解: **B**

解説:

Center for Enablement (C4E): Unlike a Center of Excellence (CoE) which centralizes work, a C4E focuses on enablement.

Self-Service: The primary goal is to harvest reusable assets and best practices so that the Lines of Business (LOB) can build their own projects using these assets. This accelerates self-service and removes Central IT as the bottleneck13.

Why others are incorrect:

Centralizing Project Management (D): C4E promotes decentralized delivery (federation), not centralized management.

質問 # 18

What is an advantage that Anypoint Platform offers by providing universal API management and Integration-Platform-as-a-Service (iPaaS) capabilities in a unified platform?

- A. Ability to use a single iPaaS to manage and integrate all API gateways
- **B. Ability to use a single control plane for both full-lifecycle API management and integration**
- C. Ability to use a single connector to manage and integrate all APIs
- D. Ability to use a single iPaaS to manage all API developer portals

正解: **B**

解説:

Unified Platform: Many vendors offer either API Management (APIM) or Integration (iPaaS) as separate tools. Anypoint Platform combines them.

Single Control Plane: The primary advantage is having a single interface (The Anypoint Control Plane) where you can do everything: design APIs, build integrations, deploy them, govern them with policies, and monitor them.

Impact: This reduces complexity, lowers costs (no need to buy two separate stacks), and streamlines the workflow from development to operations.

質問 # 19

A high-volume eCommerce retailer receives thousands of orders per hour and requires notification of its order management, warehouse, and billing systems for subsequent processing within 15 minutes of order submission through its website.

- A. Extract Transform Load (ETL)
- B. Managed File Transfer (MFT)
- C. Publish/Subscribe Messaging Bus (Pub/Sub)
- D. Enterprise Data Warehouse (EDW)

正解: C

解説:

The Requirement: The key phrase is "notification... of order management, warehouse, and billing systems." This describes a One-to-Many communication pattern (Fan-out).

Pub/Sub (Publish/Subscribe): This pattern decouples the sender (eCommerce Site) from the receivers (Warehouse, Billing).

The eCommerce site publishes a single "Order Created" event to a topic (e.g., Anypoint MQ or JMS).

Multiple subscribers (Warehouse, Billing, OMS) listen to that topic and process the message independently and asynchronously.

Why others are incorrect:

ETL: Is typically batch-oriented and used for moving large data sets to a warehouse, not for near real-time event notifications.

MFT: Is for moving files, which is too slow and heavy for high-volume, individual order notifications.

質問 # 20

CloudHub is an example of which cloud computing service model?

- A. Infrastructure as a Service (IaaS)
- B. Monitoring as a Service (MaaS)
- C. Software as a Service (SaaS)
- D. Platform as a Service (PaaS)

正解: D

解説:

PaaS (Platform as a Service): CloudHub is MuleSoft's managed integration platform. In the NIST cloud model, it falls under iPaaS, which is a specialized form of PaaS.

The Model:

MuleSoft manages: The underlying infrastructure (AWS EC2 instances), operating systems, updates, security patching, and the Java/Mule Runtime environment.

Customer manages: The application code (Mule apps) and data.

Why it is not IaaS: In IaaS (like raw AWS EC2), the customer would be responsible for installing the OS, Java, and patching the server. In CloudHub, this is abstracted away.

質問 # 21

.....

SalesforceのMule-101認定試験は現在で本当に人気がある試験ですね。まだこの試験の認定資格を取っていないあなたも試験を受ける予定があるのでしょうか。確かに、これは困難な試験です。しかし、難しいといっても、高い点数を取って楽に試験に合格できないというわけではないです。では、まだ試験に合格するショートカットがわからないあなたは、受験のテクニックを知りたいですか。今教えてあげますよ。ShikenPASSのMule-101問題集を利用することです。
