

# HPE0-S59 Dump Collection - HPE0-S59 Valid Real Test

What's more, part of that Exam-Killer HPE0-S59 dumps now are free: <https://drive.google.com/open?id=1mfUcI3YzqhBFsC-v7ydFWQQu6F0jdPQ0>

Many people are keen on taking part in the HPE0-S59 exam, The competition between candidates is fierce. If you want to win out, you must master the knowledge excellently. Our HPE0-S59 training quiz is your best choice. With the assistance of our HPE0-S59 study materials, you will advance quickly. Also, all HPE0-S59 Guide materials are compiled and developed by our professional experts. So you can totally rely on our HPE0-S59 exam simulating to aid you pass the exam. Furthermore, you will learn all knowledge systematically, which can help you memorize better.

HP HPE0-S59 (HPE Compute Solutions) certification exam is designed for IT professionals who are looking to validate their skills and knowledge in designing, deploying, and managing HPE compute solutions. HPE0-S59 Exam is intended for individuals who have experience in working with HPE servers, storage, and networking technologies.

## HP HPE0-S59 Valid Real Test & HPE0-S59 Associate Level Exam

The pass rate is 98.65% for HPE0-S59 study guide, and you can pass the exam just one time. In order to build up your confidence for the exam, we are pass guarantee and money back guarantee. If you fail to pass the exam by using HPE0-S59 exam braindumps of us, we will give you full refund. Besides, HPE0-S59 learning materials are edited and verified by professional specialists, and therefore the quality can be guaranteed, and you can use them at ease. We have online and offline service. If you have any questions for HPE0-S59 Exam Materials, you can consult us, and we will give you reply as quick as possible.

## HPE Compute Solutions Sample Questions (Q30-Q35):

### NEW QUESTION # 30

Refer to the exhibit.

Which statement about this logical interconnect group is true?

- A. An additional license is required to change the enclosure count
- B. interconnect modules are installed in interconnect bays 1 and 4
- C. Both modules are located in different frames for redundancy
- D. For an uplink set, ports from different modules can be selected

**Answer: A**

**NEW QUESTION # 31**

You configured a vVol datastore using HPE Storage integration Pack for VMware vCenter.

Which storage object should you check using SSMC to verify whether vVol datastore is configured property?

- A. Storage Container
- B. App Volume Set
- C. Virtual Volume Set
- D. virtual Volume

**Answer: A**

Explanation:

When you configure a vVol datastore using the HPE Storage Integration Pack for VMware vCenter, the storage object to check in SSMC (HPE StoreServ Management Console) is the Storage Container. The Storage Container is a logical storage entity that houses virtual volumes (vVols) and represents the vVol datastore in the storage system. Verifying the Storage Container ensures that the vVol datastore is properly configured and managed.

**NEW QUESTION # 32**

A junior architect designed a solution based on HPE Synergy that must meet the following requirements:

- \* Support at least 30 HPE Synergy 480 Gen10 Plus compute modules
  - \* Interconnect modules must provide MAC and WWN virtualization
  - \* All HPE Synergy frames must formulate a single management entity
  - \* The management appliance should not be a single point of failure
  - \* Connectivity to FC array should be available to all compute nodes
- The proposal consists of:
- \* 3 HPE Synergy 12000 frames
  - \* 6 HPE Composer 2 modules
  - \* 2 HPE Virtual Connect SE 100Gb F32 Module
  - \* 4 HPE Synergy 50Gb Interconnect Link Module
- Which statements about this proposed design are true? (Select two)

- A. Remove 4 HPE Composer 2 modules from the design, as they are not required.
- B. FC upgrade licenses for HPE Virtual Connect SE 100Gb F32 Module must be added.
- C. HPE Synergy 50Gb ILMs must be replaced with HPE Virtual Connect SE 100Gb F32 modules.
- D. The selected interconnect modules do not provide the requested WWN virtualization.
- E. The current setup can support up to 18 HPE Synergy 480 Gen10 Plus compute modules.

Answer: A,D

### NEW QUESTION # 33

Match HPE SimpliVity term with the definition.

| Term                           |   | Definition   |
|--------------------------------|---|--|
| Arbiter                        |  | Non-hyperconverged servers that can exist in an HPE SimpliVity environment and provide additional compute capacity while consuming the storage provided by the hyperconverged nodes. |
| Compute node                   |   | Provides centralized management and events end-point for vCenter.  |
| Management Virtual Controller  |   | Integrates with VMware Distributed Resources Scheduler to ensure optimal placement of the VM compute resources.  |
| Intelligent Workload Optimizer |   | Facilitates communication between nodes and resolves state conflicts to ensure service continuity.   |

Answer:

Explanation:

| Term                           |   | Definition   |
|--------------------------------|---|--|
| Arbiter                        |   | Non-hyperconverged servers that can exist in an HPE SimpliVity environment and provide additional compute capacity while consuming the storage provided by the hyperconverged nodes. |
| Compute node                   |  | Provides centralized management and events end-point for vCenter.  |
| Management Virtual Controller  |   | Integrates with VMware Distributed Resources Scheduler to ensure optimal placement of the VM compute resources.  |
| Intelligent Workload Optimizer |   | Facilitates communication between nodes and resolves state conflicts to ensure service continuity.   |
| Arbiter                        |   |  |

Explanation:

Here are the correct matches for each HPE SimpliVity term with their respective definitions:

- \* Arbiter Definition: Facilitates communication between nodes and resolves state conflicts to ensure service continuity.
- \* Compute node Definition: Non-hyperconverged servers that can exist in an HPE SimpliVity environment and provide additional compute capacity while consuming the storage provided by the hyperconverged nodes.
- \* Management Virtual Controller Definition: Provides centralized management and events end-point for vCenter.
- \* Intelligent Workload Optimizer Definition: Integrates with VMware Distributed Resources Scheduler to ensure optimal placement of the VM compute resources.
- \* Arbiter: This component is essential for ensuring that the HPE SimpliVity nodes communicate properly and that any state conflicts are resolved, which is critical for maintaining service continuity.
- \* Compute node: These are non-hyperconverged servers that add additional compute capacity to the HPE SimpliVity environment.

They utilize the storage resources provided by the hyperconverged nodes.

\* Management Virtual Controller: This controller is responsible for centralized management and acts as the events end-point for vCenter, allowing for streamlined management of the SimpliVity environment.

\* Intelligent Workload Optimizer: This tool integrates with VMware's Distributed Resources Scheduler (DRS) to ensure that virtual machine (VM) compute resources are placed optimally across the infrastructure.

### NEW QUESTION # 34

A company manages their HPE ProLiant servers with HPE Compute Ops Management. Admins want to use this solution to deploy a Red Hat Enterprise Linux OS on a group of servers. What is one prerequisite?

- A. Admins must install HPE iSUT on the servers using iLO Intelligent Provisioning.
- **B. Admins must obtain or create an Image that is set up for unintended, or automated, installation.**
- C. Admins must prestage the ISO OS installation file in the servers' iLO Repository.
- D. Admins must ensure that the servers do not have any security risks found on them.

**Answer: B**

### NEW QUESTION # 35

.....

For some candidates who are caring about the protection of the privacy, our HPE0-S59 exam materials will be your best choice. We respect the personal information of our customers. If you buy HPE0-S59 exam materials from us, we can ensure you that your personal information, such as the name and email address will be protected well. Once the order finishes, your personal information will be concealed. In addition, we are pass guarantee and money back guarantee. If you fail to pass the exam after buying HPE0-S59 Exam Dumps from us, we will refund your money.
