The PMI-ACP or Agile Certified Practitioner is a certification exam that demonstrates a candidate's knowledge of agile principles and skills using agile techniques. This certificate is globally recognized and helps address organizations that depend on agile practitioners to efficiently undertake their projects. However, the amount of material covered by such an exam is extensive. With study guides and quality training, candidates can meet the PMI-ACP test objectives and achieve optimal results.

PMI-ACP exam consists of 120 multiple-choice questions, which must be completed within a three-hour time frame. PMI-ACP Exam is computer-based and can be taken at authorized testing centers around the world.

PMI-ACP certification is an important credential for individuals who work in agile environments. It demonstrates their expertise and knowledge in agile methodologies and can help them advance in their careers. The PMI-ACP certification is also important for organizations that use agile methodologies. It ensures that their employees have the necessary skills and knowledge to work effectively in an agile environment.
