

# Excellect FCP\_GCS\_AD-7.6 Pass Rate & FCP\_GCS\_AD-7.6 Real Questions

BONUS!!! Download part of Pass4SureQuiz FCP\_GCS\_AD-7.6 dumps for free: <https://drive.google.com/open?id=1x0d6nTsgOT6BclZE0K2NqXgsfmrOCV8>

Our Fortinet FCP\_GCS\_AD-7.6 demo products hold the demonstration for our actual products, demos are offered at no cost only for raising your confidence level. Procure the quality of our product in advance, unsighted featured becomes reveal with our FCP\_GCS\_AD-7.6 Demo products. Free Private Cloud Monitoring and Operations with demos respond to all kind of worries that customers have in their mind while going for actual purchase.

## Fortinet FCP\_GCS\_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Explain Fortinet licensing models: This topic describes Fortinet licensing options, subscription models, and usage-based licensing in cloud environments.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Identify Fortinet products on Google Cloud Marketplace: This topic covers available Fortinet security solutions that can be deployed directly from the Google Cloud Marketplace.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Identify supported protocols: This topic outlines the network and application protocols supported by FortiGate and Google Cloud deployments.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Describe FGCP A-P HA: This topic explains FortiGate Clustering Protocol Active-Passive high availability architecture and its failover process.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Secure Google Cloud: This topic covers security best practices, controls, and tools used to protect workloads and data within Google Cloud.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Understand various load balancing operations: This section explains how load balancers distribute traffic, perform health checks, and ensure service availability.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Identify Fortinet WAF solutions for Google Cloud: This topic introduces Fortinet Web Application Firewall solutions designed to protect web applications in Google Cloud.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Identify threats and challenges in the public cloud: This area focuses on common security risks, compliance issues, and operational challenges faced in public cloud environments.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Describe Fortinet Github: This section covers the purpose of Fortinet GitHub resources, including deployment templates, scripts, and automation tools.</li> </ul>

Topic 10	<ul style="list-style-type: none"> <li>Define public cloud service terms: This section explains key terminology such as IaaS, PaaS, SaaS, regions, zones, and shared responsibility models.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Understand FortiGate Google Cloud SDN integration: This section explains how FortiGate integrates with Google Cloud SDN for dynamic policy updates and automation.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Describe FortiWeb Cloud: This section explains the features and deployment model of FortiWeb Cloud as a SaaS-based WAF solution.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Examine use cases for deploying FortiGate: This topic explains practical deployment scenarios such as perimeter security, segmentation, and secure connectivity.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Explain different HA architectures in Google Cloud: This section covers high availability design models used to ensure redundancy and fault tolerance.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>Explore load balancing NAT: This section explains how Network Address Translation is used within load balancing configurations.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>Identify Google Cloud security components: This topic covers built-in security services such as IAM, Cloud Armor, Security Command Center, and encryption features.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>Describe traffic flow for FortiGate Google Cloud architectures: This section outlines how traffic moves through FortiGate instances in various Google Cloud deployment models.</li> </ul>
Topic 18	<ul style="list-style-type: none"> <li>Identify Google Cloud core networking components: This section focuses on VPCs, subnets, routes, firewalls, and connectivity options within Google Cloud networking.</li> </ul>
Topic 19	<ul style="list-style-type: none"> <li>Describe Google Cloud service components: This topic explains the main Google Cloud services, including compute, storage, networking, and management components.</li> </ul>

## 2026 Latest FCP\_GCS\_AD-7.6 – 100% Free Excellect Pass Rate | FCP\_GCS\_AD-7.6 Real Questions

The cost of registering a FCP\_GCS\_AD-7.6 Certification is quite expensive, ranging between \$100 and \$1000. After paying such an amount, the candidate is sure to be on a tight budget. Pass4SureQuiz provides Fortinet FCP\_GCS\_AD-7.6 preparation material at very low prices compared to other platforms. We also assure you that the amount will not be wasted and you will not have to pay for the certification a second time. For added reassurance, we also provide up to 1 year of free updates. Free demo version of the actual product is also available so that you can verify its validity before purchasing.

### Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q21-Q26):

#### NEW QUESTION # 21

An administrator has been tasked with modifying their organization's existing active-passive high-availability (HA) FortiGate cluster and turn it into an active-active HA cluster.

Which two behavior changes will the administrator see in the cluster after the change? (Choose two.)

- A. The cluster no longer act as a single logical instance.
- B. The sessions will no longer be synchronized between cluster members.
- C. There is no longer a need to reserve a dedicated port for HA communications.
- D. The configuration will no longer be synchronized between cluster members.

**Answer: A,C**

Explanation:

Active-active HA does not require a dedicated HA communication port as each member handles traffic independently. In active-active mode, cluster members operate more independently and do not present as a single logical device like in active-passive mode.

### NEW QUESTION # 22

You need to deploy a new Windows server in Google Cloud to offload web traffic from an existing web server in a different zone. As the customer, which two actions must you take to secure the new ComputeEngine instance? (Choose two.)

- A. Implement a web application firewall.
- B. Change the proxy load balancer to an application load balancer.
- C. Configure Google Cloud IAM to limit Windows administrator access.
- D. Assign firewall rules to the compute engine instance.

Answer: C,D

Explanation:

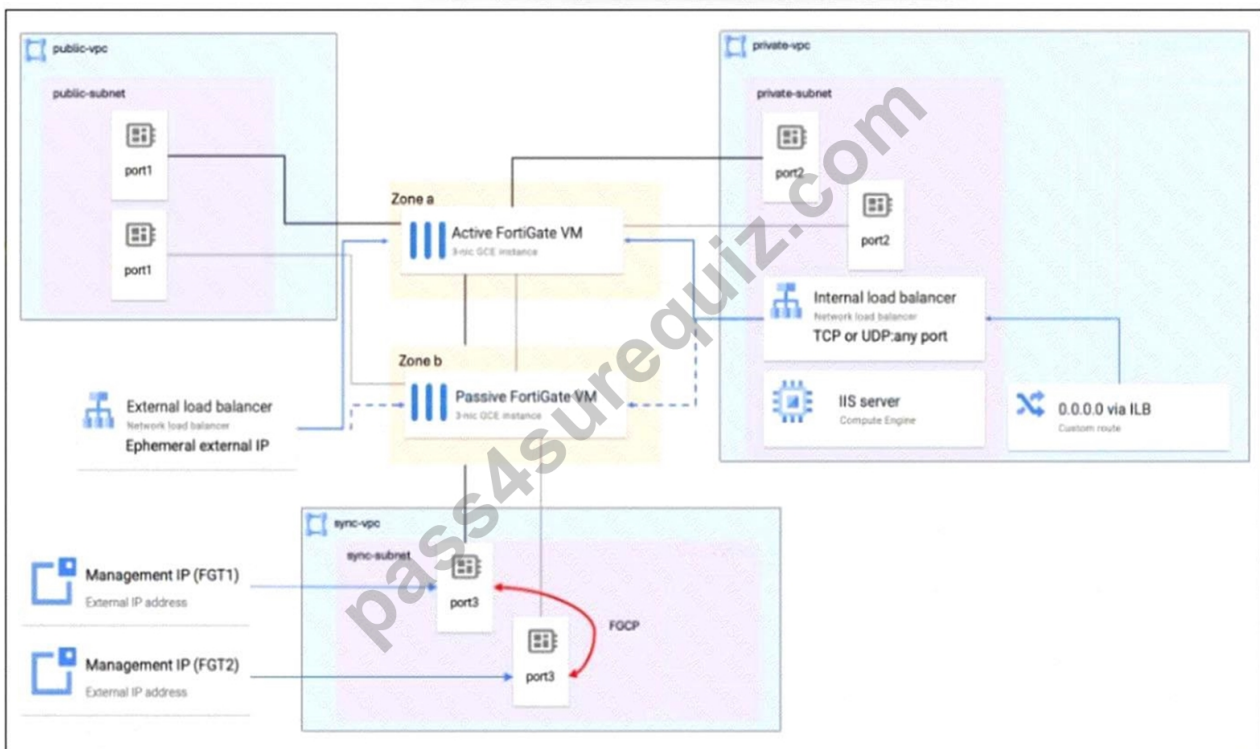

Assigning firewall rules controls network traffic to the instance, protecting it from unauthorized access.

Configuring IAM to limit administrative access ensures only authorized users can manage the Windows server, enhancing security.

### NEW QUESTION # 23

Refer to the exhibit.

Active-passive HA environment

Which three things happen during a failover in which the passive FortiGate VM becomes the master cluster member in an active-passive high-availability (HA) environment? (Choose three.)

- A. The custom route is updated using API calls to forward all traffic to port2 of the new active cluster member device.
- B. The Management IP address moves from port3 of the current active member to port3 of the new active cluster member.
- C. The health check ensures that incoming traffic to the ephemeral external IP address of the load balancer is forwarded to the new active cluster member.
- D. The health check for the passthrough load balancers forces internal traffic to route to port2 of the new active cluster member.
- E. The health check status will indicate that the old active cluster member is unhealthy.

**Answer: A,C,E**

Explanation:

The load balancer health check detects the failure of the old active member and forwards traffic to the new active member. The health check reflects the status change, marking the previous active as unhealthy. API calls update custom routes to redirect traffic to the new active cluster member's internal interface (port2).

#### NEW QUESTION # 24

An administrator is tasked to deploy two FortiGate devices in two different zones to achieve geographical redundancy. Which two architectural considerations must the administrator address? (Choose two.)

- A. The FortiGate devices must not be deployed in the same VPC.
- B. The FortiGate devices can be deployed in the same subnet.
- C. The FortiGate devices must be deployed in two different regions.
- D. The FortiGate devices cannot be assigned the second IP address in the subnets that they are deployed in.

**Answer: C,D**

Explanation:

Deploying FortiGate devices in different regions ensures geographic redundancy. The second IP address in a subnet is reserved for the default gateway in Google Cloud, so FortiGate devices cannot use that IP.

#### NEW QUESTION # 25

An organization is planning to deploy two FortiGate VMs in two different regions. Which two Google Cloud core components can span both FortiGate VMs in both regions? (Choose two.)

- A. Google Cloud subnet
- B. Google Cloud zone
- C. Google Cloud virtual private cloud
- D. Google Cloud project

**Answer: C,D**

Explanation:

A Google Cloud VPC can span multiple regions, allowing FortiGate VMs in different regions to be part of the same network. A Google Cloud project provides the administrative boundary that can include resources across multiple regions and VPCs, enabling centralized management of both FortiGate VMs.

#### NEW QUESTION # 26

.....

The Fortinet FCP\_GCS\_AD-7.6 exam dumps will include a detailed illustration of the topics and give you enough information about them. If you want to clear the Fortinet FCP\_GCS\_AD-7.6 certification exam, it is important to get the Fortinet FCP\_GCS\_AD-7.6 Exam Material first. The FCP\_GCS\_AD-7.6 test material is the only way to know where you stand.
