### Pegasystems Certified Pega Business Architect 24 Sample Questions (Q125-Q130):

#### NEW QUESTION # 125

A list report includes columns for purchase requests and regional cost centers. A manager wants the report to show the total number of purchase requests for each of the regional cost centers.

How do you configure the report definition?

- A. Summarize the purchase requests column by count
- B. Filter the results so that only cost center and purchase requests are included in the report
- C. Use the purchase requests column to group the cost centers
- D. Summarize the regional cost centers by count

**Answer: A**

#### NEW QUESTION # 126

Which two statements are true regarding approvals? (Choose Two)

- A. Approval Steps must be configured to go to a specific user.
- B. You can configure a Stage change to occur when a user provides approval.
- C. Users must be logged in to the application to provide approval.
- D. A user can approve a purchase request through a mobile notification.

**Answer: B,D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

This question tests Pega's approval process configuration.

\* A: Correct. Stage transitions can be triggered by approval completion in Pega's case lifecycle.Extract:

Pega Academy, Case Management - Stages and Processes: "Stages can transition based on process completion, such as an approval step."

\* B: Incorrect. Approvals can route to users, work queues, or dynamically. Extract: Pega Academy, Process Design - Routing:

"Approval steps can route to a user, work queue, or based on business logic."

\* C: Correct. Pega Mobile Client supports approvals via notifications. Extract: Pega Academy, Mobile Features: "Users can approve tasks via mobile notifications."

\* Pega Academy, Business Architect '23 Mission; CPBA Study Guide 8.8, Approvals; Pega Help, Configuring Approvals.

### NEW QUESTION # 127

Which option represents the relationship between mixins, controls, and formats?

Response:

- A. A mixin specifies a control which defines a format.
- B. A control specifies a mixin which defines a format.
- **C. A control specifies a format which uses a mixin.**
- D. A format uses a mixin that defines a control.

**Answer: C**

### NEW QUESTION # 128

Identify the name of Pega's business architecture design that aligns human intelligence and process automation with business logic to deliver high-value software solutions.

- A. Pega Express
- B. Business-first
- C. Customer-centric
- **D. Center-out**

**Answer: D**

Explanation:

The name of Pega's business architecture design that aligns human intelligence and process automation with business logic to deliver high-value software solutions is Center-out.

\* Center-out Design:

\* This approach focuses on designing the core business logic and processes first (the "center") and then extending outwards to include the user interface (UI) and channels.

\* By centering on the core logic, Pega ensures that the most critical aspects of the business process are well-defined and robust. This approach supports scalability and adaptability as the system grows and evolves.

Pega Academy: Center-out Business Architecture

Pega Documentation: Center-out Design Principles

### NEW QUESTION # 129

Which two assets are assigned to a release and used to estimate the project scope and duration? (Choose Two)

- A. Channels
- **B. Data objects**
- C. Processes
- D. Work Groups
- **E. Case Types**

**Answer: B,E**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

This question assesses project scoping.

\* A: Correct. Data objects define data structures, impacting scope. Extract: Pega Academy, Project Management: "Data objects are key assets scoped in releases."
