When a case is created or closed, an email should be sent only to users who have access to the case. Which feature should a consultant recommend to meet these requirements?

- **A. Case teams**
- B. Case swarms
- C. Account teams

**Answer: A**

Explanation:

Case teams in Salesforce allow for collaborative case management by enabling a group of users to work on cases together. - B. Share each quick text individually to Public Groups.
- C. Use custom labels to manage quick text translations.
