International Code Council M2 Certification Exam Dumps - Exam Questions M2 Vce

Individuals who pass the Commercial Mechanical Inspector certification exam demonstrate to their employers and clients that they have the knowledge and skills necessary to succeed in the industry. Pass4cram is aware that preparing with outdated M2 Study Material results in a loss of time and money.

International Code Council Commercial Mechanical Inspector Sample

Questions (Q48-Q53):

NEW QUESTION # 48

The minimum size for access openings for fire dampers shall be:

- A. adequate to permit maintenance and resetting of the damper.
- B. the same as the dimension of the duct.
- C. one-half the diagonal of the access opening.
- D. 12 inches by 12 inches.

Answer: A

Explanation:

The IMC requires access openings for fire dampers to be of a size that allows maintenance and resetting of the damper . The code does not set the answer as same-as-duct, half-diagonal, or a universal 12-inch by 12- inch opening. So Option C is correct.

NEW QUESTION # 49

When a permit is issued, the code requires that one set of approved plans and specifications be returned to the applicant. This set of plans and specifications shall be:

- A. kept on the building site.
- B. retained by the applicant for at least one year after the job is finished in the event modifications are made.
- C. filed with the county clerk or jurisdiction to properly record the property.
- D. returned to the architect.

Answer: A

Explanation:

Under the ICC administrative provisions used with the mechanical code, one approved set is retained by the code official, and one approved set is returned to the applicant. The returned set must be kept on the site of the building or job while the authorized work is in progress. That directly matches Option A . It does not require return to the architect, filing with the county clerk, or retention for one year after completion.

NEW QUESTION # 50

The exhibit shows a _____ in. diameter gas line between unit heaters 5 and 8.

- A. 1-1/8
- B. 3/4
- C. 0
- D. 1-1/4

Answer: C

Explanation:

Based on the mechanical plan shown in the exhibit, the gas line between unit heaters 5 and 8 is labeled as 1 inch in diameter. Therefore, the correct answer is B.

NEW QUESTION # 51

ERV systems shall not be installed in which of the following except:

- A. exhaust systems emitting corrosive materials.
- B. equipment designed to assist in the evacuation of occupants.
- C. systems utilizing coil-type exchangers.
- D. common exhaust systems for clothes dryers.

Answer: C

Explanation:

The IMC prohibits energy recovery ventilation systems in several applications, including hazardous exhaust systems, smoke control systems, commercial kitchen exhaust systems, and clothes dryer exhaust systems. Equipment intended to assist with occupant evacuation falls under smoke-control/life-safety type applications and is not an allowed ERV use. By contrast, systems utilizing coil-type exchangers are the exception among the listed choices because they are not one of the prohibited applications in this question. Therefore, Option A is correct.

NEW QUESTION # 52

For the installation of listed fuel-burning appliances, the required clearances should be found:

- A. on the approved plans and specifications for the building.
- B. by using a calculation based on the Btu/h output rating of the appliance.
- C. on the nameplate of the appliance.
- D. in the mechanical code.

Answer: C

Explanation:

The IMC requires fuel-burning units to be marked with the hourly rating, approved fuel type, and required clearances. That means the appliance marking/nameplate is the direct source for the required clearance information for listed fuel-burning appliances. This is why B is the correct answer.

NEW QUESTION # 53

.....

International Code Council M2 practice exam support team cooperates with users to tie up any issues with the correct equipment. If International Code Council M2 certification exam material changes, Pass4cram also issues updates free of charge for 1 year following the purchase of our M2 Exam Questions.
