Pass the Confluent Exam with CramPDF Confluent CCDAK Exam Questions

Our CCDAK study question has high quality. So there is all effective and central practice for you to prepare for your test. With our professional ability, we can accord to the necessary testing points to edit CCDAK exam questions. It points to the exam heart to solve your difficulty. So high quality materials can help you to pass your exam effectively, make you feel easy, to achieve your goal. With the CCDAK Test Guide use feedback, it has 98%-100% pass rate. That's the truth from our customers. And it is easy for you to pass the CCDAK exam after 20 hours' to 30 hours' practice.

Confluent CCDAK certification exam covers a wide range of topics related to Kafka, including Kafka architecture, Kafka clusters, Kafka streams, Kafka security, and Kafka monitoring. Confluent Certified Developer for Apache Kafka Certification Examination certification exam is designed for developers who have experience with Kafka and want to validate their skills and knowledge in the field. CCDAK exam is designed to test the understanding and expertise of developers in Kafka and related technologies.

The CCDAK certification exam is a hands-on exam, where developers are required to complete a series of tasks in a Kafka cluster. The tasks include creating topics, producing and consuming messages, configuring Kafka brokers, and writing Kafka applications. CCDAK exam is designed to test developers' ability to apply their knowledge of Kafka concepts in real-world scenarios and to ensure that they have the necessary skills to build and manage Kafka applications.

Confluent Certified Developer for Apache Kafka (CCDAK) Certification Exam is a rigorous certification program designed for developers who are interested in validating their skills and understanding of Apache Kafka. Confluent Certified Developer for Apache Kafka Certification Examination certification program is offered by Confluent, a leading data streaming platform that provides enterprise-grade solutions for managing and processing data in real-time. The CCDAK Certification program is designed

to measure a developer's proficiency in Kafka development and ensures that they have the necessary skills to build and maintain Kafka-based applications.

CCDAK Latest Exam Price | CCDAK Accurate Study Material

We have three versions of CCDAK guide materials available on our test platform, including PDF, Software and APP online. The most popular one is PDF version of our CCDAK exam questions and you can totally enjoy the convenience of this version, and this is mainly because there is a demo in it, therefore help you choose what kind of CCDAK Practice Test are suitable to you and make the right choice. Besides PDF version of CCDAK study materials can be printed into papers so that you are able to write some notes or highlight the emphasis.

Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q111-Q116):

NEW QUESTION # 111
Which of the following Kafka Streams operators are stateless? (select all that apply)

- A. aggregate
- B. branch
- C. groupBy
- D. flatmap
- E. map
- F. filter

Answer: B,C,D,E,F

Explanation:
Seehttps://kafka.apache.org/20/documentation/streams/developer-guide/dsl-api.html#stateless-transformations

NEW QUESTION # 112
A Zookeeper configuration has tickTime of 2000, initLimit of 20 and syncLimit of 5. What's the timeout value for followers to connect to Zookeeper?

- A. 20 sec
- B. 2000 ms
- C. 10 sec
- D. 40 sec

Answer: D

Explanation:
tick time is 2000 ms, and initLimit is the config taken into account when establishing a connection to Zookeeper, so the answer is 2000 * 20 = 40000 ms = 40s

NEW QUESTION # 113
In stream processing applications, handling out-of-order data can be a challenge which could affect the implemented business logic. Which type of Join handles out-of-order records?

- A. KTable-KStream
- B. KStream- KStream
- C. KTable-KTable
- D. KStream-GlobalKTable

Answer: B

NEW QUESTION # 114

You are experiencing low throughput from a Java producer.

Metrics show low I/O thread ratio and low I/O thread wait ratio.

What is the most likely cause of the slow producer performance?

- A. The producer is sending large batches of messages.
- B. The producer code has an expensive callback function.
- C. Compression is enabled.
- D. There is a bad data link layer (layer 2) connection from the producer to the cluster.

Answer: B

Explanation:

Low I/O thread activity with blocked throughput often indicates that producer callbacks are consuming too much time, causing the sender thread to block while waiting for onCompletion() to finish.

FromKafka Producer Performance Guide:

"Expensive logic in callbacks (e.g., I/O or complex computation) can block the sender thread, reducing throughput."

* Compression (A) may slightly impact CPU but not I/O thread usage.

* Large batches (B) improve throughput if managed correctly.

* A Layer 2 network issue (C) would lead to packet loss, not specifically low callback metrics.

Reference:Kafka Producer Metrics and Performance Tuning

NEW QUESTION # 115

In Avro, adding a field to a record without default is a ___ schema evolution

- A. forward
- B. backward
- C. breaking
- D. full

Answer: A

Explanation:

Clients with old schema will be able to read records saved with new schema.

NEW QUESTION # 116

......

We can tell you with confidence that the CCDAK practice materials are superior in all respects to similar products. First, users can have a free trial of CCDAK test prep, to help users better understand the CCDAK study guide. If the user discovers that the product is not appropriate for him, the user can choose another type of learning material. Respect the user's choice, will not impose the user must purchase the CCDAK practice materials. We can meet all the requirements of the user as much as possible, to help users better pass the qualifying CCDAK exam.
