So the FC0-U71 study tool can be reused after you have got the FC0-U71 certificate. You can donate it to your classmates or friends. They will thank you so much.

CompTIA Tech+ Certification Exam Sample Questions (Q13-Q18):

NEW QUESTION # 13

A user needs to transfer a 100GB data file to a coworker, but the network is down. Which of the following should the user most likely use instead?

- A. RAM
- **B. Flash drive**
- C. NAS
- D. Cloud

Answer: B

Explanation:

When the network is unavailable, portable storage like a flash drive (USB storage device) is suitable for transferring large files: "Flash drives provide portable storage solutions capable of handling large data files." NAS (network-attached storage) requires a functioning network. RAM is volatile memory not used for file transfer, and cloud storage requires internet connectivity.

NEW QUESTION # 14

A user receives a notification about a new software vulnerability. Which of the following is the best way to secure the software?

- **A. Applying updates**
- B. Configuring a firewall

- C. Enabling authentication
- D. Uninstalling the program

Answer: A

Explanation:

Applying updates (also called patching) is the most effective way to secure software after a vulnerability is discovered. Vendors typically release patches that fix security flaws. While firewalls and authentication add layers of protection, they do not directly fix vulnerabilities. Uninstalling the program may not be practical or necessary.

NEW QUESTION # 15

A computer is turned on, and a message states the system time is incorrect. Which of the following devices should be configured to resolve this message?

- A. Storage
- B. RAM
- C. CPU
- **D. BIOS**

Answer: D

NEW QUESTION # 16

Which of the following wireless technologies would most likely be used to make a purchase from a vending machine?

- A. 802.11X
- B. Bluetooth
- **C. NFC**
- D. SFP

Answer: C

NEW QUESTION # 17

A technician is reviewing log files to track the number of times that a specific user has logged on to the networks. Which of the following security concepts is being used?

- A. Authentication
- B. Authorization
- **C. Accounting**
- D. Non-repudiation

Answer: C

Explanation:

Accounting refers to the process of tracking user activities, such as logon attempts and resource access. Reviewing log files to count logins is a clear example of this concept.

Other options:

*Authentication verifies identity,

*Authorization controls access to resources,

*Non-repudiation ensures that actions cannot be denied.

NEW QUESTION # 18

.....

Generally speaking, preparing for the FC0-U71 exam is a very hard and even some suffering process. Because time is limited, sometimes we have to spare time to do other things to review the exam content, which makes the preparation process full of pressure and anxiety. But from the point of view of customers, our FC0-U71 Study Materials will not let you suffer from this. As
