

100% Pass-Rate 300-445 Practice Online offer you accurate Exam Pass4sure | Cisco Designing and Implementing Enterprise Network Assurance

P.S. Free & New 300-445 dumps are available on Google Drive shared by Actual4Exams: <https://drive.google.com/open?id=1thSgLNdijC7o1Ngc-I73HwxRmiQA5QYF>

With 300-445 test answers, you are not like the students who use other materials. As long as the syllabus has changed, they need to repurchase new learning materials. This not only wastes a lot of money, but also wastes a lot of time. Our industry experts are constantly adding new content to 300-445 test dumps based on constantly changing syllabus and industry development breakthroughs. All the language used in 300-445 Study Materials is very simple and easy to understand. With 300-445 test answers, you don't have to worry about that you don't understand the content of professional books. You also don't need to spend expensive tuition to go to tutoring class. 300-445 test dumps can help you solve all the problems in your study.

Cisco 300-445 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Data Analysis: This domain encompasses diagnosing network issues like packet loss, congestion, routing, and jitter, plus end-device problems. It includes analyzing web application performance and identifying security threats such as DDoS attacks, DNS hijacking, and BGP hijacking.
Topic 2	<ul style="list-style-type: none">• Insights and Alerts: This domain addresses configuring alert rules based on network conditions and end-user experience factors. It covers selecting metrics for stakeholders, validating alerts, and recommending network optimization for capacity planning.
Topic 3	<ul style="list-style-type: none">• Platforms and Architecture: This domain covers understanding monitoring agent types and placement, active versus passive monitoring, and ThousandEyes WAN Insights. It addresses Cisco platform integrations, metric baselines, and selecting appropriate integration methods and assurance platforms based on business requirements.

Topic 4	<ul style="list-style-type: none"> • Data Collection Implementation: This domain focuses on deploying enterprise and endpoint agents across infrastructure and end-user devices. It covers configuring network, DNS, voice, web, and endpoint tests using ThousandEyes and Meraki Insights, along with implementing synthetic web tests and authentication methods.

Exam 300-445 Pass4sure | 300-445 Valid Exam Review

Now, do you want to enjoy all these Cisco 300-445 Exam benefits? Looking for a simple and quick way to pass the Designing and Implementing Enterprise Network Assurance (300-445) exam? If your answer is yes then you do not need to worry about it. Just visit the "Actual4Exams" exam questions and download "Actual4Exams" exam questions and start preparation right now.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q69-Q74):

NEW QUESTION # 69

What is the primary objective of setting a metric baseline in network performance analysis?

- A. Collecting historical data
- **B. Establishing performance benchmarks**
- C. Defining alert thresholds
- D. Analyzing network traffic patterns

Answer: B

Explanation:

The primary objective of setting a metric baseline is to establish performance benchmarks for comparison and evaluation.

NEW QUESTION # 70

Which type of test are we using for these dashboards (Executive and IT Operations)?

- A. Agent to server
- B. FTP
- C. HTTP server
- **D. Page Load**

Answer: D

Explanation:

According to the Designing and Implementing Enterprise Network Assurance (300-445 ENNA) data analysis guidelines, identifying the underlying test type is the first step in interpreting a dashboard. By observing the metrics displayed across both the Executive and IT Operations dashboards, we can definitively identify the test type as Page Load (Option B).

A Page Load test is a Web-layer test that uses a browser engine (Chromium) to fully render a page and collect advanced metrics beyond simple availability. Evidence for this test type in the dashboards includes:

* **Page Completion Time:** Displayed on the Executive dashboard map, this metric is specific to how much of the page successfully rendered.

* **DOM Load Time:** Found in the IT Operations dashboard, the Document Object Model (DOM) time is a browser-centric metric that measures when the page structure has finished loading.

* **Waterfall Charts:** While not a specific answer option, these are the foundation of Page Load tests, allowing for the timing of individual web components.

Simple HTTP Server tests (Option A) only measure availability and response codes, missing the rendering metrics seen here. Agent to server (Option C) is a network-layer test that provides path visualization but no browser-level data. FTP (Option D) is a protocol-specific test not used for web application monitoring.

Therefore, the presence of DOM and Page Completion metrics confirms the Page Load test type.

NEW QUESTION # 71

Which alert rule configuration is commonly used to monitor VPN performance?

- A. Network latency
- B. Disk space usage
- C. CPU utilization
- **D. Tunnel uptime**

Answer: D

Explanation:

Tunnel uptime is commonly monitored using alert rules to assess VPN performance and detect potential VPN connection failures or disruptions.

NEW QUESTION # 72

Which RFC standardizes the concept of active monitoring in network assurance?

- A. RFC 7799
- B. RFC 7986
- C. RFC 791
- **D. RFC 7276**

Answer: D

Explanation:

RFC 7799 standardizes the framework for active monitoring, providing guidelines for real-time data collection and analysis.

NEW QUESTION # 73

What is the primary benefit of integrating Cisco technologies in network management?

- A. Increased hardware complexity
- **B. Centralized management tasks**
- C. Limited scalability options
- D. Reduced software compatibility

Answer: B

Explanation:

Integration of Cisco technologies centralizes management tasks, streamlining network operations and improving efficiency.

NEW QUESTION # 74

.....

As we all know, no pain, no gain. If you want to enter a better company, you must have the competitive force. 300-445 learning materials will offer you such opportunity to pass the exam and get the certificate successfully, so that you can improve your competitive force. Also, you need to spend certain time on practicing the 300-445 Exam Dumps, so that you can get the certificate at last. Besides, we pass guarantee and money back guarantee if you fail to pass the exam after buying 300-445 learning materials. We also offer you free update for one year, and the update version will be sent to your email automatically.
