Secure 100% Exam Results with CompTIA CV0-004 Practice Questions [2026]

It is easy for you to pass the exam because you only need 20-30 hours to learn and prepare for the exam. You may worry there is little time for you to learn the CV0-004 Study Tool and prepare the exam because you have spent your main time and energy on your most important thing such as the job and the learning and can't spare too much time to learn. But if you buy our CompTIA Cloud+ (CV0-004) Certification Exam test torrent you only need 1-2 hours to learn and prepare the exam and focus your main attention on your most important thing.

CompTIA Cloud+ (CV0-004) Certification Exam Sample Questions (Q127-Q132):

NEW QUESTION # 127

A company still has several dedicated servers and wants to migrate them to its private cloud. Which of the following migration methods would be BEST to accomplish this goal?

- A. Virtual-to-virtual
- B. Storage
- C. Physical-to-virtual
- D. Cloud-to-cloud

Answer: C

Explanation:

P2V migration is the process of migrating a physical server to a virtual machine (VM). This allows the company to keep the same state, data, applications, and system configuration as their physical servers, while benefitting from the flexibility and scalability of a virtual environment.

NEW QUESTION # 128

A developer sends multiple requests to a SaaS application in a short amount of time. The developer realizes that the entire server and all other users can no longer send requests to the application. Which of the following best describes the issue?

- A. Service quotas
- B. Regional service availability
- C. API rate limiting
- D. Full outage

Answer: C

Explanation:

API rate limiting is a mechanism used by SaaS applications to prevent abuse by limiting the number of requests that can be made to an API within a specified time frame. If the developer sent too many requests in a short period, the application may have triggered rate limiting, causing temporary blocks on further requests from the server or affecting all users if the limits were exceeded on a shared resource.

NEW QUESTION # 129

Which of the following application migration strategies will best suit a customer who wants to move a simple web application from an on-premises server to the cloud?

- A. Refactor
- B. Rearchitect
- C. Retain
- D. Rehost

Answer: D

Explanation:

Rehosting, often referred to as a "lift and shift" strategy, is the best suit for a customer who wants to move a simple web application from an on-premises server to the cloud. It involves moving the application to the cloud without making significant changes, which can be a quick and cost-effective migration approach for straightforward applications.

The various cloud migration strategies, including rehosting, are part of the knowledge base for cloud migration in the CompTIA Cloud+ certification.

NEW QUESTION # 130

Which of the following is used to detect signals and measure physical properties, such as the temperature of the human body?

- A. Sensors
- B. Gateways
- C. Beacon
- D. Transmission protocols

Answer: A

Explanation:

Sensors are used to detect signals and measure physical properties, such as temperature. They are devices that respond to a physical stimulus (like heat, light, sound, pressure, magnetism, or a particular motion) and transmit a resulting impulse for detection and measurement.

The use of sensors in cloud environments, particularly in IoT (Internet of Things) applications, is included in the technical domains of the CompTIA Cloud+ material.

NEW QUESTION # 131

The project manager must create a project charter. Which of the following should be included in the charter?

- A. Risk plan
- B. Resource allocation
- C. Project schedule
- **D. Stakeholder identification**

Answer: D

Explanation:

The project charter is a high-level authorization document that outlines the purpose, objectives, and identifies key stakeholders. It does not contain detailed schedules, risk management plans, or resource allocation -- those come later in the planning process.

NEW QUESTION # 132

.....

We provide the update freely of CV0-004 exam questions within one year and 50% discount benefits if buyers want to extend service warranty after one year.
