B: Blockchain and cryptocurrency management are not components of the BTM solution portfolio.

Therefore, the verified and correct answers as per SAP BTM documentation are:

### NEW QUESTION # 28

Which key solution of SAP Signavio helps in collaborative process mining?

- A. SAP Signavio Process Collaboration Hub
- B. SAP Signavio Process Manager
- C. SAP Signavio Value Accelerator
- D. SAP Signavio Process Intelligence

**Answer: D**

Explanation:

SAP Signavio Process Intelligence is the dedicated process mining and analysis component of the SAP Signavio Business Transformation Suite. It enables organizations to discover, analyze, and improve business processes collaboratively using real data.

"SAP Signavio Process Intelligence connects to system data, reconstructs end-to-end processes, and enables collaborative process mining and analysis to uncover inefficiencies and improvement opportunities." Reference:

The term collaborative process mining refers to enabling multiple stakeholders to analyze, discuss, and align process improvements based on shared process insights - a feature central to Process Intelligence.

"Process Intelligence integrates with the Process Collaboration Hub to allow joint analysis and process improvement discussions."

Option A (Collaboration Hub) is a supporting platform for sharing process models and insights, but it does not perform mining itself.

Option C (Process Manager) focuses on process modeling and design, not mining.

Therefore, the correct and verified answer based on SAP's BTM documentation and the official Signavio solution portfolio is B:

SAP Signavio Process Intelligence.

## NEW QUESTION # 29

What primary issue does WalkMe's solution aim to solve for customers?

- A. Challenges in adopting and effectively using digital tools
- B. Difficulty in maintaining accurate financial records

- D. Need for upgrading physical infrastructure in organizations

**Answer: A**

"WalkMe is designed to eliminate user friction with digital systems by providing contextual, in-application guidance and automation that accelerates digital adoption." Reference:

The main problem WalkMe solves is difficulty in adopting and effectively using digital tools, which directly impacts productivity, process efficiency, and transformation success.

"Organizations struggle with the complexity of modern applications; WalkMe's solution enables users to navigate and complete digital processes successfully without training dependency." Options B, C, and D do not represent the platform's focus:

WalkMe is not an HR solution to reduce turnover (B).
