

# DP-300 Hottest Certification & New DP-300 Test Test

2026 Latest TestPassed DP-300 PDF Dumps and DP-300 Exam Engine Free Share: <https://drive.google.com/open?id=1bZgAtQgVOtI8USE6jXVjJ3RTwnhRcntJ>

Our DP-300 learning question can provide you with a comprehensive service beyond your imagination. DP-300 exam guide has a first-class service team to provide you with 24-hour efficient online services. Our team includes industry experts & professional personnel and after-sales service personnel, etc. Industry experts hired by DP-300 exam guide helps you to formulate a perfect learning system, and to predict the direction of the exam, and make your learning easy and efficient. Our staff can help you solve the problems that DP-300 Test Prep has in the process of installation and download. They can provide remote online help whenever you need. And after-sales service staff will help you to solve all the questions arising after you purchase DP-300 learning question, any time you have any questions you can send an e-mail to consult them. All the help provided by DP-300 test prep is free. It is our happiest thing to solve the problem for you. Please feel free to contact us if you have any problems.

Our team regularly modified it to provide you with the real and updated DP-300 pdf exam questions every time. The applicants are informed of these new changes till three months after purchase from the TestPassed. The TestPassed gives its applicants a Microsoft DP-300 web-based practice test software that doesn't require installation. Microsoft DP-300 Practice Test is compatible with all operating systems, including iOS, Mac, and Windows. You can use this Microsoft DP-300 practice test on any browser on any device anywhere. You need to sign in to a verified account on our website to use the entire premium Microsoft DP-300 practice test questions.

## **2026 Microsoft DP-300: Administering Relational Databases on Microsoft Azure Hottest Certification**

Our company has spent more than 10 years on compiling DP-300 study materials for the exam in this field, and now we are delighted to be here to share our study materials with all of the candidates for the exam in this field. There are so many striking points of our DP-300 Preparation exam. If you just free download the demos of the DP-300 learning guide, then you can have a better understanding of our products. The demos are a little part of the exam questions and answers for you to check the quality and

validity.

## Microsoft Administering Relational Databases on Microsoft Azure Sample Questions (Q259-Q264):

### NEW QUESTION # 259

You have an Azure subscription.

You need to deploy an Azure SQL managed instance by using an Azure Resource Manager (ARM) template.

The solution must meet the following requirements:

The SQL managed instance must be assigned a unique identity.

The SQL managed instance must be available in the event of an Azure datacenter outage.

How should you complete the template? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation:

Explanation:

### NEW QUESTION # 260

Hotspot Question

You have an Azure Data Lake Storage Gen2 container.

Data is ingested into the container, and then transformed by a data integration application. The data is NOT modified after that.

Users can read files in the container but cannot modify the files.

You need to design a data archiving solution that meets the following requirements:

- New data is accessed frequently and must be available as quickly as possible.

- Data that is older than five years is accessed infrequently but must be available within one second when requested.

- Data that is older than seven years is NOT accessed. After seven years, the data must be persisted at the lowest cost possible.

- Costs must be minimized while maintaining the required availability.

How should you manage the data? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

#### Answer:

Explanation:

Explanation:

Box 1: Move to cool storage

The cool access tier has lower storage costs and higher access costs compared to hot storage.

This tier is intended for data that will remain in the cool tier for at least 30 days. Example usage scenarios for the cool access tier include:

Short-term backup and disaster recovery

Older data not used frequently but expected to be available immediately when accessed Large data sets that need to be stored cost effectively, while more data is being gathered for future processing Note: Hot -Optimized for storing data that is accessed frequently.

Cool -Optimized for storing data that is infrequently accessed and stored for at least 30 days. Archive -Optimized for storing data that is rarely accessed and stored for at least 180 days with flexible latency requirements, on the order of hours.

Box 2: Move to archive storage

Example usage scenarios for the archive access tier include:

Long-term backup, secondary backup, and archival datasets Original (raw) data that must be preserved, even after it has been processed into final usable form Compliance and archival data that needs to be stored for a long time and is hardly ever accessed

<https://docs.microsoft.com/en-us/azure/storage/blobs/storage-blob-storage-tiers>

### NEW QUESTION # 261

You have an Azure Synapse Analytics dedicated SQL pool named Pool1 and an Azure Data Lake Storage Gen2 account named Account1.

You plan to access the files in Account1 by using an external table.

You need to create a data source in Pool1 that you can reference when you create the external table.

How should you complete the Transact-SQL statement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

□ Explanation:

□ Box 1: blob

The following example creates an external data source for Azure Data Lake Gen2 CREATE EXTERNAL DATA SOURCE YellowTaxi WITH ( LOCATION = 'https://azureopendatastorage.blob.core.windows.net/nyctlc/yellow', TYPE = HADOOP) Box 2: HADOOP Reference:

<https://docs.microsoft.com/en-us/azure/synapse-analytics/sql/develop-tables-external-tables>

**NEW QUESTION # 262**

You have an Azure SQL database that contains a table named Employees. Employees contains a column named Salary.

You need to encrypt the Salary column. The solution must prevent database administrators from reading the data in the Salary column and must provide the most secure encryption.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

□ 1 - Create a column master key

□ 2 - Create a column encryption key.

□ 3 - Encrypt the Salary column by using the randomized encryption type.

Reference:

<https://docs.microsoft.com/en-us/sql/relational-databases/security/encryption/always-encrypted-database-engine>

**NEW QUESTION # 263**

You have an Azure subscription that contains an Azure SQL managed instance, a database named db1, and an Azure web app named App1. App1 uses db1.

You need to enable Resource Governor for a App1. The solution must meet the following requirements:

App1 must be able to consume all available CPU resources.

App1 must have at least half of the available CPU resources always available.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

**Answer:**

Explanation:

□ 1 - Create a resource pool that has the following configurations. MAX\_CPU\_PERCENT = 100 MINCPU\_PERCENT = 100

□ 2 - Create a workload group.

□ 3 - Create a classifier function in the master database.

**NEW QUESTION # 264**

.....

Unlike many other learning materials, our Administering Relational Databases on Microsoft Azure guide torrent is specially designed to help people pass the exam in a more productive and time-saving way. On the other hand, DP-300 exam study materials are aimed to help users make best use of their sporadic time by adopting flexible and safe study access. People always tend to neglect
