## 최신 Adobe Experience Manager AD0-E137 무료 샘플문제 (Q39-Q44):

### 질문 # 39

What is the role of the "Retry Delay" setting in an AEM replication agent's configuration?

- A. It defines how often replication failures will be retried.
- B. It manages the interval at which the replication queue is processed.
- C. It controls the delay between each replication trigger.
- D. It specifies how long to wait before marking a replication job as failed.

정답: A

### 질문 # 40

A developer is adding a reference script to a third-party analytics tool. The script needs to be editable since it is being modified on a schedule outside of the team's development cycle.

How should the developer complete this task?

- A. Add a Generic Analytics Snippet.
- B. Add a new component with the script in the HTL.
- C. Add the script to the page policy on the template.

정답: A

### 질문 # 41

A university wants to roll out content updates to all the schools affiliated with it. The individual schools have configured their respective homepages with a space allocated to display updated university information. The rest of the homepage is dedicated to school-specific information.

What is the recommended approach to roll out university updates on all the schools' homepages?

- A. Mark the "Partial" option on the roll out screen
- B. Restore inheritance for certain components on the school homepage
- C. Implement custom logic for page roll out action
- D. Roll out of Experience Fragment

정답: A

### 질문 # 42

A developer is working on an Adobe Experience Manager project that uses a multi-module maven build. A new module was just added to the project. When the following build command is executed, the new module is not installed:

```
mvn clean install -PautoInstallSinglePackage
```

What should the developer verify to ensure the package is being included as part of the installation process?

- A. Verify the module is included in the Embed-Dependency section of the maven-bundle-plugin in the ui.content module.
- B. Verify the module is included in the Embed-Dependency section of the maven-bundle-plugin in the all module.
- C. Verify the module is included in the embeddeds section of the filevault-package-maven-plugin in the all module.

정답: C

### 질문 # 43

A developer is creating a dialog for a component, which has a checkbox field. After saving the component configuration, the developer noticed that the checkbox value is stored as a String type in JCR.

What should be done to store the checkbox value as a Boolean type in JCR?

- A. Implement JCR Event Listener to change field type afterwards
- B. Add TypeHint field to the dialog
- C. Use Switch instead of Checkbox
