Salesforce Certified Sharing and Visibility Architect Sample Questions (Q64-Q69):

NEW QUESTION # 64

Universal Containers uses the Case object to track service tickets. They have implemented Case teams to allow multiple support representatives to manage the Cases. Which two "Filter by owner" options would the user see while creating a list view on the Case object? Choose 2 answers

- A. My Case Teams
- B. Roles
- C. Public Groups
- D. Queue

Answer: A,D

NEW QUESTION # 65

Universal Containers (UC) is implementing Sales Cloud. During the final quarter of the financial year, sales managers help each other close deals. They requested a solution in Salesforce to allow them to share opportunities with other sales managers from different teams as needed. They also requested that sharing deals should expire automatically two weeks after the new fiscal year starts. Which two options to propose a solution to meet the requirements? Choose 2 answers

- A. Apex Sharing to share opportunities with sales managers.
- B. Sharing Rules to share opportunities with sales managers.
- C. Opportunity team to share opportunities with sales managers.
- D. Scheduled Apex job to remove access.

Answer: C,D

Explanation:

Explanation

The two options to propose a solution to meet the requirements are Scheduled Apex job to remove access and Opportunity team to share opportunities with sales managers. Scheduled Apex job allows developers to run Apex code at a specified time, which can be used to revoke the sharing access after two weeks. Opportunity team allows users to grant access to other users who work on the same opportunity¹. Apex Sharing and Sharing Rules are not suitable options because they do not support automatic expiration of sharing.

NEW QUESTION # 66

Who can view a PDF that is uploaded to the Files Home private library by 8 user?

- A. The user and users with View All Data permission.
- B. The user and users above him/her in the Role Hierarchy.
- C. Only the user.

Answer: C

NEW QUESTION # 67

A custom ServiceFeedback object is used to collect partner feedback. ServiceFeedback records should be available to all internal employees. The organization-wide default (OWD) is set to Private for external users so partners cannot see feedback from other partner users. How should the architect give access to all internal employees?

- **A. Set the OWD for Internal Users to Public Read-Only.**
- B. Create an owner based sharing rule for all Service Feedback records owned by partners.
- C. Ensure all the internal users are above the partners in the Role Hierarchy.

Answer: A

Explanation:

* OWD Settings: Salesforce allows setting different Organization-Wide Defaults (OWD) for internal and external users. By setting the OWD for internal users to Public Read-Only, all internal employees can view ServiceFeedback records without impacting the private access settings for external users (partners).

* Why Option C is Correct:

* Internal users gain universal read-only access to ServiceFeedback records.

* External users (partners) remain restricted based on their existing access because the OWD for external users is set to Private.

* Why Others Are Incorrect:

* Option A: Owner-based sharing rules are unnecessary when internal OWD settings can accomplish the goal more efficiently.

* Option B: Adjusting the Role Hierarchy would complicate the structure unnecessarily and may still not provide the desired access to all internal users.

For detailed reference, see Salesforce OWD and Sharing Settings documentation: <https://help.salesforce.com/>

NEW QUESTION # 68

A banking company uses a VIP Flag in the Contact Object that they want only Private Banking Reps to see. Which approach is recommended to meet this requirement?

- **A. Set the Field Level Security for the VIP Flag field so that it is visible to Private Banking Rep Profile.**
- B. Change the type of VIP Flag field to a picklist, define a new record type for the Contact Object and make the picklist field available for Editing.
- C. Define a page layout for Contact Object and add the VIP Flag field for that layout. Remove the VIP Flag field from other layouts.

Answer: A
