Test ServiceNow CIS-Discovery Assessment | Valid CIS-Discovery Real Test
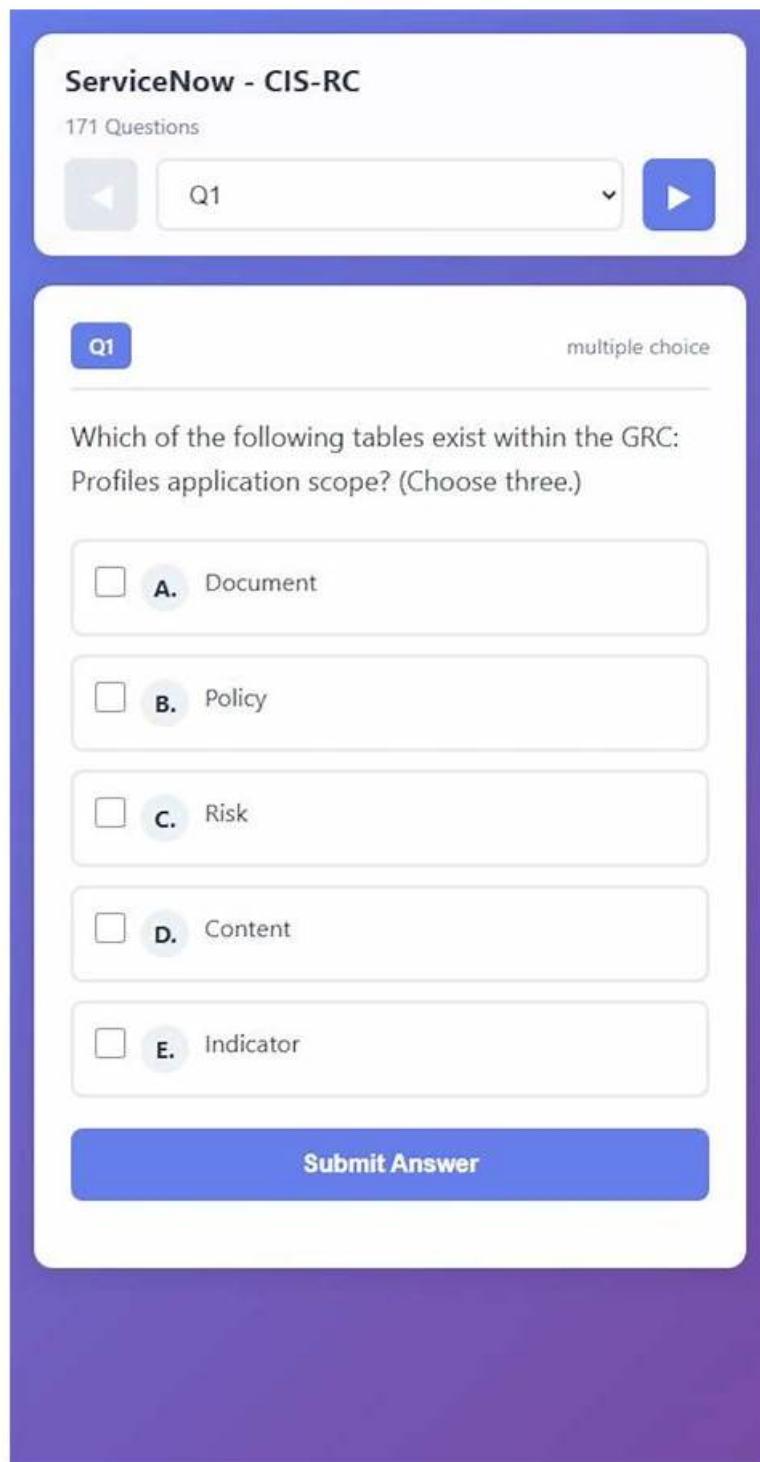

What's more, part of that Prep4sures CIS-Discovery dumps now are free: https://drive.google.com/open?id=1RhUngsalcfOcp49ya1ZQi1r87JKQFNA-

Our CIS-Discovery practice exam simulator mirrors the CIS-Discovery exam experience, so you know what to anticipate on CIS-Discovery exam day. Our ServiceNow CIS-Discovery features various question styles and levels, so you can customize your CIS-Discovery exam questions preparation to meet your needs.

Our Prep4sures have a huge IT elite team. They will accurately and quickly provide you with ServiceNow certification CIS-

Discovery exam materials and timely update ServiceNow CIS-Discovery exam certification exam practice questions and answers and binding. Besides, Prep4sures also got a high reputation in many certification industry. The the probability of passing ServiceNow Certification CIS-Discovery Exam is very small, but the reliability of Prep4sures can guarantee you to pass the examination of this probability.

Valid CIS-Discovery Real Test & CIS-Discovery Answers Free

Our ServiceNow CIS-Discovery practice exam simulator mirrors the ServiceNow CIS-Discovery exam experience, so you know what to anticipate on Certified Implementation Specialist - Discovery day. Our ServiceNow CIS-Discovery practice test software features various question styles and levels, so you can customize your ServiceNow CIS-Discovery Exam Questions preparation to meet your needs.

ServiceNow Certified Implementation Specialist - Discovery Sample Questions (Q49-Q54):

NEW QUESTION # 49
Identification process is the process of _____ .
Response:

- A. identifying specific devices without IPs
- B. linking a unique identifier to a matching service
- C. identifying the operating system type (Windows, Linux,...) on server CIs that is present in the CMDB
- D. uniquely identifying CIs to determine if it is a newly discovered CI or if it already exists in the CMDB

Answer: D

NEW QUESTION # 50
Which choice represents the three best ways of extending Discovery?

- A. Orchestration, Classifiers, Discovery Patterns
- B. Classifiers, Probes & Sensors, Discovery Patterns
- C. Orchestration, Classifiers, Probes & Sensors
- D. Classifiers, Fingerprinting, Probes & Sensors
- E. Fingerprinting, Classifiers, Discovery Patterns

Answer: B

Explanation:
ServiceNow Discovery can be extended in three main ways: Classifiers, Probes & Sensors, and Discovery Patterns. Classifiers are used to identify the type of device or application that is being discovered, based on the information returned by a probe. Probes are commands or scripts that are executed on the target device or application to collect data. Sensors are scripts that process the data collected by probes and create or update configuration items (CIs) in the CMDB. Discovery Patterns are graphical representations of the discovery process that can be customized or created to discover specific types of devices or applications, using classifiers, probes, and sensors as building blocks.

NEW QUESTION # 51
Which of the following choices would be best practice when designing steps with operations requiring variables?
Response:

- A. Create more variables than required.
- B. Design for a static environment.

- C. Query targets for variables.
- D. Use hard coded variables.

Answer: C

NEW QUESTION # 52
Which of the following describes the recommended permission level for credentials to discover Windows Servers?

- A. A domain administrator with sudo access
- B. A standard domain user with read access
- C. A userr00t access across the domain
- D. A domain user with local administrator access

Answer: D

Explanation:
For discovering Windows Servers, ServiceNow Discovery recommends using credentials that have a domain user account with local administrator access on the target servers. This level of access ensures that Discovery can successfully execute the necessary probes and sensors to collect comprehensive data about the server without being restricted by permission limitations. The other options either provide excessive permissions (like a domain administrator with sudo access) or insufficient privileges (like a standard domain user with read access).

NEW QUESTION # 53
Which of the below statements are true while troubleshooting Discovery.
Response:

- A. permission issue: Mideserver Credentils
- B. Connectivity Issues: Logical and physical firewalls
- C. Probes: Information not returned as expected
- D. Sensors: Information returned but not displayed correctly
- E. None of the above

Answer: A,B,C,D

NEW QUESTION # 54
......

Our CIS-Discovery study materials are easy to be mastered and boost varied functions. We compile Our CIS-Discovery preparation questions elaborately and provide the wonderful service to you thus you can get a good learning and preparation for the CIS-Discovery Exam. After you know the characteristics and functions of our CIS-Discovery training materials in detail, you will definitely love our exam dumps and enjoy the wonderful study experience.
