You will face plenty of options in your whole lives. Sometimes, you must decisively abandon some trivial things, and then you can harvest happiness and fortunes. Now, our HCL-DOM-AADM-12 guide materials just need to cost you less spare time, then you will acquire useful skills which may help you solve a lot of the difficulties in your job. Besides, our HCL-DOM-AADM-12 Exam Questions will help you pass the exam and get the certification for sure.

## **HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q65-Q70):**

### **NEW QUESTION # 65**

What happens when an administrator uses the Domino Administrator Client to register a new user?

- A. An LDAP record is created in the Domino Directory
- B. Only an internet password is generated

- C. A Person document and Notes ID file are created
- D. Only a mail file is created

**Answer: C**

Explanation:

The registration process automates the creation of the user's digital identity in the Domino domain. This includes adding a Person document to the Domino Directory (names.nsf) to store the user's configuration and public key, and generating a Notes ID file, which is the secure file containing the user's private key used for authentication.

---

#### NEW QUESTION # 66

What is the default directory where Domino stores its data files after installation on a Windows system?

- A. \DominoServer\Files
- B. \Domino\Data
- C. \Program Files (x86)\HCL\Domino\Data
- D. \Lotus\Data

**Answer: C**

Explanation:

While administrators can customize paths during setup, the standard default installation path for HCL Domino on Windows (historically 32-bit versions or within the compatibility folder) is C:\Program Files (x86)\HCL\Domino\Data. This directory contains the Domino Directory (names.nsf), configuration files, and all user mail and application databases.

Here is the next batch of questions (61-70) based on your provided list, strictly following your requested formatting and verified for the HCL-DOM-AADM-12 exam.

#### NEW QUESTION # 67

Which two actions can be initiated via the AdminP interface? (Choose two)

- A. Enable Smart Upgrade policies
- B. Rename a user across replicas
- C. Convert Notes documents to PDF
- D. Move mail file to a new server

**Answer: B,D**

Explanation:

AdminP is designed to automate complex, multi-server tasks. Renaming a user is a primary function, as it requires updating the Directory, ACLs, and Reader/Author fields across the entire domain. Moving a mail file to a new server is another key function; AdminP automates the creation of the new replica, the synchronization of data, and the eventual deletion of the old mail file, while simultaneously updating the user's Person document to point to the new location.

---

#### NEW QUESTION # 68

During server configuration, the administrator must specify the \_\_\_\_\_ which uniquely identifies the Domino server within the domain.

- A. Server ID
- B. Server URL
- C. DNS Hostname
- D. IP Address

**Answer: A**

Explanation:

While a server has many identifiers (like an IP or Hostname), the Server ID is the unique security file that defines the server's identity within the Domino domain. This file contains the server's private key and is created during the registration process. The Server ID allows the server to authenticate with other servers and clients, ensuring it is a trusted member of the hierarchical organization.

---

#### NEW QUESTION # 69

What is the primary benefit of using an ID Vault in a Domino environment?

- A. Enabling offline password resets without admin access
- **B. Centralizing user ID file storage for recovery and synchronization**
- C. Hosting Notes clients via browser
- D. Limiting internet password access

**Answer: B**

Explanation:

The ID Vault is a server-side application that provides centralized user ID file storage . This setup is critical for recovery and synchronization ; if a user loses their ID file or forgets their password, the administrator can easily reset it from the vault. Furthermore, it automatically synchronizes ID changes (like password updates) across multiple devices used by the same person, ensuring they always have the most current version of their credentials.

---

#### NEW QUESTION # 70

.....

If the user fails in the HCL-DOM-AADM-12 exam questions for any reason, we will refund the money after this process. In addition, we provide free updates to users for one year long.
