Exam Questions For Oracle 1Z0-1126-1 [Revised] - The Best Method To Pass The Exam

The 1Z0-1126-1 study materials from our company are compiled by a lot of excellent experts and professors in the field. In order to help all customers pass the exam in a short time, these excellent experts and professors tried their best to design the study version, which is very convenient for a lot of people who are preparing for the 1Z0-1126-1 Exam. You can find all the study materials about the exam by the study version from our company.

Oracle 1Z0-1126-1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Project Phase 3: Enable: This phase focuses on finalizing resources, documentation, and deadlines for implementation sign-off. Deploying content to production is a crucial step, marking the transition from testing to live usage. Go-live support and hypercare processes are put in place to ensure a smooth transition, providing immediate assistance and troubleshooting to address any issues. This stage ensures that the OGL deployment is stable and fully functional, ready to deliver value to the organization.
Topic 2	<ul style="list-style-type: none">Project Phase 2: Refine: At this stage, organizations refine their project scope, estimate timelines, and ensure alignment with strategic objectives. Selecting appropriate OGL content from libraries helps tailor learning materials to organizational needs. Deployment considerations, including defining the environment, test users, and data requirements, ensure a robust testing phase before full implementation. The process of building, testing, and customizing OGL content is refined to optimize effectiveness. Planning for optional activities, such as activation and role conditions or display groups, ensures flexibility and adaptability in deployment.
Topic 3	<ul style="list-style-type: none">Introduction to OGL Content: OGL plays a crucial role in enabling organizations to efficiently manage learning content, ensuring seamless deployment and accessibility. It provides a structured framework for organizing, delivering, and tracking learning materials to enhance workforce skills. The OGL Deployment approach outlines a structured implementation process that organizations follow to integrate OGL within their systems. Organizations nest within this deployment approach by aligning their training objectives, resources, and processes with OGL's capabilities, ensuring a smooth adoption and effective utilization of learning content.
Topic 4	<ul style="list-style-type: none">Continuous Improvement: Mature: Ongoing refinement is essential for maintaining the effectiveness of OGL content. Organizations plan for quarterly updates, refreshes, and necessary changes to keep learning materials relevant and up to date. Reviewing OGL analytics provides valuable insights into content performance, enabling continuous optimization and improvement. This phase ensures that the learning framework remains dynamic and aligned with evolving business needs, maximizing the long-term impact of OGL deployment.
Topic 5	<ul style="list-style-type: none">Project Phase 1: Focus: This phase involves defining the OGL project plan, including governance structures that oversee implementation and ensure alignment with business objectives. OGL training, learning paths, and business processes play a vital role in equipping users with the necessary skills and knowledge for efficient adoption. Identifying essential resources, including key team members, lays the foundation for a successful rollout. OGL Cloud Service activation is a critical step, allowing organizations to manage users within the OGL console, ensuring secure and streamlined access. Proper documentation is essential for content building, testing, and customization, forming the basis for a structured and scalable deployment.

Oracle Guided Learning Project Management Foundations Associate - Rel 1 Sample Questions (Q31-Q36):

NEW QUESTION # 31

What can information from the Application dashboard be used for?

- A. Show decision-makers' feedback from end users.
- B. Identify high-usage days to launch messages.
- C. Deliver a full picture on the types of content.

Answer: B

Explanation:

The Application dashboard in OGL provides data on application usage patterns, such as peak times or high-traffic days, which can be leveraged to strategically launch messages or notifications when users are most active (option A). This timing optimization enhances visibility and engagement. Option B (types of content) aligns with the Content dashboard, not Application, while option C (feedback) pertains to the Feedback dashboard. The Application dashboard's focus on usage trends rather than content specifics or feedback makes it a tactical tool for communication planning, ensuring messages reach users at optimal moments based on their

interaction habits.

NEW QUESTION # 32

What does Oracle Business Process Training help your team accomplish?

- A. Refine your business processes, mature your team's performance, and enable your team with best practices for developing OGL content.
- B. Align with a common framework, accelerate project planning, and understand the interdependencies between processes and data
- C. Monitor feedback from end users, refine your processes, advance your team's charter, and align sponsors and stakeholders

Answer: A

Explanation:

Oracle Business Process Training refines processes, matures team performance, and provides best practices for OGL content development, aligning with its educational goals. Options A and C focus on unrelated or broader objectives.

NEW QUESTION # 33

Which documents help you identify, evaluate, and prioritize operational impacts and business process changes?

- A. Business process documentation and Business Impact Analysis
- B. OGL User Guide and knowledge articles
- C. Change management strategies and plans
- D. Fusion seeded security roles documents

Answer: A

Explanation:

Business process documentation and Business Impact Analysis identify and evaluate operational impacts and process changes. Other options provide support or security details, not impact analysis.

NEW QUESTION # 34

Which resource needs to be knowledgeable about how to build and test OGL content items?

- A. Project Managers
- B. OGL Administrators
- C. OGL Content Developers

Answer: C

Explanation:

OGL Content Developers are the resources tasked with building and testing OGL content items, requiring deep knowledge of content creation tools, guide construction, and testing protocols (option C). Project Managers (option A) oversee planning and coordination, not hands-on content work, while OGL Administrators (option B) manage console setup and permissions, not content development. Developers' expertise ensures guides are functional, accurate, and user-ready, making them the technical backbone of content production. Their role involves using the Content Editor, applying best practices, and validating functionality, distinguishing them from other resources in this specialized task.

NEW QUESTION # 35

Which phase includes publishing new and updated OGL content activities?

- A. Update
- B. Publish
- C. Prepare
- D. Test

Answer: B

Explanation:

The Publish phase is dedicated to publishing new and updated OGL content (option D), making it available in production after testing and updates. Test (option A) validates content, Prepare (option B) plans for changes, and Update (option C) modifies content—none involve deployment. Publish finalizes the cycle, ensuring users access the latest, approved guides, marking the culmination of prior efforts.

NEW QUESTION # 36
