Salesforce Process Automation Accredited Professional Sample Questions (Q106-Q111):

NEW QUESTION # 106

Which of the following three statements are correct regarding Flow interviews?

- A. Users can use browser's Back or Forward buttons to navigate through a flow
- **B. Only those flow interviews can be deactivated that have been paused at least once.**
- C. A flow interview always runs in a single instance of a flow.
- D. A single flow can have up to 50 different versions.
- E. Any flow interviews that are not in use should be deleted so that user's pending list includes only interviews that they ..

Answer: B

NEW QUESTION # 107

The system needs to automatically mention the record owner in the record feed whenever an Opportunity record is Closed-Won. How can an Administrator accomplish this using Flow?

- A. By using the Assignment Element and setting the value to the record owner.
- B. By creating a temporary shadow record with system account as the owner and copying the lead item to original record.
- C. By creating two flow directives, one for the record and another one for the feed item.
- **D. By entering @[reference] in the input Message parameter, where reference is the ID for the record owner.**

Answer: D

NEW QUESTION # 108

Which of the following should be used to branch a flow?

- A. If Else condition
- **B. Decision Element**
- C. Branching Element
- D. If condition

Answer: B

Explanation:

To branch a flow, the Decision Element (B) should be used. The Decision Element allows for defining multiple outcomes based on specified conditions, directing the flow down different paths based on the data processed. This is essential for creating dynamic flows that can adapt to varying business logic. Reference: Salesforce Help Documentation on Flow Elements

NEW QUESTION # 109

Which three actions can a business analyst take with a process action?

- A. Import field values from another record and merge them with the record that started the process
- **B. Create and update the records that started the process or any related record.**
- **C. Submit the record for approval.**
- **D. Send email and/or Post to Chatter.**
- E. Export up to 3 resources that are currently being used in the flow* or process.

Answer: B,C,D

Explanation:

A business analyst can take the following actions with a process action: A) Submit the record for approval, B) Send email and/or post to Chatter, and D) Create and update the records that started the process or any related record. These actions enable automating business processes such as approvals, communications, and data management directly within the Salesforce platform. Reference: Salesforce Help Documentation on Process Builder Actions.

NEW QUESTION # 110

What should be avoided within the loop when working with flows?
