Valid H19-301_V4.0 Exam Pattern, Latest H19-301_V4.0 Exam Notes

BONUS!!! Download part of GetValidTest H19-301_V4.0 dumps for free: https://drive.google.com/open?id=1FzwkvoaCqsRg-TsqM9nrFbHiAQ4VxmuA

We know that the standard for most workers become higher and higher; so we also set higher goal on our H19-301_V4.0 guide questions. Our training materials put customers' interests in front of other points, committing us to the advanced H19-301_V4.0 learning materials all along. Until now, we have simplified the most complicated H19-301_V4.0 Guide questions and designed a straightforward operation system, with the natural and seamless user interfaces of H19-301_V4.0 exam question grown to be more fluent, we assure that our practice materials provide you a total ease of use.

It is universally accepted that the competition in the labor market has become more and more competitive in the past years. In order to gain some competitive advantages, a growing number of people have tried their best to pass the H19-301_V4.0 exam. Because a lot of people hope to get the certification by the related exam, now many leaders of companies prefer to the candidates who have the H19-301_V4.0 Certification. In their opinions, the certification is a best reflection of the candidates' work ability, so more and more leaders of companies start to pay more attention to the H19-301_V4.0 certification of these candidates.

Latest H19-301_V4.0 Exam Notes - Questions H19-301_V4.0 Exam

According to the different demands from customers, the experts and professors designed three different versions for all customers. According to your need, you can choose the most suitable version of our HCSA-Presales-IP Network V4.0 guide torrent for yourself. The three different versions have different functions. If you decide to buy our H19-301_V4.0 Test Guide, the online

workers of our company will introduce the different function to you. You will have a deep understanding of the three versions of our H19-301_V4.0 exam questions. We believe that you will like our products.

Huawei HCSA-Presales-IP Network V4.0 Sample Questions (Q73-Q78):

NEW QUESTION # 73
Which of the following physical connections is not a component of a data center network?

- A. Access switch
- B. Core/Aggregation switch
- C. Optical fiber
- D. Server

Answer: D

Explanation:
In a data center network, the physical connection components typically include:
Access switches (connect to servers)
Core/Aggregation switches (form the backbone of the network)
Optical fibers (used for high-speed physical links between switches)
While servers are connected to the network, they are not considered part of the network's physical infrastructure (connection components)- they are endpoints or resources hosted on the network, not components of the physical connection infrastructure.

NEW QUESTION # 74
Which of the following are among the six comprehensive border security protection capabilities? (Select all that Apply)

- A. Application-level ACL
- B. Antivirus
- C. Data encryption
- D. IPS
- E. Remote URL filtering
- F. Built-in firewall

Answer: A,B,D,E,F

Explanation:
Huawei's six comprehensive border security protection capabilities for SD-WAN or converged gateway routers typically include:
Built-in Firewall - Provides basic packet filtering and security zoning.
Remote URL Filtering - Uses cloud-based services to filter harmful websites.
Antivirus - Detects and blocks malicious files.
IPS (Intrusion Prevention System) - Detects and blocks known threats and attack signatures.
Application-level ACL - Allows granular control of applications beyond Layer 4 (e.g., blocking TikTok, WhatsApp, etc.).
Data leakage prevention (DLP) and behavioral analytics may also be included depending on the security license.
However, "Data encryption" is a broader category not specifically named among the six security protection items in Huawei's SD-WAN documentation. Encryption (e.g., IPsec VPN) is used for secure tunnels but is not listed as one of the six application-layer protections.

NEW QUESTION # 75
What are the characteristics of Segment Routing?

- A. It introduces the source routing mechanism conforming to SDN.
- B. Its deployment is dependent on the controller.
- C. Its deployment is dependent on LDP and RSVP.

- D. It reduces the number of protocols and extends IGP/BGP to support label distribution without depending on LDP or RSVP.

Answer: A,D

Explanation:
Segment Routing (SR) introduces a source routing model where the source node defines the path that packets take through the network by imposing a list of segments (instructions).
SR is aligned with SDN principles - the network is programmable and flexible.
SR does NOT depend on LDP or RSVP. Instead, SR uses extensions to IGP (OSPF or IS-IS) or BGP to distribute segment information.
SR simplifies the control plane by reducing the number of protocols needed for label distribution.
SR can work with or without a controller - the controller enhances path computation but is not mandatory for basic SR operation.

NEW QUESTION # 76
Which of the following active-active architectures is supported by Huawei CloudEngine S8700 to achieve 50 ms fault failover and ensure uninterrupted services during device upgrade?

- A. Stack
- B. M-LAG
- C. VRRP
- D. Cluster

Answer: D

Explanation:
TheHuawei CloudEngine S8700series supportscluster-based active-active architecture, offering:
50 ms-level failover
Hot patching and ISSU (In-Service Software Upgrade)
Service continuity during upgrade and fault scenarios
UnlikeVRRP, which is used for gateway redundancy, orM-LAGandstack, which are link or port-level mechanisms,the cluster solution provides full-device-level failover and operational continuity.

NEW QUESTION # 77
WLAN is a wireless local area network constructed using wireless technologies, including Wi-Fi, infrared, Bluetooth, and ZigBee.

- A. True
- B. False

Answer: B

Explanation:
WLAN (Wireless Local Area Network)specifically refers towireless networks based on the IEEE 802.11 standards, which arecommonly known as Wi-Fi. Whileinfrared, Bluetooth, and ZigBeeare also wireless technologies,they are not part of WLAN:
Wi-Fi (802.11)= WLAN
Bluetooth, ZigBee, Infrared= PAN or IoT technologies, not WLAN
Thus, grouping all these under WLAN isincorrect, making the correct answerFalse.
