- A. The reservation is deleted as a result of the goods issue
- B. Actual costs are allocated to the production order.
- C. The goods issue can be posted as a backflush.
- D. The goods issue can only be a planned goods issue.

Answer: B,C

Explanation:
Explanation
A goods issue posting to a production order allocates actual costs to the production order and reduces the inventory of the issued materials. A goods issue can be posted as a backflush, which means that the system automatically issues the components that are required for production based on the bill of material (BOM) and the quantity produced.
