Test SPLK-1003 Questions Pdf - SPLK-1003 Practice Exam Fee

At the moment when you decided to choose our SPLK-1003 real dumps, we feel the responsibility to be with you during your journey to prepare for the SPLK-1003 exam. So we clearly understand our duty to offer help in this area. Not only do the SPLK-1003 practice materials perfect but we have considerate company that is willing to offer help 24/7. If you have any question, you can just contact our online service, they will give you the most professional advice on our SPLK-1003 Exam Guide.

Splunk Enterprise Certified Admin Sample Questions (Q35-Q40):

NEW QUESTION # 35

What is the correct order of index time precedence?

(For each of the following, highest precedence is shown at the top and lowest precedence is shown at the bottom)

A.
```
.../etc/users/local
.../etc/system/local
.../etc/apps/aaa/local
.../etc/apps/zzz/default
.../etc/system/default
```

B.
```
.../etc/users/local
.../etc/system/default
.../etc/apps/aaa/local
.../etc/apps/zzz/default
.../etc/system/local
```

C.
```
.../etc/system/local
.../etc/apps/aaa/local
.../etc/apps/zzz/default
.../etc/system/default
```

D.
```
.../etc/system/default
.../etc/apps/aaa/local
.../etc/apps/zzz/default
.../etc/system/local
```

Answer: B

Explanation:

Splunk uses a layered configuration model where settings are loaded in a specific order. This order determines which configuration takes precedence when multiple settings conflict. At index time (the point when data is parsed and indexed), the configuration precedence is clearly defined in the official documentation.

From Splunk Docs (props.conf precedence):

Configuration file resolution order (highest to lowest precedence):

* $SPLUNK_HOME/etc/users/<username>/<appname>/local
* $SPLUNK_HOME/etc/apps/<appname>/local
* $SPLUNK_HOME/etc/apps/<appname>/default
* $SPLUNK_HOME/etc/system/local
* $SPLUNK_HOME/etc/system/default

However, for index-time configurations, a slight difference applies:

system/local and users/local are often treated specially, but in practice and according to Splunk Docs, the system /local configs override apps/default, and so on.

In Option C, the correct precedence from highest to lowest is:

/etc/users/local (Highest)

/etc/system/default

/etc/apps/aaa/local

/etc/apps/zzz/default

/etc/system/local (Lowest of these listed)

Though system/local typically has high precedence, when users/local is involved, that is the ultimate override.

Splunk Docs confirms this in:

* Configuration file precedence

* Configuration layering reference
Therefore, Option C reflects the correct Splunk configuration file precedence order at index time.

NEW QUESTION # 36
In which Splunk configuration is the SEDCMD used?

- A. props, conf
- B. inputs.conf
- C. transforms.conf
- D. indexes.conf

Answer: A

Explanation:
https://docs.splunk.com/Documentation/Splunk/8.0.5/Forwarding/Forwarddatatothird-partysystemsd

NEW QUESTION # 37
What are the values for host and index for [stanza1] used by Splunk during index time, given the following configuration files?

```
SPLUNK HOME/etc/system/local/inputs.conf:
 [stanza1]
host=server1

SPLUNK HOME/etc/apps/search/local/inputs.conf:
 [stanza1]
host=searchsvr1
index=searchinfo

SPLUNK HOME/etc/apps/search/local/inputs.conf:
 [stanza1]
host=unixsvr1
index=unixinfo
```

- A. host=unixsvr1
  index=unixinfo
- B. host=server1
  index=searchinfo
- C. host=server1
  index=unixinfo
- D. host=searchsvr1
  index=searchinfo

Answer: C

Explanation:
Explanation
- etc/system/local/ has better precedence at index time - for identical settings in the same file, the last one overwrite others, see
:https://community.splunk.com/t5/Getting-Data-In/What-is-the-precedence-for-identical-stanzas-within-a-single/

NEW QUESTION # 38
For single line event sourcetypes. it is most efficient to set SHOULD_linemerge to what value?

- A. <regex string>
- B. True
- C. False
- D. Newline Character

Answer: C

Explanation:
https://docs.splunk.com/Documentation/Splunk/latest/Data/Configureeventlinebreaking Attribute : SHOULD_LINEMERGE =

[true|false] Description : When set to true, the Splunk platform combines several input lines into a single event, with configuration based on the settings described in the next section.

NEW QUESTION # 39

When are knowledge bundles distributed to search peers?

- A. When adding a new search peer.
- B. After a user logs in.
- C. When Splunk is restarted.
- D. When a distributed search is initiated.

Answer: D

NEW QUESTION # 40

......

In recent years, some changes are taking place in this line about the new points are being constantly tested in the SPLK-1003 real exam. So our experts highlights the new type of questions and add updates into the SPLK-1003 practice materials, and look for shifts closely when them take place. At the same time, as we can see that the electronic devices are changing our life day by day, our SPLK-1003 study questions are also developed to apply all kinds of eletronic devices.
