Cisco 300-610 Web-Based Practice Test Questions

We know deeply that a reliable 300-610 exam material is our company's foothold in this competitive market. High accuracy and high quality are the most important things we always look for. Compared with the other products in the market, our 300-610 latest questions grasp of the core knowledge and key point of the real exam, the targeted and efficient 300-610 study training dumps guarantee our candidates to pass the test easily. Passing exam won't be a problem anymore as long as you are familiar with our 300-610 exam material (only about 20 to 30 hours practice).

Why is the Cisco 300-610 Exam important?

As a matter of fact, we do. And you can too if you pass your Cisco 300-610 Exam and get certified. Why is the Cisco 300-610 Exam important? We live in an Information Technology world. Everything is IT these days; from smartphones to supercomputers, robots to medical devices, and even automobiles are controlled via some form of a computerized system. The demand for IT professionals is greater than ever before. With the increased demand comes to a greater need for qualified IT professionals to fill the positions, and the Cisco 300-610 Exam is one of the keys to those positions. Utilizing the benefit of examinations to scores the guidance.

There are many different types of Cisco certifications available and each one is geared towards a specific field within Information Technology. Some of these specialties may appeal more to you than others, but regardless of which one you choose, you will want

to take the steps necessary to earn the certification that applies to that field. Advising frame to certify the card redeem. Earning a certification will help open doors for you in the world of IT and make you more attractive to potential employers. These certifications will also help increase your credibility as an IT professional and allow you to command higher salaries than those who have not earned any certification or have earned a lesser certification than you have.

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q64-Q69):

NEW QUESTION # 64

Refer to the exhibit. FCoE is used in the topology between the SAN Storage devices and SAN- Core routers. After noticing traffic drops to hosts accessing SAN-B storage, the engineering team wants to reduce the oversubscription ratio in the topology. Which action must the team take?

- A. Configure QoS to prioritize SAN-A traffic.
- B. Increase the bandwidth between SAN-A and SAN-B Storage toward the SAN-Core devices.
- C. Increase the bandwidth between the SAN-Core and SAN-Edge devices
- D. Configure QoS to prioritize SAN-B traffic.

Answer: B

NEW QUESTION # 65

Where does Cisco UCS handle Fibre Channel traffic failover?

- A. in the hardware on any Cisco UCS VIC adapter
- B. in the hardware on the Cisco UCS VIC 12xx adapter or later
- C. on the host, by using multipathing software
- D. on a Cisco UCS Fabric Interconnect ASIC in Fibre Channel switching mode

Answer: C

NEW QUESTION # 66

Drag and drop the configurations from the left onto the correct policies on the right.

Answer:

Explanation:

NEW QUESTION # 67

Refer to the exhibit. An engineer is creating a new data center design for a customer. The design must support virtual applications, enhance network resilience, and meet these requirements:

- * Extend Layer 2 across all network segments to support endpoint mobility.
- * Access switches will support up to 20 GB capacity for north-south and east-west traffic.
- * Provide fast convergence during link failures.
- * MAC address advertisement will not depend on the control plane.

Which solution must the engineer include in the design between the access and distribution switches?

- A. vPC
- B. DMVPN
- C. BGP-EVPN
- D. DVSTB

Answer: D

NEW QUESTION # 68

An engineer must develop a Python tool to automate software upgrades of both data center and non-data center devices. All devices offer a RESTful API and require a JSON or XML payload. Vendor-specific libraries must be avoided. Which library must the engineer choose?

- A. requests
- B. Netmiko
- C. ncclient
- D. Nornir

Answer: A

NEW QUESTION # 69
