# Forescout Test FSCP Discount Voucher: Forescout Certified Professional Exam - ActualVCE Products Prepare for your Exam in Short Time

If you try to free download the demos on the website, and you will be amazed by our excellent FSCP preparation engine. We can absolutely guarantee that even if the first time to take the exam, candidates can pass smoothly. You can find the latest version of FSCP Practice Guide in our website and you can practice FSCP study materials in advance correctly and assuredly. The following passages are their advantages for your information

The FSCP exam dumps are real and updated FSCP exam questions that are verified by subject matter experts. They work closely and check all FSCP exam dumps one by one. They maintain and ensure the top standard of ActualVCE Forescout Certified Professional Exam (FSCP) exam questions all the time. The FSCP practice test is being offered in three different formats. These FSCP exam questions formats are PDF dumps files, web-based practice test software, and desktop practice test software.

>> Test FSCP Discount Voucher <<

FSCP Reliable Test Preparation & FSCP Latest Material

We have full confidence of your success in exam. It is ensured with 100% money back guarantee. Get the money you paid to buy our exam dumps back if they do not help you pass the exam. To know the style and quality of exam FSCP Test Dumps, download the content from our website, free of cost. These free brain dumps will serve you the best to compare them with all available sources and select the most advantageous preparatory content for you. We are always efficient and give you the best support. You can contact us online any time for information and support for your exam related issues. Our devoted staff will respond you 24/7.

Forescout Certified Professional Exam Sample Questions (Q26-Q31):

NEW QUESTION # 26
When creating a new "Send Mail" notification action, which email is used by default?

- A. The email configured under Options > General > Mail
- B. The Tech Support email
- C. The email that was used when registering the license
- D. The email entered in the send mail action on the rule
- E. The email address of the last logged in user

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout Administration Guide, when creating a new "Send Mail" notification action, the email configured under Options > General > Mail is used by default.
Default Email Configuration:
According to the Managing Email Notifications documentation:
"From the Tools menu, select Options > General > Mail and DNS. Update any of the following fields: Send Email Alerts / Notifications - List email addresses to receive CounterACT email alerts." This setting establishes the default recipients for all email notifications across the system.
Email Notification Hierarchy:
According to the documentation:
* Default Recipients (Options > General > Mail) - Used when no specific recipients are defined
* Policy-Specific Recipients - Can override defaults in individual policy actions
* Action-Level Recipients - The "Send Mail" action can specify custom recipients When "Send Mail" Action Uses Defaults:
According to the documentation:
When you create a "Send Mail" action without specifying custom recipients, the system automatically uses the email addresses configured in:
* Tools > Options > General > Mail and DNS
* The "Send Email Alerts/Notifications" field
Why Other Options Are Incorrect:
* B. Email of the last logged in user - The system doesn't track login history for email defaults
* C. The Tech Support email - There is no "Tech Support email" setting in Forescout
* D. Email used for license registration - License email is not used for policy notifications
* E. Email entered in the send mail action on the rule - While this CAN override defaults, it's not the DEFAULT used when creating the action Referenced Documentation:
* Managing Forescout Platform Email Notifications
* Managing Email Notifications
* Managing Email Notification Addresses

NEW QUESTION # 27
Which of the following lists contain items you should verify when you are troubleshooting a failed switch change VLAN action?
Select one:

- A. The Switch Vendor is compatible for the change VLAN action
  The Enterprise manager IP is allowed read VLAN access to the switch
  The network infrastructure allows CounterACT SSH and SNMP Get traffic to reach the switch The action is disabled in the policy The Switch Model is compatible for ACL actions The Enterprise manager IP is allowed write VLAN changes to the switch The network infrastructure allows CounterACT SSH and SNMP Trap traffic to reach the switch The action is enabled in the policy
- B. The Switch Vendor is compatible for the change VLAN action
  The managing appliance IP is allowed read VLAN access to the switch
  The network infrastructure allows CounterACT SSH and SNMP Get traffic to reach the switch The action is disabled in the policy
- C. The Switch Vendor is compatible for all actions
  The managing appliance IP is allowed read VLAN access to the switch
  The network infrastructure allows CounterACT SSH and SNMP Set traffic to reach the switch The action is enabled in the policy

- D. The Switch Model is compatible for the change VLAN action
  The managing appliance IP is allowed write VLAN changes to the switch
  The network infrastructure allows CounterACT SSH and SNMP Set traffic to reach the switch The action is enabled in the policy

Answer: D

Explanation:
According to the Forescout Switch Plugin Configuration Guide Version 8.12 and 8.14.2, when troubleshooting a failed change VLAN action, you should verify: "The Switch Model is compatible for the change VLAN action, The managing appliance IP is allowed write VLAN changes to the switch, The network infrastructure allows CounterACT SSH and SNMP Set traffic to reach the switch, The action is enabled in the policy".
Troubleshooting Switch VLAN Changes:
According to the Switch Plugin documentation:
When a VLAN assignment fails, verify:
* Switch Model Compatibility
* Not all switch models support VLAN changes via SNMP/SSH
* Consult Forescout compatibility matrix
* Refer to Appendix 1 of Switch Plugin guide for capability summary
* Managing Appliance Permissions
* The managing appliance must have write access to VLAN settings
* Requires appropriate SNMP community strings or SNMPv3 credentials
* Must be allowed to execute SNMP Set commands
* Network Infrastructure
* SSH access to the switch (CLI) - typically port 22
* SNMP Set traffic to the switch - port 161
* NOT "SNMP Get" (read-only) or "SNMP Trap" (notifications)
* SNMP Set is specifically for write operations like VLAN assignment
* Policy Action Status
* The action must be enabled in the policy
* If the action is disabled, it won't execute regardless of other settings Why Option C is Correct:
According to the documentation:
* # Switch Model (not Vendor) - Model-specific capabilities matter
* # Managing appliance (not Enterprise Manager) - For distributed deployments
* # SNMP Set (not Get or Trap) - Required for write/change operations
* # Action enabled (not disabled) - Prerequisite for execution
Why Other Options Are Incorrect:
* A - Mixes incorrect items: "action is disabled" is wrong; "SNMP Trap" is for notifications, not VLAN changes
* B - States "SNMP Get" (read-only) instead of "SNMP Set" (write); has "action is disabled"
* D - Says "all actions" instead of "change VLAN action"; uses "SNMP Set" correctly but other details wrong Referenced
Documentation:
* Forescout CounterACT Switch Plugin Configuration Guide v8.12
* Switch Plugin Configuration Guide v8.14.2
* Switch Configuration Parameters
* Switch Restrict Actions

NEW QUESTION # 28
When configuring policies, which of the following statements is true regarding the indicated property?

Select one:

- A. Modifies the irresolvable condition to TRUE

- B. Negates the criteria outside the property
- C. Negates the criteria inside the property
- D. Negates the "evaluate irresolvable as" setting
- E. Irresolvable hosts would match the condition

Answer: C

Explanation:
Based on the policy condition image provided showing the NOT checkbox on "Windows Antivirus Update Data", the correct statement is that the NOT operator negates the criteria inside the property.
Understanding the NOT Operator:
When the NOT checkbox is selected on a policy condition property, it performs a logical negation (NOT operation) on the criteria evaluation. According to the Forescout Administration Guide:
The NOT operator creates an inverted evaluation:
* Without NOT: "Windows Antivirus Update Data = [value]"
* Result: Matches endpoints where the property equals the specified value
* With NOT (as shown in the image): "NOT (Windows Antivirus Update Data = [value])"
* Result: Matches endpoints where the property does NOT equal the specified value How the NOT Operator Works:
The NOT operator negates the criteria inside the property:
* Criteria Evaluation - The property condition is evaluated normally first
* Negation Applied - The result is then inverted (TRUE becomes FALSE, FALSE becomes TRUE)
* Final Result - The endpoint matches only if the negated condition is true Example from the Image:
The image shows:
* First criterion: "Windows Antivirus Running - 360 Sat" (AND)
* Second criterion: "NOT Windows Antivirus Update Data" (checked)
This means:
* The endpoint must have Windows Antivirus Running = True (360 Sat)
* AND the endpoint must NOT have the Windows Antivirus Update Data property value (whatever was specified)
* The NOT negates the criteria inside the property condition
NOT vs. "Evaluate Irresolvable As":
According to the documentation, these are independent settings:
Setting
Purpose
NOT Checkbox
Negates the criteria evaluation (inverts the match logic)
Evaluate Irresolvable As
Defines how to handle unresolvable properties (when data cannot be determined) The NOT operator works inside the property evaluation, while "Evaluate Irresolvable As" is a separate setting that determines behavior when a property cannot be resolved.
Why Other Options Are Incorrect:
* A. Irresolvable hosts would match the condition - The NOT operator doesn't specifically affect how irresolvable properties are handled
* C. Negates the criteria outside the property - The NOT operator is internal to the property; it negates the criteria inside, not outside
* D. Modifies the irresolvable condition to TRUE - The NOT operator doesn't modify the "Evaluate Irresolvable As" setting; these are independent
* E. Negates the "evaluate irresolvable as" setting - The NOT operator and "Evaluate Irresolvable As" are separate; NOT doesn't affect or negate that setting Policy Condition Structure:
According to the Forescout Administration Guide:
A policy condition is structured as:
text
[NOT] [Property Name] [Operator] [Value]
Where:
* [NOT] - Optional negation operator (what the checkbox controls)
* [Property Name] - The property being evaluated
* [Operator] - The comparison operator (equals, contains, greater than, etc.)
* [Value] - The value to match against
When NOT is checked, it negates the entire criteria evaluation inside that property condition.

NEW QUESTION # 29
Which of the following logs are available from the GUI?

- A. Switch, Discovery, Threat Protection, Event Viewer, Audit Trail
- B. Host Details, Policy, Blocking, Event Viewer, Audit Trail
- C. HPS, Policy, Threat Protection, Event Viewer, Audit Trail
- D. Switch, Policy, Blocking, Event Viewer, Audit Trail
- E. Host Details, Policy, Today Log, Threat Event Viewer, Audit Trail

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:
According to the Forescout Platform Administration Guide, the logs available from the GUI Console include: Host Details, Policy, Blocking, Event Viewer, and Audit Trail.
Available Logs from the Forescout Console GUI:
* Host Details Log - Provides detailed information about individual endpoints discovered on the network.
This log displays comprehensive host properties and status information directly accessible from the console.
* Policy Log - Shows policy activity and records how specific endpoints are handled by policies. The Policy Log investigates endpoint activity, displaying information about policy matches, actions executed, and policy evaluation results.
* Blocking Log - Displays all blocking events that occur on the network, including port blocks, host blocks, and external port blocks. This log provides an at-a-glance display of blocked endpoints with timestamps and reasons.
* Event Viewer - A system log that displays severity, date, status, element, and event information.
Administrators can search, export, and filter events using the Event Viewer.
* Audit Trail - Records administrative actions and changes made to the Forescout platform configuration and policies.
How to Access Logs from the GUI:
From the Forescout Console GUI, administrators access logs through the Log menu by selecting:
* Blocking Logs to view block events
* Event Viewer to display system events
* Policy Reports to investigate policy activity
Why Other Options Are Incorrect:
* B. Switch, Policy, Blocking, Event Viewer, Audit Trail - "Switch" is not a standalone log type available from the GUI; switch data is captured through plugin logs and reports
* C. Switch, Discovery, Threat Protection, Event Viewer, Audit Trail - "Discovery" and "Threat Protection" are report categories, not GUI logs in the standard log menu
* D. HPS, Policy, Threat Protection, Event Viewer, Audit Trail - HPS logs are accessed through CLI, not the GUI; "Threat Protection" is a report, not a GUI log
* E. Host Details, Policy, Today Log, Threat Event Viewer, Audit Trail - "Today Log" and "Threat Event Viewer" are not standard log names in the Forescout GUI Referenced Documentation:
* Forescout Platform Administration Guide - Generating Reports and Logs
* Policy Reports and Logs section
* Work with System Event Logs documentation
* View Block Events documentation

NEW QUESTION # 30
Which of the following does NOT need to be checked when you are verifying correct switch plugin configuration?

- A. The Switch plugin is running
- B. Correct switch management credentials are configured for each switch
- C. Each switch passes the plugin test
- D. IP address ranges are assigned to the correct appliance
- E. Each switch is assigned to the correct appliance

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Forescout Platform Administration and Deployment:

According to the Forescout Switch Plugin Configuration Guide, when verifying correct switch plugin configuration, you do NOT need to check: "IP address ranges are assigned to the correct appliance". This setting is network/appliance configuration, not switch plugin-specific configuration.

Switch Plugin Configuration Verification Checklist:

According to the Switch Plugin documentation:

When verifying switch plugin configuration, you MUST check:

* A. The Switch plugin is running #
* Plugin status must be active
* Verify in plugin management interface
* B. Correct switch management credentials #
* SSH/CLI credentials configured
* SNMP credentials (v1/v2/v3) configured
* Must have appropriate permissions
* D. Each switch passes the plugin test #
* Use plugin test function to verify connectivity
* Confirms credentials and permissions work
* Validates communication protocols
* E. Each switch is assigned to the correct appliance #
* Switch must be assigned to managing appliance
* Critical for multi-appliance deployments
* Ensures proper VLAN management traffic routing

Why C is NOT Required:

According to the documentation:

IP address range assignment (segment assignment) is:

* Part of appliance channel/segment configuration
* NOT part of switch plugin-specific configuration
* Handled at appliance level, not plugin level
* Related to appliance management, not switch management

Switch Plugin vs. Appliance Configuration:

According to the configuration guide:

Item	Switch Plugin Config	Appliance Config
Plugin Running	#Yes	N/A
Switch Credentials	#Yes	N/A
Plugin Test	#Yes	N/A
Switch Assignment	#Yes	N/A
IP Address Ranges	#No	#Yes

Referenced Documentation:

* CounterACT Switch Plugin Configuration Guide v8.12
* Switch Configuration Parameters
* Permissions Configuration - Switch
* Configuring Switches in the Switch Plugin

NEW QUESTION # 31

......

In the 21st century, all kinds of examinations are filled with the life of every student or worker. We need to pass some exams to get the corresponding certificates like FSCP certification, so as to get the recognition of enterprises and society. However, passing an

FSCP Exam is not easy, and a large number of people fail to pass it every year, as is the case with the FSCP exam. But if you choose to buy our FSCP study materials, you will pass the exam easily.

FSCP Reliable Test Preparation: https://www.actualvce.com/Forescout/FSCP-valid-vce-dumps.html

Forescout Test FSCP Discount Voucher You will not feel bored because the knowledge has been organized orderly, Our Forescout FSCP practice training material will help you to enhance your specialized knowledge and pass your actual test with ease, And the most convenient thing about this type of FSCP practice exam is that you don't have to install any software as it is a FSCP web-based practice exam, Our FSCP guide torrent is equipped with time-keeping and simulation test functions, it's of great use to set up a time keeper to help adjust the speed and stay alert to improve efficiency.

General Douglas A, FSCP 100% exact test questions, You will not feel bored because the knowledge has been organized orderly, Our Forescout FSCP practice training material will help you to enhance your specialized knowledge and pass your actual test with ease.

Forescout FSCP Practice Questions

And the most convenient thing about this type of FSCP practice exam is that you don't have to install any software as it is a FSCP web-based practice exam.

Our FSCP guide torrent is equipped with time-keeping and simulation test functions, it's of great use to set up a time keeper to help adjust the speed and stay alert to improve efficiency.

You can trust the material and set aside an edge to zero in on those before you win eventually over the last Forescout Certified Professional Exam (FSCP) exam dates.
