BTW, DOWNLOAD part of RealVCE EMEA-Advanced-Support dumps from Cloud Storage: [https://drive.google.com/open?id=1Pfd7XWdl6DGCio14WIBE-V9gDpm7ZTy\\_](https://drive.google.com/open?id=1Pfd7XWdl6DGCio14WIBE-V9gDpm7ZTy_)

In order to cater to meet different needs of candidates, three versions of EMEA-Advanced-Support learning materials are available. EMEA-Advanced-Support PDF version is printable, and if you prefer the hard one, you can choose this version for your practice. EMEA-Advanced-Support Soft test engine can install in more than 200 personal computers, and it can also stimulate the real exam environment, and you can know what the real exam is like. EMEA-Advanced-Support Online Test engine is convenient and easy to learn, you can learn anytime and anyplace. This version can record your process of training, and you can have a general review before next training.

If you are troubled with EMEA-Advanced-Support exam, you can consider down our free demo. You will find that our latest EMEA-Advanced-Support exam torrent are perfect paragon in this industry full of elucidating content for exam candidates of various degree to use. Our results of latest EMEA-Advanced-Support exam torrent are startlingly amazing, which is more than 98 percent of exam candidates achieved their goal successfully. The latest EMEA-Advanced-Support Exam Torrent covers all the qualification exam simulation questions in recent years, including the corresponding matching materials at the same time.

## Test EMEA-Advanced-Support Pdf - Latest EMEA-Advanced-Support Study Plan

RealVCE is a trusted platform that is committed to helping Fortinet EMEA-Advanced-Support exam candidates in exam preparation. The EMEA-Advanced-Support exam questions are real and updated and will repeat in the upcoming EMEA-Advanced-Support exam dumps. By practicing again and again you will become an expert to solve all the Fortinet EMEA Advanced Support Exam exam questions completely and before the exam time. As far as the Fortinet EMEA-Advanced-Support Practice Test are concerned, these Fortinet EMEA-Advanced-Support practice questions are designed and verified by the experience and qualified Fortinet EMEA Advanced Support Exam exam trainers.

## Fortinet EMEA Advanced Support Exam Sample Questions (Q50-Q55):

### NEW QUESTION # 50

Which protocols are used by an email client to retrieve emails?

- A. SNMP
- B. IMAP4
- C. SMTP
- D. POP3

**Answer: B,D**

Explanation:

Email clients use POP3 (Post Office Protocol) and IMAP4 (Internet Message Access Protocol) to retrieve emails from a server. POP3 downloads emails and typically removes them from the server, while IMAP4 allows synchronized access. SMTP is used for sending emails, and SNMP is for network monitoring, not email retrieval. Exact extract: "Email clients use POP3 or IMAP to retrieve email messages from a mail server... IMAP allows users to access and manage email directly on the server, while POP3 typically downloads messages to the client."

#### NEW QUESTION # 51

In VMware vSphere, the term VMotion refers to

- A. The patented technology available to migrate a server from Hyper-V to VMware
- B. The process used to describe the movement of hard drive platters on a virtual machine
- C. The streaming of high definition video on a virtual machine
- **D. A zero downtime live migration of workloads from one server to another**

**Answer: D**

Explanation:

VMotion in VMware vSphere enables live migration of running virtual machines from one physical server to another with zero downtime, ensuring continuous operation. Fortinet's FortiGate-VM supports such environments. Options A, C, and D are incorrect as they do not describe VMotion; C refers to a different migration scenario, and D is unrelated to virtualization. Exact extract: "VMotion allows the live migration of a running virtual machine from one physical server to another with no downtime... This ensures workloads continue running during server maintenance or load balancing."

#### NEW QUESTION # 52

Which of the following protocols would you expect a typical switch to support?

- **A. STP**
- **B. VLAN**
- C. SIP
- D. OSPF

**Answer: A,B**

Explanation:

Typical Layer 2 switches support STP (Spanning Tree Protocol) to prevent loops in redundant networks and VLANs (Virtual Local Area Networks) to segment traffic logically. OSPF is a Layer 3 routing protocol typically on routers, and SIP is for VoIP session initiation, not core switch functions. FortiSwitch supports STP variants like MSTP and VLAN tagging. Exact extract: MSTP supports multiple spanning tree instances, where each instance carries traffic for one or more VLANs (the mapping of VLANs to instances is configurable). These protocols include the Spanning Tree Protocol (STP), Multiple Spanning Tree Protocol (MSTP), and Per-VLAN Rapid Spanning Tree Protocol ( ... FortiSwitch supports Spanning Tree Protocol (STP), Multiple Spanning Tree Protocol (MSTP), and Per-VLAN Rapid Spanning Tree Protocol (RSTP).

Spanning Tree Protocol (STP) is a link-management protocol to enable a layer 2 loop-free topology. STP enables a network to have redundant paths for fault ... Go to WiFi & Switch Controller > FortiSwitch Ports.

Click a port row. Click the Native VLAN column in one of the selected entries to change the native VLAN.

#### NEW QUESTION # 53

Which parts of the IKE protocol below are responsible for authenticating the User (username/password) of a dialup IPsec tunnel? (Check all correct answers)

- A. IKEv1 phase1
- **B. IKEv2 EAP**
- C. IKEv2 SA\_INIT
- **D. IKEv1 Xauth**
- E. IKEv1 phase2

**Answer: B,D**

Explanation:

For user authentication in dialup IPsec, IKEv1 uses XAuth (Extended Authentication) after Phase 1 for username/password. IKEv2 uses EAP (Extensible Authentication Protocol) for similar user auth. Phase 1 and SA\_INIT are for peer auth, Phase 2 for child SA negotiation. Exact extract: XAuth increases security by requiring remote dialup client users to authenticate in a separate exchange at the end of phase 1. IPsec IKEv2 VPNs now support certificate authentication and EAP authentication at the same time from a dialup FortiClient. With the eap-cert-auth setting ... IPsec IKEv2 VPNs now support certificate authentication and EAP authentication at the same time from a dialup FortiClient. IPsec IKEv1 uses XAUTH for user authentication, and IPsec IKEv2 uses EAP for user authentication. Only EAP-TTLS is interoperable with LDAP. For LDAP based user ... In your scenario, the user cannot authenticate by providing both a PSK and their credentials (using one of multiple EAP methods).

#### NEW QUESTION # 54

What happens when a router receives a packet for forwarding with a TTL value of 1?

- A. It increments it and passes it on to the next router
- **B. The TTL is decreased to 0, the packet is dropped and an ICMP message is sent to the transmitting IP**
- C. It decreases the value to 0 and then forwards it
- D. The packet is only forwarded through the router to a locally attached network

**Answer: B**

Explanation:

When a router, such as a FortiGate, receives a packet with a TTL (Time to Live) of 1, it decrements the TTL to 0, drops the packet, and sends an ICMP Time Exceeded message to the source IP. This prevents infinite loops in routing. Option A is incorrect as TTL is decremented, not incremented; B and D are incorrect as the packet is not forwarded when TTL reaches 0. Exact extract: "When a packet's TTL reaches 1, the router decrements it to 0, drops the packet, and sends an ICMP Time Exceeded message to the source IP address to prevent routing loops."

#### NEW QUESTION # 55

.....

You may urgently need to attend EMEA-Advanced-Support certificate exam and get the certificate to prove you are qualified for the job in some area. If you buy our EMEA-Advanced-Support study materials you will pass the test almost without any problems. Our EMEA-Advanced-Support study materials boost high passing rate and hit rate so that you needn't worry that you can't pass the test too much. We provide free tryout before the purchase. To further understand the merits and features of our EMEA-Advanced-Support Practice Engine you could look at the introduction of our product in detail.
