

Fortinet FCP_FCT_AD-7.2 Praxisprüfung, FCP_FCT_AD-7.2 Lernressourcen

Improve your expertise with these Fortinet FCP_FCT_AD-7.2 exam questions and access a complimentary FCP_FCT_AD-7.2 exam dumps preview prior to buying.

Fortinet FCP_FCT_AD-7.2 Exam Questions - Get Ready To Nail Your Exam In One Go

Do you know why candidates of the FCP - FortiClient EMS 7.2 Administrator Exam fail in their maiden attempt? This is because they do not have sufficient information about the FCP_FCT_AD-7.2 Fortinet Certified Professional exam. If you are planning to take the FCP_FCT_AD-7.2 FCP - FortiClient EMS 7.2 Administrator Exam and crack this FCP_FCT_AD-7.2 Fortinet Certified Professional exam in just one shot, then you need to have the latest [Fortinet FCP_FCT_AD-7.2 exam questions](#) and comprehensive information about the FCP_FCT_AD-7.2 FCP - FortiClient EMS 7.2 Administrator Exam. For this, ExamsBot is here to provide you with the latest and most reliable FCP_FCT_AD-7.2 Fortinet Certified Professional exam information with its excellent Fortinet FCP_FCT_AD-7.2 test questions.

Fortinet FCP_FCT_AD-7.2 Exam Questions In PDF Format

Übrigens, Sie können die vollständige Version der EchteFrage FCP_FCT_AD-7.2 Prüfungsfragen aus dem Cloud-Speicher herunterladen: https://drive.google.com/open?id=16_a4Fv5u11dj0b9QR0OM7J1TfUkTMXDu

Es gibt ein Sprichwort, das Spiel beendet, wenn Sie es aufgeben. Die Prüfung ist ähnlich wie das Spiel. Viele geben die Fortinet FCP_FCT_AD-7.2 Zertifizierungsprüfungen auf, wenn sie nicht genug Zeit haben. Aber Sie können FCP_FCT_AD-7.2 Prüfung mit guter Note bestehen, wenn Sie die richtige exam Fragen benutzen trotz kurzer Zeit. Glauben Sie nicht? Dann müssen sie die FCP_FCT_AD-7.2 Prüfungsunterlagen von EchteFrage probieren.

Fortinet FCP_FCT_AD-7.2 Prüfungsplan:

Thema	Einzelheiten
Thema 1	FortiClient provisioning and deployment: It discusses deployment of FortiClient on Windows, macOS, iOS, and Android endpoints, and configuration of endpoint profiles.
Thema 2	- Security Fabric integration: The topic focuses on Security Fabric integration with FortiClient EMS, automatic quarantine of compromised endpoints, ZTNA solution, and IP - MAC ZTNA filtering
Thema 3	Diagnostics: It analyzes diagnostic information to troubleshoot issues related FortiClient EMS and FortiClient. Moreover, it focuses on resolving common FortiClient deployment and implementation issues.

- FortiClient EMS setup: This topic discusses the initial configuration of FortiClient EMS, the configuration of Chromebooks, and configuration of FortiClient EMS features.

FCP_FCT_AD-7.2 Lernressourcen & FCP_FCT_AD-7.2 Prüfungsaufgaben

EchteFrage wird Ihnen stets begleiten, bis Sie erfolgreich werden. Egal wie ehrgeizig Ihre Träume sind, werden wir EchteFrage Ihnen helfen, Ihre Träume Schritt für Schritt zu verwirklichen. Denn unsere Schulungsunterlagen zur Fortinet FCP_FCT_AD-7.2 Zertifizierungsprüfung sind von erfahrenen IT-Experten durch ihre eigene ständige Untersuchungen und Erforschungen bearbeitet. Wenn Sie noch damit zögern, können Sie vorher einige kostenlosen Testaufgaben und Antworten auf der Webseite EchteFrage als Probe herunterladen. Wir sind sicher, dass Sie niemals enttäuscht werden.

Fortinet FCP—FortiClient EMS 7.2 Administrator FCP_FCT_AD-7.2 Prüfungsfragen mit Lösungen (Q52-Q57):**52. Frage**

Which two are benefits of using multi-tenancy mode on FortiClient EMS? (Choose two.)

- A. Licenses are shared among sites
- B. Separate host servers manage each site.
- C. It provides granular access and segmentation.
- D. The fabric connector must use an IP address to connect to FortiClient EMS.

Antwort: A,C

Begründung:

Understanding Multi-Tenancy Mode:

Multi-tenancy mode allows multiple independent sites or tenants to be managed from a single FortiClient EMS instance.

Evaluating Benefits:

Licenses can be shared among sites, making it cost-effective (B).

It provides granular access and segmentation, allowing for detailed control and separation between tenants (D).

Eliminating Incorrect Options:

Separate host servers managing each site (A) is not a feature of multi-tenancy mode.

The fabric connector's use of an IP address (C) is unrelated to multi-tenancy benefits.

53. Frage

Refer to the exhibit.

Based on The settings shown in The exhibit, which statement about FortiClient behaviour is Hue?

- A. FortiClient copies infected files to the Resources folder without scanning them.
- B. FortiClient quarantines infected ties and reviews later, after scanning them.
- C. FortiClient blocks and deletes infected files after scanning them.
- D. FortiClient scans infected files when the user copies files to the Resources folder.

Antwort: D

Begründung:

Based on the settings shown in the exhibit, FortiClient is configured to scan files as they are downloaded or copied to the system. This means that if a user copies files to the "Resources" folder, which is not listed under exclusions, FortiClient will scan these files for infections. The exclusion path mentioned in the settings, "C:\Users\Administrator\Desktop\Resources", indicates that any files copied to this specific folder will not be scanned, but since the question implies that the "Resources" folder is not the same as the excluded path, FortiClient will indeed scan the files for infections.

54. Frage

Based on the FortiClient logs shown in the exhibit, which endpoint profile policy is currently applied to the FortiClient endpoint from the EMS server?

Log - Policy

```

1:40:39 PM    Information    Vulnerability    id=96521 msg="A vulnerability scan result has been logged" status=N/A vulncat="Operating
1:40:39 PM    Information    Vulnerability    id=96520 msg="The vulnerability scan status has changed" status="scanning finished" vulnc
1:41:38 PM    Information    ESNAC    id=96958 user=Admin msg="User social media information" social_srvc=os social_user=Admin
2:12:22 PM    Information    Config    id=96882 msg="Policy 'Default' was received and applied"
2:13:27 PM    Information    ESNAC    id=96958 user=Admin msg="User social media information" social_srvc=os social_user=Admin
2:14:32 PM    Information    ESNAC    id=96959 emshostname=WIN-EHVKB3571 msg="Endpoint has AV whitelist engine version 6.00134 and si
2:14:54 PM    Information    Config    id=96882 msg="Policy 'Default' was received and applied"
2:16:01 PM    Information    ESNAC    id=96958 user=Admin msg="User social media information" social_srvc=os social_user=Admin
2:20:19 PM    Information    Config    id=96883 msg="Compliance rules 'default' were received and applied"
2:20:23 PM    Debug    ESNAC    PIPEMSG_CMD_ESNAC_STATUS_RELOAD_CONFIG
2:20:23 PM    Debug    ESNAC    cb828898d1ae5691ef84cc7969a1eb1a
2:20:23 PM    Debug    ESNAC    Before Reload Config
2:20:23 PM    Debug    ESNAC    ReloadConfig
2:20:23 PM    Debug    Scheduler    stop_task() called
2:20:23 PM    Debug    Scheduler    GUI change event
2:20:23 PM    Debug    Scheduler    stop_task() called
2:20:23 PM    Information    Config    id=96882 msg="Policy 'Fortinet-Training' was received and applied"
2:20:23 PM    Debug    Config    'scan on registration' is disabled - delete 'on registration' vulnerability scan.
2:20:23 PM    Debug    Config    ImportConfig: tag <\forticlient_configuration\antiexploit\exclusion_applications> value is empty.

```

- A. Fortinet-Training

- B. Default configuration policy
- C. Compliance rules default
- D. Default

Antwort: A

Begründung:

Observation of Logs:

The logs show a policy named "Fortinet-Training" being applied to the endpoint.

Evaluating Policies:

The log entries indicate that the "Fortinet-Training" policy was received and applied.

Conclusion:

Based on the logs, the currently applied policy on the FortiClient endpoint is "Fortinet-Training".

55. Frage

Which component or device shares ZTNA tag information through Security Fabric integration?

- **A. FortiClient EMS**
- B. FortiGate
- C. FortiClient
- D. FortiGate Access Proxy

Antwort: A

Begründung:

FortiClient EMS is the component that shares ZTNA tag information through Security Fabric integration. ZTNA tags are synchronized from FortiClient EMS as inputs for the FortiGate application gateway. They can be used in ZTNA policies as security posture checks to ensure certain security criteria are met. FortiClient EMS can share ZTNA tags across multiple devices in the Fabric, such as FortiGate, FortiManager, and FortiAnalyzer. FortiClient EMS can also share ZTNA tags across multiple VDOMs on the same FortiGate device. FortiClient EMS can be configured to control the ZTNA tag sharing behavior in the Fabric Devices settings.

FortiGate is the device that enforces ZTNA policies using ZTNA tags. FortiGate can receive ZTNA tags from FortiClient EMS via Fabric Connector. FortiGate can also publish ZTNA services through the ZTNA portal, which allows users to access applications without installing FortiClient. FortiGate can also provide ZTNA inline CASB for SaaS application access control.

FortiGate Access Proxy is a feature that enables FortiGate to act as a proxy for ZTNA traffic.

FortiGate Access Proxy can be deployed in front of the application servers to provide ZTNA protection. FortiGate Access Proxy can also be deployed behind the application servers to provide ZTNA visibility. FortiGate Access Proxy can use ZTNA tags to identify and authenticate users and devices.

FortiClient is the endpoint software that connects to ZTNA services. FortiClient can register ZTNA tags with FortiClient EMS based on the endpoint security posture. FortiClient can also use ZTNA tags to access ZTNA services published by FortiGate. FortiClient can also use ZTNA tags to access SaaS applications with ZTNA inline CASB.

56. Frage

In a FortiSandbox integration, what does the remediation option do?

- A. Wait for FortiSandbox results before allowing files
- B. Deny access to a file when it sees no results
- **C. Alert and notify only**
- D. Exclude specified files

Antwort: C

Begründung:

Understanding FortiSandbox Integration:

In a FortiSandbox integration, various remediation options are available for handling suspicious files.

Evaluating Remediation Options:

The remediation option for alerting and notifying without blocking access or waiting for results is essential to understand.

Conclusion:

The correct action for the remediation option in this context is to alert and notify only.
