100% Pass Quiz 2025 Professional FCP_FMG_AD-7.4: FCP - FortiManager 7.4 Administrator Passed

With the development of the times, civilization is in progress, as well as CramPDF. In order to help you get the FCP_FMG_AD-7.4 exam certification to own a bright future as soon as possible, and you can get well-paid, CramPDF has always been working hard. With efforts for years, the passing rate of CramPDF FCP_FMG_AD-7.4 Certification Exam has reached as high as 100%. Choose CramPDF is to choose success

Fortinet FCP_FMG_AD-7.4 Exam Syllabus Topics:

Topic	Details

Topic 1	Advanced Configuration: This domain explains FortiManager's high availability (HA), configures FortiGuard services and works with the global database ADOM.
Topic 2	Device Manager: In this domain, the focus is on how to register devices within ADOMs, implement configuration changes using scripts, and troubleshoot using the revision history.
Topic 3	Policy and Objects: This section deals with how to manage policies and objects, oversee ADOM revisions, configure workspace mode, and conduct policy imports and installations.
Topic 4	Troubleshooting: This section covers how to familiarize with FortiManager deployment scenarios and troubleshoot issues related to imports, installations, device-level, ADOM-level, and system-level concerns.
Topic 5	Administration: This section covers how to understand FortiManager capabilities, perform initial configurations, and set up administrative domains (ADOMs).

Fortinet FCP - FortiManager 7.4 Administrator Sample Questions (Q48-Q53):

NEW QUESTION # 48

Exhibit.

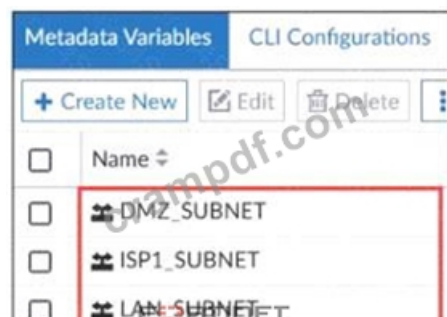

Given the configuration shown in the exhibit, which two statements are true? (Choose two.)

- A. The FortiManager ADOM is locked by the administrator.
- B. FortiManager is in workflow mode.
- C. An administrator can also lock the Local-FortiGate_root policy package.
- D. The FortiManager ADOM workspace mode is set to Normal

Answer: C,D

NEW QUESTION # 49

Exhibit.

What is true about the objects highlighted in the image?

- A. They can be used as variables in scripts.
- B. They cannot be created in the global database ADOM.
- C. They are available across all ADOMs by default.
- D. They can be set to optional or required.

Answer: A

NEW QUESTION # 50

You are moving managed FortiGate devices from one ADOM to a new ADOM.
Which statement correctly describes the expected result?

- A. Policy packages will be imported into the new ADOM automatically.
- B. Any unused objects from a previous ADOM are moved to the new ADOM automatically.
- C. The shared device settings will be installed automatically.
- D. The shared policy package will not be moved to the new ADOM automatically.

Answer: D

Explanation:

When you move a device to a new ADOM, the shared policy packages do not transfer automatically. You would need to manually configure or assign the necessary policy packages in the new ADOM.

NEW QUESTION # 51

An administrator runs the reload failure command diagnose test deploymanager reloadconf
<deviceid> on FortiManager.
What does this command do?

- A. It installs the latest configuration on the specified FortiGate and updates the revision history database.
- B. It reloads the policy package from the FortiManager to FortiGate.
- C. It downloads the latest configuration from the specified FortiGate and performs a reload operation on the device database.
- D. It compares and provides differences in configuration on FortiManager with the current running configuration of the specified FortiGate.

Answer: C

NEW QUESTION # 52

Refer to the exhibit.

FortiManager CLI output

```
FortiManager # execute top

```

What percent of the available RAM is being used by the process in charge of downloading the web and email filter databases from

the public FortiGuard servers?

- A. 2.9
- B. 1.5
- C. 3.1
- D. 4.1

Answer: A

Explanation:

In the exhibit, the FortiManager CLI output displays the results of the `top` command, which shows system processes, CPU usage, and memory (RAM) usage. We are specifically looking for the process responsible for downloading the web and email filter databases from the public FortiGuard servers. This process is typically handled by the `thefgdlinkd` process.

Key information from the output:

- * The `thefgdlinkd` process is listed with a PID of 1463.
- * The `%MEM` column shows that this process is using 2.9% of the available RAM.

Evaluation of Options:

- * A. 2.9: This is correct. The `thefgdlinkd` process, which handles the web and email filter database downloads, is using 2.9% of the available memory, as indicated in the `%MEM` column.
- * B. 3.1: This is incorrect. The 3.1% memory usage belongs to the `thefwmsvrprocess`, not the `fgdlinkd` process.
- * C. 1.5: This is incorrect. The 1.5% memory usage belongs to the `thefclinkd` process, not the `fgdlinkd` process.
- * D. 4.1: This is incorrect. The 4.1% memory usage belongs to the `thefgdsrvprocess`, not the `fgdlinkd` process.

NEW QUESTION # 53

.....

Whole CramPDF's pertinence exercises about Fortinet certification FCP_FMG_AD-7.4 exam is very popular. CramPDF's training materials can not only let you obtain IT expertise knowledge and a lot of related experience, but also make you be well prepared for the exam. Although Fortinet Certification FCP_FMG_AD-7.4 Exam is difficult, through doing CramPDF's exercises you will be very confident for the exam. Be assured to choose CramPDF efficient exercises right now, and you will do a full preparation for Fortinet certification FCP_FMG_AD-7.4 exam.
