

Fortinet FCP_FSM_AN-7.2 Test Voucher & Discount FCP_FSM_AN-7.2 Code

BONUS!!! Download part of TopExamCollection FCP_FSM_AN-7.2 dumps for free: <https://drive.google.com/open?id=11KTVnu74IYzdqHRT4E-CKCzvMK1oZvl>

At the TopExamCollection, we guarantee that our customers will receive the best possible FCP - FortiSIEM 7.2 Analyst (FCP_FSM_AN-7.2) study material to pass the Fortinet FCP_FSM_AN-7.2 certification exam with confidence. Joining this site for the FCP_FSM_AN-7.2 Exam Preparation would be the greatest solution to the problem of outdated material.

TopExamCollection has designed TopExamCollection which has actual exam Dumps questions, especially for the students who are willing to pass the Fortinet FCP_FSM_AN-7.2 exam for the betterment of their future. The study material is available in three different formats. Fortinet FCP_FSM_AN-7.2 Practice Exam are also available so the students can test their preparation with unlimited tries and pass FCP - FortiSIEM 7.2 Analyst (FCP_FSM_AN-7.2) certification exam on the first try.

Discount FCP_FSM_AN-7.2 Code - FCP_FSM_AN-7.2 Latest Test Experience

Our FCP_FSM_AN-7.2 free dumps demo will provide you some basic information for the accuracy of our exam materials. All questions and answers in our FCP_FSM_AN-7.2 real dumps are tested by our certified trainers with rich experience and one or two days is enough for you practicing Valid FCP_FSM_AN-7.2 Exam Pdf. Our FCP_FSM_AN-7.2 dumps torrent contains everything you want to solve the challenge of real exam.

Fortinet FCP - FortiSIEM 7.2 Analyst Sample Questions (Q16-Q21):

NEW QUESTION # 16

Which information can FortiSIEM retrieve from FortiClient EMS through an API connection?

- A. Host software versions
- B. ZTNA tags

- C. FortiSIEM license
- D. Host login credentials

Answer: B

Explanation:

FortiSIEM can retrieve ZTNA tags from FortiClient EMS through an API connection, enabling dynamic user and device classification for policy enforcement and incident response.

NEW QUESTION # 17

Refer to the exhibit.

Automation Policy

Automation Policy

Name: Automation

Severity: ☐ Low ☐ Medium ☒ High

Rules: Group:Network

Time Range: ANY

Affected Items: ANY

Affected Orgs: Rule:Aviation

Action:

- ☒ Send Email/SMS/Webhook to the target users.
- ☒ Run Remediation/Script.
- ☐ Invoke an Integration Policy. Run: no policy
- ☐ Create Case when an incident is created.
- ☐ Send SNMP message to the destination set in Admin > Settings > Analytics.
- ☐ Send XML file over HTTP(S) to the destination set in Admin > Settings > Analytics.
- ☐ Open Remedy ticket using the configuration set in Admin > Settings > Analytics.
- ☐ Invoke FortiAI and update Comments.

Settings:

- ☐ Do not notify when an incident is cleared automatically.
- ☐ Do not notify when an incident is cleared manually.
- ☐ Do not notify when an incident is cleared by system.

Remediation/Script Options

Automation Policy > Define Script/Remediation

Type: ☐ Legacy Script ☒ Remediation Script

Script: Fortinet FortiOS - Block Source IP FortiOS via API

Protocol: HTTPS

Enforce On: Device:FortiGate508, Device:FortiGate900

Run On: Supervisor

VDOM:

< Save < Cancel

If a rule containing the automation policy shown in the exhibit triggers, what will happen?

- A. Associated source IP addresses will be blocked on devices in the Aviation organization.
- B. Associated source IP addresses will be blocked on all FortiGate firewalls.
- C. Associated source IP addresses will be blocked on two FortiGate firewalls.
- D. Associated source IP addresses will be blocked on devices in the Network CMDB group.

Answer: C

Explanation:

The automation policy is configured to run a remediation script named "Fortinet FortiOS - Block Source IP FortiOS via API". It specifies enforcement on two FortiGate devices: FortiGate508 and FortiGate90D. Therefore, associated source IP addresses will be blocked on those two FortiGate firewalls only.

NEW QUESTION # 18

Refer to the exhibit.

Event Attribute

FORTINET®

The screenshot shows the Fortinet FortiSIEM search interface. The 'Filter By' section has three tabs: 'Event Keywords', 'Event Attribute' (selected), and 'CMDB Attribute'. Below the tabs, there are buttons for 'Clear All', 'Load', and 'Save'. The main filter configuration table has columns: 'Paren', 'Attribute', 'Operator', 'Value', 'Paren', 'Next', and 'Row'. The first row shows a minus sign in the 'Paren' column, a plus sign in the 'Attribute' column, the text 'Raw Event Log' in the 'Attribute' field, an equals sign '=' in the 'Operator' dropdown, and the text 'udp' in the 'Value' field. The 'Next' column shows a plus sign, the text 'AND', and the text 'OR'. The 'Row' column has a plus sign and a trash icon. Below the filter table, there is a 'Time Range' section with three tabs: 'Real-time', 'Relative' (selected), and 'Absolute'. Under 'Relative', there is a 'Last' field with the value '2' and a 'Hours' dropdown. Below that is a 'Trend Interval' section with an 'Auto' dropdown. At the bottom, there is a 'Result Limit' section with a field showing '100' and the text 'K rows'. On the right side, there are three buttons: 'Apply & Run' (highlighted in blue), 'Apply', and 'Cancel'.

A FortiSIEM device is receiving syslog events from a FortiGate firewall. The FortiSIEM analyst is trying to search the raw event logs for the last two hours that contain the keyword "udp". However, they are getting no results from the search, which they know should be available. Based on the filter shown in the exhibit, why are there no search results?

- A. The analyst selected = in the Operator column. That is the wrong operator.
- B. The keyword is case sensitive. Instead of typing udp in the Value field, the analyst should type UDP.
- C. The Time Range value should be set to Real-Time.
- D. The analyst selected AND in the Next column. This is the wrong Boolean operator.

Answer: A

Explanation:

The operator is set to "=", which performs an exact match on the entire raw event log, not a substring search. To find logs that contain the keyword "udp", the analyst should use the CONTAIN operator instead. This will return all logs where "udp" appears anywhere in the raw log message.

NEW QUESTION # 19

Refer to the exhibit.

▶ Run Mode: *Local*

▶ Task: *Regression*

▶ Algorithm: *DecisionTreeRegressor*

▼ Fields to use for Prediction:

☐ AVG(CPU Util)

☒ AVG(Memory Util)

☒ AVG(Sent Bytes64)

☒ AVG(Received Bytes64)

▼ Field to Predict:

☒ AVG(CPU Util)

☐ AVG(Memory Util)

☐ AVG(Sent Bytes64)

☐ AVG(Received Bytes64)

What will happen when a device being analyzed by the machine learning configuration shown in the exhibit has a consistently high memory utilization?

- A. FortiSIEM will lower the CPU utilization trigger requirement for CPU utilization.
- **B. FortiSIEM will update the model with a higher memory utilization average value.**
- C. FortiSIEM will update the regression tables for memory utilization, and average sent and received bytes.

- D. FortiSIEM will trigger an incident for high memory utilization.

Answer: B

Explanation:

In the configuration shown, FortiSIEM uses Memory Util, Sent Bytes, and Received Bytes as input features to predict CPU Utilization via a regression model. If a device shows consistently high memory utilization, the model will incorporate that into its training data and update itself with a higher average value for memory utilization, influencing future CPU utilization predictions.

NEW QUESTION # 20

Which two settings must you configure to allow FortiSIEM to apply tags to devices in FortiClient EMS? (Choose two.)

- A. FortiSIEM API credentials defined on FortiEMS\
- B. ZTNA tags defined on FortiSIEM
- C. FortiEMS API credentials defined on FortiSIEM
- D. Remediation script configured

Answer: A,C

Explanation:

To allow FortiSIEM to apply tags to devices in FortiClient EMS, FortiEMS API credentials must be defined on FortiSIEM to enable communication with EMS, and FortiSIEM API credentials must be defined on FortiEMS to allow EMS to accept tagging instructions from FortiSIEM. This bidirectional API trust is essential for tag application.

NEW QUESTION # 21

.....

Are you preparing for the Fortinet FCP_FSM_AN-7.2 certification exam? Whether you're an experienced professional Fortinet FCP_FSM_AN-7.2 looking to take your career to the next level or a recent graduate trying to break into the tech field, the road to Fortinet FCP_FSM_AN-7.2 Certification can be a long and challenging one. The good news is that you do not have to navigate it alone.
