

Fortinet NSE5_FSM-6.3 Exam Questions 2025 in PDF Format

2025 Latest GetValidTest NSE5_FSM-6.3 PDF Dumps and NSE5_FSM-6.3 Exam Engine Free Share:
<https://drive.google.com/open?id=1WMKvfbg8b4mJD5REDOa1hm8dGfz1VL9z>

If your answer is yes then you need to start Channel Partner Program NSE5_FSM-6.3 test preparation with Fortinet NSE5_FSM-6.3 PDF Questions and practice tests. With the GetValidTest Channel Partner Program Fortinet NSE 5 - FortiSIEM 6.3 NSE5_FSM-6.3 Practice Test questions you can prepare yourself shortly for the final Fortinet NSE 5 - FortiSIEM 6.3 NSE5_FSM-6.3 exam.

Success in the Fortinet NSE5_FSM-6.3 exam is impossible without proper NSE5_FSM-6.3 exam preparation. I would recommend you select GetValidTest for your NSE5_FSM-6.3 certification test preparation. GetValidTest offers updated Fortinet NSE5_FSM-6.3 PDF Questions and practice tests. This NSE5_FSM-6.3 practice test material is a great help to you to prepare better for the final Fortinet NSE5_FSM-6.3 exam. GetValidTest latest NSE5_FSM-6.3 exam dumps are one of the most effective Fortinet NSE5_FSM-6.3 Exam Preparation methods. These valid Fortinet NSE5_FSM-6.3 exam dumps help you achieve better NSE5_FSM-6.3 exam results. World's highly qualified professionals provide their best knowledge to GetValidTest and create this Fortinet NSE5_FSM-6.3 practice test material. Candidates can save time because NSE5_FSM-6.3 valid dumps help them to prepare better for the Fortinet NSE5_FSM-6.3 test in a short time.

Latest NSE5_FSM-6.3 Training & NSE5_FSM-6.3 Cheap Dumps

To get NSE5_FSM-6.3 exam certification, you will strive for a further improvement. When you choose GetValidTest, it will help you pass NSE5_FSM-6.3 certification exam. If you buy GetValidTest's NSE5_FSM-6.3 Exam Dumps, we guarantee you will pass NSE5_FSM-6.3 test with 100%. After you select our NSE5_FSM-6.3 exam training materials, we will also provide one year free renewal service.

Fortinet NSE 5 - FortiSIEM 6.3 Sample Questions (Q65-Q70):

NEW QUESTION # 65

Refer to the exhibit.

What do the yellow stars listed in the Monitor column indicate?

- A. A yellow star indicates that a metric was not applied during discovery and, therefore, FortiSIEM was unable to collect data.
- B. A yellow star indicates that a metric was applied during discovery, but FortiSIEM is unable to collect data.
- C. A yellow star indicates that a metric was applied during discovery, and data has been collected successfully
- **D. A yellow star indicates that a metric was applied during discovery, but data collection has not started**

Answer: D

Explanation:

- * Monitor Column Indicators: In FortiSIEM, the Monitor column displays the status of various metrics applied during the discovery process.
- * Yellow Star Meaning: A yellow star next to a metric indicates that the metric was successfully applied during discovery and data has been collected for that metric.
- * Successful Data Collection: This visual indicator helps administrators quickly identify which metrics are active and have data available for analysis.
- * Reference: FortiSIEM 6.3 User Guide, Device Monitoring section, which explains the significance of different icons and indicators in the Monitor column.

NEW QUESTION # 66

If a performance rule is triggered repeatedly due to high CPU use, what occurs in the incident table?

- A. The incident status changes to Repeated, and the First Seen and Last Seen times are updated.
- B. A new incident is created based on the Rule Frequency value, and the First Seen and Last Seen times are updated.
- **C. The Incident Count value increases, and the First Seen and Last Seen times update.**
- D. A new incident is created each time the rule is triggered, and the First Seen and Last Seen times are updated.

Answer: C

Explanation:

Incident Management in FortiSIEM: FortiSIEM tracks incidents and their occurrences to help administrators manage and respond to recurring issues.

Performance Rule Triggering: When a performance rule, such as one for high CPU usage, is repeatedly triggered, FortiSIEM updates the corresponding incident rather than creating a new one each time.

Incident Table Updates:

- * Incident Count: The Incident Count value increases each time the rule is triggered, indicating how many times the incident has occurred.
- * First Seen and Last Seen Times: These timestamps are updated to reflect the first occurrence and the most recent occurrence of the incident.

References: FortiSIEM 6.3 User Guide, Incident Management section, explains how FortiSIEM handles recurring incidents and updates the incident table accordingly.

NEW QUESTION # 67

If an incident's status is Cleared, what does this mean?

- A. A security rule issue has been resolved.
- **B. A clear condition set on a rule was satisfied.**

- C. Two hours have passed since the incident occurred and the incident has not reoccurred.
- D. The incident was cleared by an operator.

Answer: B

Explanation:

Incident Status in FortiSIEM: The status of an incident indicates its current state and helps administrators track and manage incidents effectively.

Cleared Status: When an incident's status is "Cleared," it means that a specific condition set to clear the incident has been satisfied.

* Clear Condition: This is typically a predefined condition that indicates the issue causing the incident has been resolved or no longer exists.

Automatic vs. Manual Clearance: While some incidents may be cleared automatically based on clear conditions, others might be manually cleared by an operator.

References: FortiSIEM 6.3 User Guide, Incident Management section, detailing the various incident statuses and the conditions that lead to an incident being marked as "Cleared."

NEW QUESTION # 68

In FortiSIEM enterprise licensing mode, if the link between the collector and data center FortiSIEM cluster is down, what happens?

- **A. The collector buffers events**
- B. The collector drops incoming events like syslog, but stops performance collection.
- C. The collector processes stop, and events are dropped.
- D. The collector continues performance collection of devices, but stops receiving syslog.

Answer: A

Explanation:

Enterprise Licensing Mode: In FortiSIEM enterprise licensing mode, collectors are deployed in remote sites to gather and forward data to the central FortiSIEM cluster located in the data center.

Collector Functionality: Collectors are responsible for receiving logs, events (e.g., syslog), and performance metrics from devices.

Link Down Scenario: When the link between the collector and the FortiSIEM cluster is down, the collector needs a mechanism to ensure no data is lost during the disconnection.

Event Buffering: The collector buffers the events locally until the connection is restored, ensuring that no incoming events are lost.

This buffered data is then forwarded to the FortiSIEM cluster once the link is re-established.

References: FortiSIEM 6.3 User Guide, Data Collection and Buffering section, explains the behavior of collectors during network disruptions.

NEW QUESTION # 69

If the reported packet loss is between 50% and 98%, which status is assigned to the device in the Availability column of summary dashboard?

- A. Up status is assigned because of received packets.
- B. Critical status is assigned because of reduction in number of packets received.
- C. Down status is assigned because of packet loss.
- **D. Degraded status is assigned because of packet loss**

Answer: D

Explanation:

Device Status in FortiSIEM: FortiSIEM assigns different statuses to devices based on their operational state and performance metrics.

Packet Loss Impact: The reported packet loss percentage directly influences the status assigned to a device.

Packet loss between 50% and 98% indicates significant network issues that affect the device's performance.

Degraded Status: When packet loss is between 50% and 98%, FortiSIEM assigns a "Degraded" status to the device. This status indicates that the device is experiencing substantial packet loss, which impairs its performance but does not render it completely non-functional.

Reasoning: The "Degraded" status helps administrators identify devices with serious performance issues that need attention but are not entirely down.

References: FortiSIEM 6.3 User Guide, Device Availability and Status section, explains the criteria for assigning different statuses

based on performance metrics such as packet loss.

NEW QUESTION # 70

.....

Our NSE5_FSM-6.3 real materials support your preferences of different practice materials, so three versions are available. PDF version - legible to read and remember, support customers' printing request. Software version of NSE5_FSM-6.3 real materials - supporting simulation test system, and support Windows system users only. App online version of NSE5_FSM-6.3 Guide question - suitable to all kinds of equipment or digital devices, supportive to offline exercises on the condition that you practice it without mobile data. You can take a look of these NSE5_FSM-6.3 exam dumps and take your time to decide.

Latest NSE5_FSM-6.3 Training: https://www.getvalidtest.com/NSE5_FSM-6.3-exam.html

Choosing right study materials is a smart way for most office workers who have enough time and energy to attending classes about Latest NSE5_FSM-6.3 Training - Fortinet NSE 5 - FortiSIEM 6.3 braindumps torrent, Fortinet Latest NSE5_FSM-6.3 Test Pass4sure As a saying goes: Different strokes for different folks, Our NSE5_FSM-6.3 exam questions and answers are the most accurate and almost contain all knowledge points, Fortinet Latest NSE5_FSM-6.3 Test Pass4sure Sometimes you have no idea about your problems.

These five process groups comprise the project management Latest NSE5_FSM-6.3 Test Pass4sure lifecycle, The term window comes from the idea that if you lined up all the packets sent during a communication session in a long row but had only a small NSE5_FSM-6.3 aperture through which to view them, you would see only a subset of them—like peering through a window.

Get First-grade Latest NSE5_FSM-6.3 Test Pass4sure and Pass Exam in First Attempt

Choosing right study materials is a smart way for most office workers who NSE5_FSM-6.3 Cheap Dumps have enough time and energy to attending classes about Fortinet NSE 5 - FortiSIEM 6.3 braindumps torrent, As a saying goes: Different strokes for different folks.

Our NSE5_FSM-6.3 exam questions and answers are the most accurate and almost contain all knowledge points, Sometimes you have no idea about your problems, You really need our NSE5_FSM-6.3 practice materials which can work as the pass guarantee.
