

Free AI-102 Exam Questions - Free PDF Quiz 2025 AI-102: Designing and Implementing a Microsoft Azure AI Solution First-grade Latest Exam Preparation

P.S. Free 2025 Microsoft AI-102 dumps are available on Google Drive shared by PassLeaderVCE: https://drive.google.com/open?id=1KoOymY3xgPmdnxBj_yu9zgAmMBfUtdnx

Our AI-102 real study guide materials can help you get better and better reviews. This is a very intuitive standard, but sometimes it is not enough comprehensive, therefore, we need to know the importance of getting the test AI-102 certification, qualification certificate for our future job and development is an important role. Only when we have enough qualifications to prove our ability can we defeat our opponents in the harsh reality. We believe our AI-102 actual question will help you pass the AI-102 qualification examination and get your qualification faster and more efficiently.

PassLeaderVCE is driven by the ambition of making you succeed. Our Microsoft AI-102 study material offers you high-quality training material and helps you have a good knowledge of the AI-102 actual test. The team members of PassLeaderVCE work with a passion to guarantee your success and make you prosperous. We provide the AI-102 Test Engine with self-assessment features for enhanced progress.

Reliable Free AI-102 Exam Questions Help You to Get Acquainted with Real AI-102 Exam Simulation

What is the selling point of a product? It is the core competitiveness of this product that is ahead of other similar brands. The core competitiveness of the AI-102 study materials, as users can see, we have a strong team of experts, the AI-102 study materials are advancing with the times, updated in real time, so that's why we can with such a large share in the market. Through user feedback recommendations, we've come to the conclusion that the AI-102 Study Materials have a small problem at present, in the rest of the company development plan, we will continue to strengthen our service awareness, let users more satisfied with our AI-102 study materials, we hope to keep long-term with customers, rather than a short high sale.

Microsoft AI-102 certification exam is an excellent opportunity for professionals to validate their skills and knowledge in designing and implementing AI solutions on the Azure platform. With the growing demand for AI solutions in various industries, this certification can help professionals advance their careers and stay competitive in the job market.

The AI-102 certification exam covers a wide range of topics, including designing AI solutions, implementing AI workflows, deploying AI models, and maintaining AI solutions. AI-102 exam is designed for professionals who have experience with Azure services, data science, and machine learning. Designing and Implementing a Microsoft Azure AI Solution certification exam is designed to test a candidate's knowledge of Azure Cognitive Services, Azure Machine Learning, and other Azure AI tools.

The AI-102 Certification Exam is a valuable credential for professionals who are looking to advance their careers in the field of AI and machine learning. By passing AI-102 exam, candidates will demonstrate that they have a strong understanding of Azure AI services and are capable of designing and implementing intelligent solutions that meet the needs of their organization. Designing and Implementing a Microsoft Azure AI Solution certification is also a valuable asset for organizations that are looking to build their AI

capabilities and want to ensure that their employees have the skills and knowledge necessary to design and implement effective AI solutions.

Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q12-Q17):

NEW QUESTION # 12

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You develop an application to identify species of flowers by training a Custom Vision model. You receive images of new flower species.

You need to add the new images to the classifier.

Solution: You create a new model, and then upload the new images and labels.

Does this meet the goal?

- A. No
- B. Yes

Answer: A

Explanation:

The model needs to be extended and retrained.

NEW QUESTION # 13

You are developing a webpage that will use the Video Indexer service to display videos of internal company meetings.

You embed the Player widget and the Cognitive Insights widget into the page.

You need to configure the widgets to meet the following requirements:

Ensure that users can search for keywords.

Display the names and faces of people in the video.

Show captions in the video in English (United States).

How should you complete the URL for each widget? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a configuration interface for Video Indexer widgets. On the left, there is a 'Values' pane with a list of available values: 'en-US', 'false', 'people,keywords', 'people,search', 'search', and 'true'. On the right, there is an 'Answer Area' with two widget configuration sections. The 'Cognitive Insights Widget' section shows a URL template: `https://www.videoindexer.ai/embed/insights/<accountId>/<videoId>/?widgets=` followed by a 'Value' input field, and a 'controls=' label followed by another 'Value' input field. The 'Player Widget' section shows a URL template: `https://www.videoindexer.ai/embed/player/<accountId>/<videoId>/? showcaptions=` followed by a 'Value' input field, and a 'captions=' label followed by another 'Value' input field. A large, semi-transparent watermark 'passleadervce.com' is overlaid across the center of the interface, and the Microsoft logo is visible at the bottom center.

Answer:

Explanation:

Values	Answer Area
en-US false people,keywords people,search search true	Cognitive Insights Widget https://www.videoindexer.ai/embed/insights/<accountId>/<videoId>/?widgets= people,keywords controls= search ue Player Widget https://www.videoindexer.ai/embed/player/<accountId>/<videoId>/? showcaptions= true alue captions= en-US Value 

NEW QUESTION # 14

You are developing an application that includes language translation.

The application will translate text retrieved by using a function named `getTextToBeTranslated`. The text can be in one of many languages. The content of the text must remain within the Americas Azure geography.

You need to develop code to translate the text to a single language.

How should you complete the code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

```

* * *
var endpoint = ;

var apiKey = "FF956C68883B21B38691A8D200A4C606";
var text = getTextToBeTranslated();
var body = '[{"Text":"' + text + '"}]';
var client = new HttpClient();
client.DefaultRequestHeaders.Add("Ocp-Apim-Subscription-Key", apiKey);

var uri = endpoint + ;
var uri = endpoint + ;
var uri = endpoint + ;

HttpResponseMessage response;
var content = new StringContent(body, Encoding.UTF8, "application/json");
var response = await client.PutAsync(uri, content);

```

Answer:

Explanation:

```

...
var endpoint = ;

var uri = endpoint + "&from=en";
var uri = endpoint + "&suggestedFrom=en";
var uri = endpoint + "&to=en";

var apiKey = "FF956C68883B21B38691ABD200A4C606";
var text = getTextToBeTranslated();
var body = '[{"Text":"' + text + '"}]';
var client = new HttpClient();
client.DefaultRequestHeaders.Add("Ocp-Apim-Subscription-Key", apiKey);

var uri = endpoint + "&from=en";
var uri = endpoint + "&suggestedFrom=en";
var uri = endpoint + "&to=en";

HttpResponseMessage response;
var content = new StringContent(body, Encoding.UTF8, "application/json");
var response = await client.PutAsync(uri, content);

```

Explanation

Graphical user interface, text, application, email Description automatically generated

```

...
var endpoint = ;

var uri = endpoint + "&from=en";
var uri = endpoint + "&suggestedFrom=en";
var uri = endpoint + "&to=en";

var apiKey = "FF956C68883B21B38691ABD200A4C606";
var text = getTextToBeTranslated();
var body = '[{"Text":"' + text + '"}]';
var client = new HttpClient();
client.DefaultRequestHeaders.Add("Ocp-Apim-Subscription-Key", apiKey);

var uri = endpoint + "&from=en";
var uri = endpoint + "&suggestedFrom=en";
var uri = endpoint + "&to=en";

HttpResponseMessage response;
var content = new StringContent(body, Encoding.UTF8, "application/json");
var response = await client.PutAsync(uri, content);
...

```

NEW QUESTION # 15

Select the answer that correctly completes the sentence.

Answer Area

The massively parallel processing (MPP) engine of Azure Synapse Analytics

- distributes processing across compute nodes.
- distributes processing across control nodes.
- redirects client connections across compute nodes.
- redirects client connections across control nodes.

Answer:

Explanation:

Answer Area

The massively parallel processing (MPP) engine of Azure Synapse Analytics

distributes processing across compute nodes. —
distributes processing across control nodes. —
redirects client connections across compute nodes.
redirects client connections across control nodes.

Microsoft

Explanation:

Answer Area

The massively parallel processing (MPP) engine of Azure Synapse Analytics

distributes processing across compute nodes.

Microsoft

NEW QUESTION # 16

You are using a Language Understanding service to handle natural language input from the users of a web-based customer agent. The users report that the agent frequently responds with the following generic response: "Sorry, I don't understand that." You need to improve the ability of the agent to respond to requests.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order. (Choose three.)

Actions	Answer Area
Add prebuilt domain models as required.	
Validate the utterances logged for review and modify the model.	
Migrate authoring to an Azure resource authoring key.	
Enable active learning.	
Enable log collection by using Log Analytics.	
Train and republish the Language Understanding model.	

Answer:

Explanation:

Actions

Validate the utterances logged for review
and modify the model.

Enable active learning.

Train and republish the Language Understanding model.

Answer Area

Enable active learning.

Train and republish the Language Understanding model.
