SAP C-S4EWM-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Warehouse Management (Monitor - Cockpit): This topic involves monitoring warehouse activities using the Warehouse Management Monitor, Warehouse Cockpit, and analytical apps.
Topic 2	<ul style="list-style-type: none">Outbound Processes (Wave Management, Cross-docking, Production Integration): This topic covers combining outbound deliveries using wave management, packing and kitting in outbound processes, and staging products for production.

Topic 3	<ul style="list-style-type: none"> Internal processing (Physical Inventory, Replenishment): This topic involves defining physical inventory processes and setting up and executing replenishment.
Topic 4	<ul style="list-style-type: none"> System Integration, Master Data and Delivery Document Customizing: This focuses on setting up system integration, distributing master data, and customizing delivery documents.
Topic 5	<ul style="list-style-type: none"> Warehouse Structure, Resource Management and SAP EWM Master Data: This topic encompasses defining the warehouse structure and setting up resource management, along with creating SAP EWM master data like storage bins and products, packaging specifications, supply chain units, and business partners.
Topic 6	<ul style="list-style-type: none"> Managing Clean Core: It covers evaluating and applying clean core principles to ERP to maximize business process agility, reduce adaptation efforts, and accelerate innovation.
Topic 7	<ul style="list-style-type: none"> Inbound Processes (Value Added Services, Cross-docking, Quality Management): This topic includes executing inbound processes with value added services (VAS) or deconsolidation, and setting up deliveries for cross-docking (CD) or quality inspection (QIE).
Topic 8	<ul style="list-style-type: none"> Process and Layout Oriented Storage Control: It covers creating customizing settings and using Process and Layout-Oriented Storage Control.
Topic 9	<ul style="list-style-type: none"> Warehouse Processing, Warehouse Task and Order Creation, Strategies: This topic includes defining warehouse process types and setting up determination, as well as defining putaway and picking strategies.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q38-Q43):

NEW QUESTION # 38

What are the advantages of using a mobile device during physical inventory? Note: There are 2 correct answers to this question.

- A. It is optional to block bin.
- B. There is a special SAP Fiori app available.
- C. You can use collective counting for bulk storage.
- D. The stock is immediately corrected in SAP ERP.

Answer: C,D

Explanation:

Using a mobile device during physical inventory provides the following advantages:

* The Stock is Immediately Corrected in SAP ERP (B):

* Real-time integration ensures that any adjustments made during physical inventory are immediately updated in SAP ERP, reflecting accurate stock levels.

* You Can Use Collective Counting for Bulk Storage (C):

* Mobile devices support collective counting, allowing multiple bins or storage areas to be counted simultaneously, which is particularly useful for bulk storage locations.

Incorrect Options:

* A: While SAP Fiori apps are available for some inventory functions, the mobile device functionality in physical inventory extends beyond app-specific use.

* D: Blocking bins is optional but not a distinct advantage of using mobile devices.

References:

* SAP Help Portal: Mobile Data Entry for Physical Inventory

* SAP EWM Documentation: Physical Inventory with Mobile Devices

NEW QUESTION # 39

Which of the following actions are possible based on a value-added service (VAS) order? Note: There are 3 correct answers to this question.

- A. Assemble a kit
- B. Capture costs
- C. Capture time required
- D. Consume auxiliary products
- E. Perform quality inspection

Answer: A,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation:

A VAS order in SAP EWM supports additional services during processing. Option A ("Assemble a kit") is correct as kitting is a common VAS activity. Option B ("Consume auxiliary products") is correct because VAS often uses materials like packaging, and option D ("Capture time required") is correct as Labor Management tracks VAS execution time, all configured in SPRO: SCM Extended Warehouse Management > Value-Added Services. Option C (quality inspection) is a separate QM process, and option E (costs) is tracked indirectly, not directly via VAS orders.

NEW QUESTION # 40

Where do you enable opportunistic cross-docking in a decentralized EWM? (Repeated question from batch 1, included for completeness)

- A. In the warehouse and the document type
- B. In the product and the document type
- C. In the product and the warehouse process type
- D. In the warehouse and the product

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Opportunistic cross-docking in decentralized EWM is enabled at the product level and linked to the warehouse process type. Option B ("In the product and the warehouse process type") is correct, configured in the product master (Warehouse tab) and SPRO: SCM Extended Warehouse Management > Cross-Docking > Opportunistic Cross-Docking. Options A, C, and D miss the critical process type linkage. (See Question 1 for full details.)

NEW QUESTION # 41

What are characteristics of the early capacity check? Note: There are 2 correct answers to this question.

- A. It is done during the actual putaway process
- B. It is based on capacities of bin types
- C. It happens during the warehouse task creation
- D. It is only available when working with mobile devices

Answer: B,C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The early capacity check in SAP EWM ensures bins can accommodate stock before task execution. Option C ("It happens during the warehouse task creation") is correct as it occurs when tasks are generated, and option D ("It is based on capacities of bin types") is correct because it uses bin type capacity data, both configured in SPRO: SCM Extended Warehouse Management > Goods Receipt Process > Capacity Check. Option A (mobile devices) is incorrect as it's not device-specific, and option B (during putaway) is too late for an "early" check.

NEW QUESTION # 42

What can you do with a storage group? Note: There are 2 correct answers to this question.

- A. Assign it to multiple storage bins.
- B. Use it to define a logical or physical breakdown of a storage type.
- C. Assign it as an intermediate storage group.

- D. Use it in process-oriented and layout-oriented storage control.

Answer: A,D

Explanation:

A storage group in SAP EWM provides the following functionalities:

- * B. Assign it to Multiple Storage Bins:
- * Storage groups can group multiple bins for logical or operational purposes.
- * C. Use it in Process-Oriented and Layout-Oriented Storage Control:
- * Storage groups are critical for defining steps in process-oriented or layout-oriented storage control, especially when managing complex storage operations.

Incorrect Options:

- * A: Storage types are defined independently, and storage groups do not directly break them down.
- * D: There is no direct configuration for assigning a storage group as an intermediate storage group.

References:

- * SAP EWM Documentation: Storage Group Configuration
- * SAP Help Portal: Using Storage Groups in Storage Control

NEW QUESTION # 43

.....

You need to do something immediately to change the situation. For instance, the first step for you is to choose the most suitable C-S4EWM-2023 actual dumps for your coming exam. Just like the old saying goes, the little things will determine success or failure. So the study materials is very important for you exam, because the study materials will determine whether you can pass the C-S4EWM-2023 Exam successfully or not. However, how to choose the best and suitable study materials for yourself in a short time? It is very difficult for a lot of people to do a correct choice, especially these people who have no any experience about the C-S4EWM-2023 exam. We would like to tell you how to buy the most suitable and helpful study materials.
