NEW QUESTION # 40

Your buyers are very attentive in maintaining the approved supplier lists as needed. One of your planners regularly uses the portal to communicate with some of their key suppliers and has noticed that the publication process is taking a lot longer to complete because the business has grown. The planner is also complaining that the collaboration candidates' list is cluttered with items that are not yet required.

Which two steps should you take to address the planner's complaint?

- A. Activate the "Ignore for Supplier Collaboration" item attribute.
- B. Activate a Supply Chain Collaboration setting to ignore zero forecast combinations.
- C. Activate a profile option called "Publish Order Forecast Using Sourcing Rules".
- D. Disable the decomposition and generate candidates' parameters in the Publish Order Forecast scheduled process.
