Real 300-815 Questions, New 300-815 Test Experience

Some candidates may want to get the 300-815 exam braindumps as soon as possible after they buying it, if you also want to get the 300-815 exam braindumps quickly, we can do it for you. You pay for the 300-815 exam dumps, we will send you the downloading link and password to you about five to ten minutes by email. What's more our 300-815 Exam Braindumps is of high quality, it will help you to pass the exam successfully.

Cisco 300-815 exam is a certification test designed to assess and validate the knowledge and skills of IT professionals responsible for implementing advanced call control and mobility services in Cisco networks. 300-815 exam tests candidates on their ability to deploy, configure, troubleshoot, and manage various Cisco technologies and solutions related to call control and mobility services. Passing 300-815 Exam demonstrates that an individual has the expertise required to design and implement complex Cisco call control and mobility solutions.

Cisco Implementing Cisco Advanced Call Control and Mobility Services Sample Questions (Q174-Q179):

NEW QUESTION # 174
Refer to the exhibit. Calls incoming from the provider are not working through newly set up Cisco Unified Border Element. Provider

engineers get the 404 Not Found SIP message. Incoming calls are coming from the provider with called number "222333444" and Cisco Unified Communications Manager is expecting the called number to be delivered as "444333222". The administrator already verified that the IP address of the Cisco Unified CM is set up correctly and there are no dial peers configured other than those shown in the exhibit.

Which action must the administrator take to fix the issue?

```
voice translation-profile incoming
    translate called 999
!
voice translation-rule 999
    rule 1/\ (^[1-2] [1-2] [1-2]\ ) 333\ ([4-5] [4-5] .\) $ /  / \2333\1/
!
dial-peer voice 999 voip
    translation-profile outgoing incoming
    session protocol sipv2
    incoming called-number
    dtmf-relay rtp-nte
    codec transparent
    destination dpg 888
    no vad
!
voice class dpg 888
    dial-peer 888
!
dial-peer voice 888 voip
    destination-pattern 888
    session protocol sipv2
    session target ipv4:192.168.0.1
    codec transparent
    dtmf-relay rtp-nte
    no vad
```

- A. Set up translation-profile on the incoming dial peer to match incoming traffic.
- B. Change the destination-pattern on the outgoing dial peer to match "444333222".
- C. Fix the voice translation-rule to match specifically number "222333444" and change it to "444333222".
- D. Create specific matching for "222333444" on the incoming dial peer.

Answer: A

Explanation:
The translation rule is set for outbound but this is an inbound dial peer which only uses inbound translations. (The name of the translation rule is "inbound" but the name does not change the direction it is actually used in).
The incoming called-number command missing the dot is probably a typo. Even if you make it more specific and match 2223334444 the translation rule would not be applied because it is assigned the wrong direction.
This config uses Dial Peer Groups which ignores the outgoing destination pattern so changing 888 to 444333222 would do nothing.

NEW QUESTION # 175
Refer to the exhibit.

In an active SIP call between phone user A and phone user B, phone A initiates a call transfer to phone user C.
Which two scenarios are correct? (Choose two.)

- A. As soon as Phone_A presses the Transfer button for the first time, Phone_B hears the MOH and the MOH audio is chosen from Phone_B User Hold MOH Audio Source settings.
- B. Phone_A sends a SIP-REFER message to the Cisco Unified Communications Manager with Phone_C information in the Refer-To section.
- C. Phone_B sends a SIP-REFER message to the Cisco Unified CM with Phone_C information in the Refer-To section.
- D. As soon as Phone_A presses the Transfer button for the first time, Phone_B hears the music on hold and the MOH audio

is chosen from Phone_A Network Hold MOH Audio Source settings.
- E. As soon as Phone_A presses the Transfer button for the first time, Phone_B hears the MOH and the MOH audio is chosen from Phone_A User Hold MOH Audio Source settings.

Answer: A,B

NEW QUESTION # 176

You see the voice register pool 1 command in your Cisco Unified Communications Manager Express configuration. Which configuration is occurring in this section?

- A. configuration for a pool of SIP phones (similar to device pool on Cisco Unified Communications Manager)
- B. configuration items common for all SIP phones
- C. configuration for a single SIP phone
- D. configuration for SIP registrar service

Answer: A

Explanation:

NEW QUESTION # 177

A Collaboration engineer is implementing call processing capabilities on the Cisco UCM and needs to configure Call Queuing to place callers in a queue until hunt members are available to answer them. Which action must be completed before this feature can be configured?

- A. Service the Cisco IP Voice Media Streaming (IPVMS) application.
- B. Configure Music On Hold.
- C. Configure announcements.
- D. Configure Hunt Pilot Queuing.

Answer: D

NEW QUESTION # 178

An administrator is configuring a SIP trunk to an ITSP. The SIP connection will traverse from a Cisco UCM to the ISTP through a Cisco Unified Border Element. The ITSP has indicated that they require an in-band method for DTMF. Which command on the outbound dial-peer to the ITSP will meet this requirement?

- A. router (config-dial-peer) dtmf-relay sip-kpml
- B. router (config-dial-peer) dtmf-relay rtp-nte
- C. router (config-dial-peer) dtmf-relay sip-notify
- D. router (config-dial-peer) dtmf-relay h245-alphanumeric

Answer: B

NEW QUESTION # 179

......

A Implementing Cisco Advanced Call Control and Mobility Services (300-815) practice questions is a helpful, proven strategy to crack the Implementing Cisco Advanced Call Control and Mobility Services (300-815) exam successfully. It helps candidates to know their weaknesses and overall performance. TorrentVCE software has hundreds of Implementing Cisco Advanced Call Control and Mobility Services (300-815) exam dumps that are useful to practice in real-time.
